In just one week, supernatural warrior Myla Lewis must discover enough evidence to send the evil House of Acca to prison... or she'll end up in jail herself, along with her fiancé, Prince Lincoln. No pressure.

To gather proof, Myla and Lincoln go undercover at an all-girl's high school on Earth. Lincoln acts as the new gym teacher; Myla becomes the school's least popular transfer student ever. To stop them from getting the goods, Acca releases Hell on Earth. Literally. Good thing Myla and Lincoln aren't afraid of a tough fight. This one promises to be the hardest yet. After all, who ever said high school wasn't hell?

## From Reader Review Acca for online ebook

### Jess says

I loved the first book of the series so much. So, imagine my disappointment when I ended up hating this.

My favorite thing about the first book was Myla's character; she seemed so funny and all-out kickass. But here, I only identified her as.... juvenile. She actually yelled "Eat death" before fighting. No, she was not joking, she was completely serious. I repeatedly found myself questioning her age and kept going back to reread the fact that she was about 20. She did not seem 20. At all. Maybe more 15.

Also, the thing with her tail.... why does she call it "boy"? The fact that it apparently is a different entity altogether which she cannot control (except evidently when she fights) is something I'm not even going to touch. But boy? She's a girl. And the tail is attached to her. But she sees it as a masculine object/character. What? That confused me. A lot.

Overall, I was just terribly disappointed with this book.

---

### Anne Monteith says

There's so much going on in the 3rd book in the series; the deadline to prove that Acca is rapidly approaching and is they can't find the evidence they need to prove that Myla is the Great Scala and the house of Acca hid the evidence then they and House Thrax will be found guilty. With just seven days left before the court case and eight days before their long awaited wedding something goes wrong and they are left hustling to get what they need.

One of my favorite things in this series is Myla's sass, snark and kick-butt attitude and while it was here there was also more darkness that I have not seen in the previous books. Also, there seemed to be more repetition (example: followers know that Sissy is her best friend and we don't need it repeated again and again), there were others but I won't list them and while it's not a big deal I find it annoying and feel that the editor should have caught it.

4.25/5 STARS: \*\*I want to thank the author and/or publisher for providing me with a copy of this book via NetGalley in exchange for an honest review; all opinions are mine.\*\*

---

### Dianne says

Nothing like a deadline to put the exclamation point on the troubles Myla and Lincoln have. Seven days stand between them and the ambiance of an Aca prison. In a desperate play to find proof that dark magic has been used to usurp the honor of Myla's rightful title as Great Scala and to save their upcoming nuptials, Myla and Lincoln must head to Earth and Myla's personal version of hell, high school. It is here they must uncover the proof they need in order to save Hell overpowering all the realms.

Really? High school for Myla? I have to hand it to Christina Bauer's wit and clever storytelling, **ACCA** is a true test to how much Myla has grown and how far she will go to save her world! Irreverent as ever, but

clearly a young woman of strength and honor, Myla is as entertaining as she is impressive with her mad fighting skills, as well as her ability to act out an undercover sting! Okay, maybe its Lincoln's ability to keep her in check that saves the day, but whatever it is, these two are an incredible duo that make the term soulmates come alive.

Once again, at the risk of sounding like a broken record, I love this series and Christina Bauer's style!

Acca – Christina Bauer

Kindle Edition

I received a complimentary copy via NetGalley for review purposes.

It has been a while since I've read the previous books in Ms. Bauer's series that I'd forgotten how incredibly fun her character, the great Scalla truly is. A mix between Buffy and an millennial, her, first person narration is fun and flirty with enough sly Easter eggs for the book nerd out there, pages turn themselves.

Her world-building is excellent – her vision of Heaven, Hell and Purgatory with its royal families. Arch angels and arch-demons is nearly as eventful as the great master Dante Algeria.

However, there is a slight irritation of the constant use of first person, present tense to force a sense of tension that is unnecessary that draws away from the story. I will forgive, Ms. Bauer for that Hamiltonverse, the language usage is supreme and more of a weapon than any of the spells or ancient Angelic/Demonic weapons Ms. Bauer legacy will lie in the way her main character speaks and acts. And frankly, I want a demonbar for a nibble!

The side characters, from her future mother in law to Connor the keeper of all knowledge are interesting and half filled out but lacking in the Whedonverse in terms of fullness and completeness.

Again, her tail and it's absolute adorableness will win forgiveness as Ms. Bauer successfully combines Gen X and it's hispterness with Millennial's and their disaffectation.

The plot while not complex it certainly fun. It, again reminds one of the Buffyverse and should be highly complimented for this.

I particularly approve of the soon to be mother in law. Octavia. She combines both a 60's superheroine with

and 80's diva. Out of 5, Octavia alone scales a 5.

The male characters seem to lack the depth of Ms. Bauer's female characters, something which I am willing to forgive her on the basis of how many male writers slim down their female characters to either pushy broads or flighty chicks.

All together, 6 out of 5 for the humor and sly wit. But since that is not allowed, 5 sly winks out of 5.

Title: Acca

Series: Angelbound Origins (#3)

Author: Christina Bauer

From: Netgalley

Genre: Fantasy

Release Date: 13th December 2016

Challenges: 2016 New Release Challenge, 2016 Netgalley & Edelweiss Challenge, 2016 Prequel & Sequel Challenge (2 points)

Links: Goodreads - Amazon

Synopsis (from Goodreads): In just one week, supernatural warrior Myla Lewis must discover enough evidence to send the evil House of Acca to prison... or she'll end up in jail herself, along with her fiancé, Prince Lincoln. No pressure. To gather proof, Myla and Lincoln go undercover at an all-girl's high school on Earth. Lincoln acts as the new gym teacher; Myla becomes the school's least popular transfer student ever. To stop them from getting the goods, Acca releases Hell on Earth. Literally. Good thing Myla and Lincoln aren't afraid of a tough fight. This one promises to be the hardest yet. After all, who ever said high school wasn't hell?

Acca could be read as a standalone as there is enough information during the course of the story to catch a reader up on the events of previous books. However, for the full affect, I think it is better to read at least the first two in the series. I've also read the last book in the series Armageddon (as it was already out) and the two Angelbound Offspring books, so picked up on a bit of foreshadowing in this book!

THE WEDDING! Totally not a spoiler because Myla is wearing her wedding dress on the cover! Oh it was all kinds of perfect! Just Myla and Lincoln from start to finish! I was reading the wedding scenes with a smile on my face, and there's little doubt as to why.

Myla and Lincoln's relationship is well and truly established by this point. Despite the fact that the two of them have some major hurdles to overcome (like their people hating each other), their foundation is solid. The two of them work together well as a team and there is mutual respect. While they do want to protect each other, neither of them goes about it in a way that suggests the other isn't capable of that.

I'd forgotten how funny Myla is as a narrator! The last two Angelbound books I read were Maxon and Portia, the Offspring books which were narrated by their namesakes. Each of them is their own person, but neither of them come close to Myla in snarkiness! (Probably a good thing or I'd end up feeling very sorry for poor Lincoln!)

This book had it all, there was action, romance, and snark enough to make you smile!

### **Ashlee Reed says**

First off, let me start by saying, finding the first book AngelBound in my local library, is one of the BEST things ever! This series is a whole lot of amazing and a ton of badassness!

CB truly has brought a whole new look to sci-if/fantasy and I am completely in love. The AngelBound Origins Series proves that just because you are a demon and live in purgatory doesn't mean you're bad and can't help save the world! CB also truly writes like someone would talk, it's not a formal way of writing and when I first started reading the series it took some adjusting, but it is sooo worth the read!

I have been waiting for this series what feels like forever. Lincoln and Myla are just to fantastic. In the first book you HATE Lincoln and then you are head over heels for him! I catch myself laughing and smiling at things Myla says or Lincoln does for Myla. I also find myself hating characters and rejoicing when the baddies get their asses bitten by Karma.

The only part I found a little disappointing was the big fight scene with Armageddon was a short one. Myla's such a warrior I was hoping to see her battle it out a little more and maybe more detail on the dress during the wedding. CB, my friend, you have truly outdone yourself!!!

---

### **Teresa says**

Acca is the 3rd book in the Angelbound Origins series and the 3rd book I have listened to on Audiobook. I love this series. I love seeing what Myla is going to get herself into next. So far we have seen her come from a almost normal teenager to being engaged and becoming the Scala of the After Realm and now finally She and Lincoln are getting married. If they can stay out of jail and live long enough.

This book was one of my favorite so far. Myla is actually running things now. Lincoln and Myla have to get the proof needed to finally get the House of Acca put into prison. They get it but it is stolen before they can use it. To get the Rixa Codex back which holds the recoded proof they need they have to make a quick trip to Earth. Once on Earth they have to fight the Acca there too, and be back in time for not only court but their wedding day.

I cannot wait for the next book in this series to see if things gt more intense or calm down a little bit while Myla and Lincoln enjoy their new wedded bliss. And also to see if their is a little Myla or Lincoln on the way.

There are a few colorful words in the book but there is no strong sex scenes. There are 2 scenes in this book but they leave the actual act to your imagination instead of spelling it all out for you.

---

### **Hannah L (Reviewer) says**

Another installment in the Angelbound series, Acca goes a little back in time to when Myla and Lincoln are just about to get married. Right before their nuptials, the Earl of Acca is hatching a scheme to kill the lovely

couple and take over their kingdom. Having to fight both demons and Thrax alike, Myla and Lincoln do not have an easy path before them to marriage. As the plot thickens and the risks get greater, Myla and Lincoln must fight for what they want and what they love.

Not as interesting as other instalments in the series, Acca starts to tie up some plot points that had been previously skipped over in the making of Armageddon. Fans of the series will be glad to see more of their favourite and most hated characters. Myla and Lincoln are consistent characters to who they were in previous novels, with their witty kick-butt-ery ways. This novel did contain a good amount of action and mystery, as well as political discourse and magical intervention. Myla's powers are still very cool along with the dragon tail which is extra cool. The romance in this novel was not as interesting as it was in previous novels, but it was still pretty good, although I must warn there were some heated moments with mildly inappropriate content in them. Not suited for young readers. Ultimately, I give Acca the rating of FOUR OUT OF FIVE STARS!!!

### **Aneta Bak says**

Another amazing book in the Angelbound series! This is one of my favourite series and I absolutely cannot wait to read the next book, as well as the last one in the series.

We continue the story basically where Scala left off. After the death of Adair, Aldred goes straight to work to ruin the lives of Myla and Lincoln. This time, while Myla and Lincoln are out gathering evidence to send the House of Acca to prison, all their evidence is stolen and the guard killed. With Myla and Lincoln about to be sent to jail, they manage to escape with the help of Myla's dad and find themselves on Earth. Where they learn that Aldred may be trying to bring back Armageddon for good. Will they be able to clear their names and prevent Armageddon from coming back before its too late?

Being totally honest, I was really worried that this book was not going to be as good as the others in this series. I found that it started out a bit slow, and it was a bit boring in the beginning. I just couldn't read the whole thing, and kept putting the book down. It wasn't till about 60 or 70% into the book where the action and storyline really had me hooked and I just read the rest in one sitting. Usually Christina Bauer is really good with making the whole book exciting, but unfortunately this one wasn't it.

If you have read the previous books in this series, definitely give this one a chance. Once you get past the beginning, the ending is definitely worth it. I would read the whole book over again just to get to that part.

If you haven't read the first books, I definitely recommend reading those first. This is a fantastic series for all fans of fantasy and action. Take my word for it, you will love it.

Happy Reading,  
- Aneta

---

### **Lillian ? Cloud 9 Books ? says**

\*\*\*\*\* 4 Stars \*\*\*\*\*

*Cannot be read as a standalone*

I highly recommend reading the previous books before starting **Acca** to have a better understanding of the characters and realms.

In this third book, Myla and Lincoln are up against Lady Adair's father, Aldred, and of course Armageddon. If Aldred and Armageddon get possession of a magical coin, demons will be able to leave hell and create havoc everywhere.

As Lincoln and Myla's wedding day draws near, the two have to work together to find the coin before their enemies.

The story had some good fight scenes and I really enjoyed it. The only issue I had with this book was Myla's immaturity.

---

### **Nancy (The Avid Reader) says**

Myla and Lincoln are getting married! The two moms have the wedding all planned out. Lincoln's mom has a ball planned for Myla before the wedding one which Myla does not want to attend but of course that would be so very rude. Although she doesn't want to go to the ball she will because that is the right thing to do or the grown up thing to do.

Oh and did I mention that Myla and Lincoln are on their way to jail if they can't prove their innocents. They only have a few days to gather all the evidence to bring before the Arbiter so she can decide the outcome of

the case. The house of Acca has it in for Myla and Lincoln and wants them out of the way so they can take over Thrax so they are trying to send them to prison. So Myla and Lincoln must prove their innocents and stop the house of Acca and send them to prison instead for all the things they have done against the house of Thrax and save their people.

Myla and Lincoln travel to Earth to gather more evidence for their case and they only have a small window of time in order to do this. They are going undercover at a school on Earth to find the evidence they need to clear their names. Myla will be going in as a student and Lincoln as a teacher. Although Myla hates high school she is kind of looking forward to being on Earth as she will get to use all these techy devices like a cell phone, a computer, ect. All the things they don't have in Purgatory as they don't have internet. But oh how she is disappointed when she arrives at the school and finds they have no internet either.

Can Myla and Lincoln get the evidence they need so they can present their case to the Arbiter in time or will they go to jail? Will they gather the evidence before the wedding? Is the wedding on or off? Can they prove their innocents? Does the house of Acca have the evidence to put Myla and Lincoln behind bars?

I can't say enough how much I love this series or how awesome it is. The world building is out of this world. The author did a fantastic job of describing hell, purgatory and the after realms. Oh and the Igni. Myla is still just as amazing as ever with her snappy comebacks and she is one bad a\*\* fighting machine. She has a tail with an attitude. Myla is part demon, angel and human. Her mom is a demon and her father is an angel. I can't wait to read the next book Tharx to see where Myla and Lincoln take us next because if I know those two they are going to take us somewhere amazing.

If you love reading about demons, angels and a good fantasy book then you are going to adore Acca and Angelbound Origin series. Check them all out today!

Goodreads Synopsis:

In just one week, supernatural warrior Myla Lewis must discover enough evidence to send the evil House of Acca to prison... or she'll end up in jail herself, along with her fiancé, Prince Lincoln. No pressure.

To gather proof, Myla and Lincoln go undercover at an all-girl's high school on Earth. Lincoln acts as the new gym teacher; Myla becomes the school's least popular transfer student ever. To stop them from getting the goods, Acca releases Hell on Earth. Literally. Good thing Myla and Lincoln aren't afraid of a tough fight. This one promises to be the hardest yet. After all, who ever said high school wasn't hell?

My Review:

After the last book, this one begins with Prince Lincoln and Myla demon hunting. They've bit off a little more than they can chew, but that's not going to stop them. They're trying to find a special book and a certain coin to keep safe from the devil himself, and the Acca household is trying to set them up for failure once again. Only this time, they have to go to Earth. It's a shady little all girls school called the Wheeler Institute. I started this book and knew I wouldn't be able to put it down until it's done.

Overall I don't really have to say much about it. This book was an enjoyable read. Although the characters haven't really developed through the series, they've stayed the same people we know and love, consistently. The book gets straight to the point, and is exactly what you would expect. Exciting, full of action, and a little romance. I'm looking forward to seeing what happens in the next book. Definitely check it out if you get the chance, if you like supernatural demon girls from another world who always get the bad guy in the end, this

series is for you.

Here's a link to the authors twitter, and another link to the book on Amazon.

## **Cranky - The Book Curmudgeon says**

\*\*\*\* 3.5 Stars \*\*\*\*

Once again we follow Myla and Lincoln's intertwined fates as the Great Scala and the Crown Prince of the Thrax.

We find them gathering evidence to use against Aldred, the earl of Acca, who had been against Lincoln since his family had taken the crown and especially since a lust demon, a.k.a. Myla, captured the heart of the soon to be King.

With only a week to compile all the evidence and testimonies, prepare their case and present it to the Thrax High Court, the pair was running out of time. Everything seemed to be against them and each turn drove them deeper and deeper into trouble.

After a death of a friend, Myla and Lincoln had to escape and find a different way to prove their innocence.

Right, ok. I've been thinking about how to word this review without giving out spoilers. Truth is, as a reader (traditionally), we know that the good guys always win and the bad guys lose. What drives us to read from page one to the very last is how the author took us there. In this case, Myla and Lincoln against Aldred, the Earl of Acca sans the title of the story. This is the third book in the series of 5 (not counting the 2 spinoffs Angelbound Offspring) and just like the first 2 books; this one is fast-paced, full of action and kept me entertained until the end.

However, I did find a few things that didn't sit well with me. One, Myla's character at times seemed more immature in here. She is now the Great Scala, soon to be Queen of the Thrax yet some of her dialogues and

actions didn't live up to her titles. Then I had to remind myself that as a matter of fact, there had only been 6 months since book one. So really and truly, she couldn't have matured that fast. Still...

Two: what is up with Connor? Will I ever find out?

Three: I felt like I was reading about Steven Seagal. You know how in his movies, action scenes, action scenes, people dying left and right, things blowing up and everything yet Steven Seagal is still immaculate, unhurt and maintained a calm and collected manner. That's what the action sequence felt like to me at times. Don't get me wrong, I don't wish harm on Myla or Lincoln but man! I wanna see a Bruce Willis type of scene thrown in the mix at least once.

Four: why was everyone against Myla being the Great Scala? Even her igni were rushing to replace her by nominating a new scala heir when the ink on the parchment stating she's the new great scala hasn't even dried yet. I mean, it took thousands of years before Myla herself became the scala heir, didn't it?

Sigh, ok. Enough said. I guess, I will know the answers to all my questions in the next book! Bring on book 4!

---
