### Bookgasms Book Blog says

When I read the blurb for Skirt Chaser I KNEW THAT I needed to read it. I am a HUGE Stacey Kennedy fan as I feel she is one of the select few authors who really can get the chemistry right between her hero and heroines. She absolutely nailed the passion and banter between Evie Richards and Greyson Crawford. (GAHH JUST THAT NAME gives me a tingle!) In Skirt Chaser they both have FIERY chemistry and their banter is just as hot. I could not get enough of Maddox and Joss in book one and found that I loved Grey and Evie even more.

Grey Crawford is counting down the minutes until Evie no longer works for his company. Hired temporarily as an Interior Designer for his company, their spark of attraction and need has burned bright for an entire month. But as CEO, Grey won't mix business with pleasure. A man that shys away from commitment and puts his relationships with women separate and second to his business, he enjoys his sex hot and his women numerous. But his first and foremost rule is that his sexual escapades must remain impersonal and emotion-free. But this one month of visual foreplay and mild flirtation has taken its toll and he's ready for a chance to rock both his and Evie's world. An opportunity presents itself when Evie is set to embark on an emotional weekend in Paradise as the Maid of Honor at the wedding of her bestfriend and ex-boyfriend. When Grey proposes he go as her "fake boyfriend" in return for an intense weekend affair, the anticipation nearly kills them both. But what happens when emotions get involved and an end date doesn't seem so cut and dry anymore? Can Grey make Evie the exception to his rule?

I really loved Skirt Chaser. It was the perfect book to get lost in for a few hours. I was intrigued by Grey in the first book about Maddox and Joss and couldn't wait for this bachelor playboy to get knocked down to his knees by his ladylove. And Boy did this author deliver! She honestly writes the hottest scenes around and really knows how to combine the emotional with a sexy side of kink. I loved that Evie was a strong and independent woman who had a soft and romantic heart. Likewise I loved that Grey was strong in his convictions, dominant, passionate and so sexy but he couldn't let his equally enthralling and innocent hidden vixen go.

All in all I loved this novel and hope we see more from them in the future. The Filthy Dirty love series is too fantastic to end now!! Bravo! 4 stars! ~Ratula

Architecture executive Greyson Crawford is used to getting what he wants and making no apologies for it. This guy has confidence to spare, and he wears it well. When he charms his way into being Evie's date for a wedding she really shouldn't even have to be attending, he's damn near irresistible.

Holy... This guy. This guy right here is the kind of hero the billionaire CEO trope is grounded in. Because, the more he talks, the more cocky, confident, assumingly sexy things he says, the more I should want to hate him. But I don't. And neither does Evie.

The first chapter of this book is unputdownable. It starts out by showing us just how in charge Grey is—and how much of a womanizer, albeit a responsible and respectful one—and then dives right into the emotional hook of the story: Evie's best friend is marrying her ex-boyfriend, they expect her to be in the wedding, and it has finally hit her just how wrong this situation is. Then, in charges Grey, seeing the opening he needs to finally claim the woman he's been eyeing for months. Now that her interior design contract with his firm is up, she's totally fair game, and he's all over it (and her).

Evie is such a sweetheart, she doesn't know when to stand up for herself, always puts other people's feelings first. Gray is her personality opposite, going after exactly what he wants, when he wants it, without shame and without concerns about what anyone else thinks about it.

I loved the geek and pop culture references (bet you can guess who "Dean" is named after!). In fact, I ended up humming the Star Wars theme for a day. I also love when romances ends with a tidy, heart-warming epilogue, and Skirt Chaser wraps up on all the right notes.

A solid billionaire erotic romance with a little kink to spice up the bedroom play, Skirt Chaser is a GraveTells recommended read!

## **Emma says**

We first met Grey in Heartbreaker, best friend of Maddox, and equally as dominant. Although he does have some serious commitment issues of his own creation, Grey typical adheres to the love them and leave them lifestyle; that is until Evie Richards crosses his path. Although Grey has her in his sights he has to bide his time to make his move due to Evie working as a contractor for his architecture firm.

I absolutely adored Evie, she is the type of person everyone should emulate - kind, caring, forgiving, generous, compassionate - the whole package without losing herself or becoming a doormat in the process.

Evie is aware of Grey's reputation and although the sparks are flowing both ways, Evie is self-aware enough to realize that she probably wouldn't be able to handle the aftermath of an affair with Grey. That is until circumstances create an opportunity whereby Grey pretends to be Evie's boyfriend in exchange for time spent intimately with her. The circumstances themselves are unconventional, Evie is the maid of honor at her best friends wedding who happens to be marrying Evie's Ex. Fluffed up, definitely, but Evie is such a wonderful person who believes in true love enough to forgive the betrayal (although I have to say there was no cheating involved).

As Evie and Grey navigate their way through wedding preparations, they get to know each other on a deeper level and to the amazement of them both, they connect on more levels than just the physical. Although their relationship started as fake, it is quickly obvious that it could turn into something real for them both if they are just brave enough to take that leap.

However, there are other personalities at play creating unexpected drama llama for everyone concerned and placing an obstacle in the path of Evie and Grey's fledgling feelings; exasperated by Grey's inability to deal with his emotions.

I loved the inclusion of Maddox and Joss in Skirt Chaser, especially the help and guidance they offer Grey. The continuation of their story added a sense of completeness to the story as a whole and I especially adored the epilogue. Love can take you by surprise, happen in a short amount of time but requires bravery and commitment - Grey and Evie alongside Maddox and Joss are terrific examples of how those traits are

rewarded ♥

The big bad wolf stalks his prey, but loses his heart along the way. Ms. Kennedy has a gift for magnetic alphas and Grey is all that and more. Sure he can be a jerk with manwhore tendencies, but underneath all the sexual innuendos and the bedhopping beats the heart of a forever kind of guy. It just took the right woman to show him the error of his ways. Evie is everything he never knew he wanted but refuses to live without. Now to convince her to take a chance on him. Skirt Chaser seduction is wickedly thorough, but for me some of the best moments were discovering the man behind the bedroom eyes and roguish charm.

### **Jennifer says**

Grey is just as yummy as his BFF Maddox was. Of course being a typical guy he does something stupid that makes him realize that he was jerk and so miserable without her. Very sweet epilogue.

MY RATING: 4/5 STARS

I was provided an ARC in exchange for an honest review.

Skirt Chaser by Stacey Kennedy was an easy romantic comedy read that leaves you feeling HOT, HOT, HOT!

Needless to say, Skirt Chaser includes a lot of hot sex scenes featuring our resident hero, Greyson, and our heroine, Evie. It's a simple story featuring the familiar trope. Evie's ex-boyfriend is getting married to her best friend so she needs a fake date to make them both jealous. Enter, super hot, Greyson. He hired her as a contract designer but since the project is done, their boss-employee relationship has ended which means that everything is fair game.

Greyson and Evie have great chemistry together. While Greyson is intense, wants to have revenge on Evie's ex and best friend, Evie is level-headed. They both balance each other out in ways that made me swoon. Let's talk more about Evie because seriously? She's not even mad that her ex and her best friend hooked up and are going to get married. Hurt? Yes. But angry and ready to claw someone's eyes out? Nope. Evie must be a saint because as I was reading, she felt so pure. She was good to the bone. And I know a lot of people might not like her because she's basic but I loved her.

The reason why this book wasn't a perfect score was because Greyson built so many walls that it was so hard for him to even realize his own feelings until it was too late. Like seriously, I didn't even know what Greyson was feeling at the climax part of this story. He felt so cold, I was actually going to believe Stacey Kennedy if she told me that ha ha jokes, Greyson actually doesn't like Evie at all and yes, it was just all about sex.

I would actually believe that.

And then obviously, that never happened so I was pleased to see it.

MY RECOMMENDATION:

READ IT! READ IT! READ IT!

## **Guilty Pleasures Book Reviews says**

I always admire when an author can take a tried and true romance trope and breathe new life into it and that's what author Stacey Kennedy has done in *Skirt Chaser*. For an entire month Greyson Crawford has kept his hands to himself as he's watched interior designer Evie Richards make her magic at his office, but now that her time as an someone who works for him is coming to a close, Grey intends to pursue her for some fun until he is presented with the perfect opportunity of a weekend away as she fulfills her duties as maid of honor to her best friend who is marrying Evie's ex-boyfriend. I know this plot sounds like a Maury Povich show, but that's the beauty of it; this messed up situation gives Grey and Evie the perfect opportunity to really get to know one another in all kinds of ways. Smart and sexy with a bit of kink, *Skirt Chaser* was an entertaining read.

From the minute I started this book, I was drawn to both Grey and Evie and that never wavered, sure there were a few times I wanted to bop one or both upside the head, but in reality everyone at some point in a relationship (even when they don't think they are in a relationship) makes some bonehead moves and in this case they both are guilty. That's what made them endearing, that's what made them feel real, and that is what made me want to see them figure it out so they could be together. I loved that both Grey and Evie were dedicated to their jobs and successful in their own right, while Grey may have more money than Evie, there was no doubt she was perfectly capable of providing for herself. Grey was a bit closed off emotionally which in all honesty was a little strange given his close relationship with his mother and his best friend, Maddox, but he'd never let a woman get too close and he controlled everything to ensure they wouldn't careful to spell it all out so that no one got hurt. Despite the crazy situation with Evie's best friend marrying her ex, it was obvious to see that Evie is a believer in love and hopes to find her someone special one day. When Grey offers to accompany her to this destination wedding with promises of a wicked fling, Evie feels it is just what she needs to boost her spirits and give her the advantage of not being "singled out" at the wedding.

I loved that these two had somewhat of a friendship from their time working together and that Grey was very mindful that what Evie was doing for her "friends" was taking a toll on her emotionally whether she wanted to admit it or not. Grey read Evie really well and I think that was important because it showed that while he was more than happy to play sexy games with Evie, he respected her feelings and her enough to not take advantage. I liked that Evie was able to see past the front that Grey put on for the world at large and was insightful enough to question him about his dalliances with other women and his attitudes towards relationships and marriage. Given the short amount of time they spent coupled up, I felt they really did get to know one another well and it was easy to see that they both were feeling way more for one another than they ever expected.

One thing I truly appreciated about *Skirt Chaser* is that not everything in this book was tied up in a nice, neat little bow. Yes, there is a happily ever after (and it's a really good one), but it took a great deal of soul searching and some sage advice from friends and family to help them get there. Sexy and fun but with enough emotion to keep it real, this character driven story was a delightful romance.

## Sissy's Romance Book Review says

Book Review For: Skirt Chaser by Stacey Kennedy 'Skirt Chaser' by Stacey Kennedy is book Two in the "Filthy Dirty Love" series. This is the story of Greyson Crawford and Evie Richards. I have read the previous book but feel this is easily a standalone book. Grey likes women but only for a night or two and then he moves on. No one woman can hold his interest it seems. Until Interior Designer Evie Richards shows up at his office to work. Grey has a rule not to get involved with employees so he waits his time for the day that her contract ends. When that day comes (30 days later) he plans on approaching her and state his intentions. But before he can do that something upsets Evie. Evie is a sweet girl that forgives easily it seems. We learn that her best friend stole her boyfriend and now the two are getting married. Evie has been helping them plan the wedding but the date is now here and Evie is very upset. When she is approached by Grey with a deal to help her ...and him. Evie has been attracted to Grey this whole time she has worked at his company. Grey lays his cards out that he thinks what her 'friends' are doing is awful. But he tells her to get revenge via him. That he will pretend to be her boyfriend if she agrees to sleep with him while they are pretending a relationship. Grey lays out the terms of their relationship and has her say for her understanding "Yes, Grey, I agree to your terms". But can Grey stick to his own rules with the sweet and beautiful Evie. Evie is different from any other women who he has meet...and can Evie just walk away. Loved this story...another great book by Ms. Kennedy! Amazing!!!! Again, Stacey never disappoints. I read Skirt Chaser in one day, because once I started reading Grey and Evie's story, I just couldn't put it down. It's one of those stories that keeps you flipping the pages, because you have to see what's happens between them.

Greyson and Evie - where to start? I loved how Stacey wrote their story and the pace was just perfect. We met Grey in Maddox's book, Heartbreaker, but we really get to know him in Skirt Chaser. He is always upfront with the women in his life and that way they don't get clingy. He knows from the first time that he sees Evie that he has to have her, but he has to wait until she is no longer working for him before that can happen. Poor Grey, because Evie thinks he is hot and does everything that she can to make Grey crave her.

Grey gets the perfect opportunity to spend time with her, but will he blow it in the end?

This is a must read series, both Heartbreaker and Skirt Chaser are amazing books.

I loved this story! Grey and Evie were so damned perfect for each other. I have to be honest, Evie, is the total BOMB:) Serious girl crush going on over here! I loved the story, the writing, the pace, the five alarm fire these two created when they were together!

I loved that it was a quick, fast paced read and yet I still would have liked so much more too but that Epilogue pretty much summed up their total perfection, I just would have like a little bit more with them as a couple:)

All in all, another great read by this author!

Grey's book is unexpectedly sweet. Considering what a player he is it turns out the the guy is pretty great and quite insightful. Evie is a genuinely kind and loyal character in spite of the heartbreak she faced in the past. I really loved her "making up with Grey" conversation especially the part where she tells him that he made her run. Also I loved the epilogue with the adorable HEA with family.

I received an Advanced Reader's Copy from the author for voluntary review consideration.

Well, hello there really hot guy who is smart enough to not hit on the people who work for him.

I loved the set up of this, the idea that Grey had been lusting after Evie, and she knew it, for the last month while she worked for him as an interior designer. I loved that you get to know Grey as Evie does, the things that make him who he is, the important parts of any relationship, and the things that make him different than his persona of the skirt chaser.

Evie was a nice person, Grey thinks she is too nice. It was fun to watch the clash of the 2 personalities, and I could definitely relate, although I am the less-nice one in my marriage, I know the feeling of looking at events through incredibly different perspectives and then coming to the realization that both are right.

In a lot of ways, this is what the core of the book is about...the idea that just because you think something needs to be a certain way doesn't mean that it does in order for it to work. Sometimes, life is not only in the things you get, but also in the little bits of yourself that you let go of in order to let someone else in.

The writing was strong, and the book was well paced overall, although I wanted a little more of them together as a real couple than was in the book. Overall, I enjoyed this title and I do recommend it.

*ARC provided by author in exchange for an honest review*

**Skirt Chaser** by Stacey Kennedy is a sizzling, sexy, steamy romance that will have readers wishing that their plus one was Greyson Crawford. While this book is the second book in the installment *Filthy Dirty Love Series*, it most definitely can be read as a standalone. So are you ready to discover why I enjoyed this intoxicating read?

**“She tempted him in ways no one had. And it wasn’t just the game of playing hard to get. There was something different about this woman... something that made him count down the days until she stopped working for him.”**

Greyson Crawford can’t help but fantasize about the interior designed he hired for his architecture project. Evie Richards has been the star of his dirty fantasies. He is well aware that he should never mix business with pleasure and so when their contract was up, all bets were off. Greyson Crawford knew what he wanted and that was Evie submitting to him.

When Greyson overhears that Evie is upset about a certain wedding invitation of her best friend marrying her ex-boyfriend, Greyson knew this was the perfect opportunity to help and get Evie and so he offered to be her date so she wouldn’t be alone at the wedding and in exchange for that weekend, he would belong to her sexually.

**“I get to have you in all the ways you know I want you. Beneath me, over me, against a wall, on your knees, screaming my name, whatever I want. Completely under my control.” And to ensure there were no misunderstandings, he sternly added, “My game. My rules. Your surrender, until we’re back in Seattle.”**

Evie can’t help but take Greyson offer since she is very much attracted to him and he could be the distraction that she needs especially she is watching the two people she love marry each other.

Right away, Evie and Greyson play the role of fake couple during their time in the Dominican Republic where the wedding will be taking place. But there was no faking about the sexual chemistry that Evie and Greyson have for each other. Soon Greyson was showing Evie his sexual taste and boy oh boy did these proclivities showed Evie what she was missing. But as they spend more time with each other, Evie’s feelings for Greyson begins to deepen. What happens when their time comes to an end? Can Greyson let Evie walk away for good?

**“Grey wasn’t only passion. He was lust. And control. And she wanted more.”**

**Skirt Chaser** is indeed a story that started off hot and sexy but as you read further along, Kennedy did a great job showcasing the love that was beginning to forge and develop between Greyson and Evie. It no longer was just about sex. It was love. It was understanding. It was real. So if you are looking for a story that weaves layers of sex, passion, truth, and vulnerability in a filthy dirty love way then this book is for you.

### **4 “Tame The Skirt Chaser” Stars!!**

When I discovered that Stacey Kennedy was coming out with a book for Greyson Crawford, I was all over it. Why? Because this author had me swooning and fanning myself in *Heartbreaker* and I wanted to verify if her recipe for hotness was a fluke, as that was my first read of hers. So was it? Hell Naw!! *Skirt Chaser* was just as HAWT and once again, it wasn't just about steamy times and romance. I was pleasantly surprised by the character depth and how it was explored throughout the story.

Grey is as the title states... a skirt chaser. He's been known as a ladies man since college and has no intention of changing his ways. Then he meets the beautiful Evie Richards, a woman who, for the first time, he can't stop thinking about... and he hasn't even slept with her yet! When Evie needs a plus one to her best friend's destination wedding, Grey volunteers. He hopes to support her, seduce her, and enjoy a few days in bed... and move on. However, Grey steadily disabuses Evie of all of her assumptions based on his reputation and she shows Grey how truly beautiful a person she really is. What happens when these two see beyond the surface, into the very heart of the other?

These characters shared some fiery and explosive chemistry, which always makes for some fun times to be had, and I loved watching them fight the irresistible. Their love was undeniable. Oh, and if you enjoyed *Heartbreaker*, you'll be happy to sneak a peek at Maddox and Joss in this one!
