Shannen says

This book uses the phrase "the teenage witch" WAY too often. Also "Sabrina's mom" which seems particularly hypocritical when the book ends with Sabrina making a comment that she didn't know how cool her mom was because she always thought of her as just a mom and kinda sexist when her dad is referred to by HIS NAME as much as "her dad".

Also she never found out why her mom got into archaeology in the first place! That was the motivation behind her whole time travel excursion! Very frustrating.

Haven't read it in a while but remember it as a highly enjoyable and entertaining novel. I think that statement speaks for itself :p

Lauren says

I loved all of the Sabrina tales full of magic. Every story was a different adventure and some new and exciting challenge to overcome. These books made me want to have magical powers too but the ending results were hilarious.
