Kathleen Vasquez says

I love this book its helpful, its entertaining and informative..

Danielle says

My bible

Erica Schwer says

If this book was not so big and heavy, I would carry it with me EVERYWHERE. Russell Grant is brilliant to say the least - writing at least 1,000 words for each individual birthdate and his astrological predictions. It is hard to encounter such in-depth analyses when it comes to astrology -- typically everything is limited to the twelve zodiac signs -- but Grant takes it so much farther making it very personal. Along with his single-date analysis, he provides almost twenty other specific birth dates that you are compatible with, whether it be your soulmate, love and relationships, or friendships. This should be every astrology lover's Bible.

Jodie says

I love this kind of stuff!

Tiera San says

I thought this book was pretty accurate, In the introduction it tells you that it is interpreted in different ways and that different characteristics can be seen in different lenses. I looked up the birthdays of my immediate family and it was like reading about their life in a book. I do recommend this book, even if you are not into astrology it is a fun book to read.
