Twin Fantasies Opal Carew

What's your most forbidden desire?

Jenna Kerry has a secret. She's always fantasized about sharing her bed with two men, but her fiancé Ryan would never approve. Then one night at a posh reception, Ryan unexpectedly appears and shows her the wildest night of her life. The trouble is, he isn't Ryan. When she discovers the truth—that her fiancé has a twin—she reignites a long-standing rivalry. Both men are determined to have her, and they set out to prove their talents in the most erotic ways imaginable. But does she dare ask them to explore her most hidden fantasy... and can she handle all that these hot-blooded twins have to offer?

Lock your door and indulge in this wickedly uninhibited tale from Opal Carew—an irresistible new voice in erotic romance.

Brenda says

I'm like...

The concept was kind of creepy and ridiculous. I thought it was going to be hot but I felt... guilty.

Sex scenes were so boring!

I felt bad for Ryan SO BAD. SO SO SO BAD. There was no one to blame but...

How the hell can you spend a month in... with... AARRGG I hate her in that moment ಠ_ಠ

I didn't like the ending very much but I have to admit that the story was entertaining.

Grecia says

Me contuve de ponerle una estrella. No digo que el libro no sea .. er ..bueno pero el final, es el más absurdo que leído jamás en mi vida.

O sea la trama estaba buena, tenía para mucho, que decepción.

Jessica Vargas says

El comienzo lo adore... pero en el transcurso que leía me decepcionaba de la protagonista; pienso que nunca decidió si adora el amante listo llama a Ryan y dile que ya no quiere con el pero me parece muy hipócrita todo lo que le hizo pasar a él. Y de verdad detestaba cada vez que tenía que leer la parte de Jack por eso odio los hermanos. Es mejor ser hermano y hermana; que hermano y hermano porque uno nunca sabe cuando le va a dar a dar el tiro por la espalda. Además que desgraciado hizo todo lo posible para hacer quedar mal a su hermano. Además que él solo pensaba en sexo a diferencia que Ryan sí tenía verdaderos sentimientos. Gracias a Dios terminé de leer este libro fue horrible; ni una estrella se merece este libro; por libros como estos hacen quedar a las mujeres como putas; y además que hace quedar como si uno nunca sabe decidir lo que uno quiere en la vida

Dianna Juárez Ibarra says

Dejé esta lectura en pausa hace algunos meses, y hoy que lo vi en mis pendientes me propuse terminarla, total, no faltaba mucho, al seguir leyendo no recordaba porque la había dejado de lado, ya que me atrapo, seguí leyendo y entendí porque lo había hecho.

La historia prometía mucho, al menos para mí, pero no sé, le faltaba algo, decidí seguir leyendo, esperando que mejorara un poco, pero nada. Ninguno de los personajes hizo que al menos sintiera algo de identificación, Jenna me enfadó en algunos momentos, Jake, a pesar de ser alegre, jovial, y divertido, no me agrado tanto, Ryan, muy absorbido por su trabajo, y demasiado competitivo.

Estoy de acuerdo que al ser una lectura erótica, y de trios, debe haber escenas sexuales, pero a mí, llegó un punto en el que me salté muchas de ellas (y si que hubo) se me hicieron muy repetitivas, y aburridas.

**** SPOILER ****

El final... yo hubiese preferido que se quedar  sola, o sea, si con sus gemelos, pero sin Jake ni Ryan, no s , eso de ser hermanos y compartir a la misma mujer, no me agrado mucho.

Pero definitivamente, me agrado la forma de escritura de la autora, muy  gil, y directa, definitivamente buscar  m s de Opal Carew.

Rating: 4.5 / 5

I requested this book through my library's ILL program...then put off reading it for like two months. I wanted to read it, but I'd read a lot of so-so comments about the book, about it not being as good as her others. So I kept setting it aside. But I had to get it back to the library (it was overdue, actually) so I had to either read it, or just return it. I read it, and I'm glad I did. I really enjoyed it! I'd have probably given it five stars if it weren't for one thing (which I'll talk about shortly).

Twin Fantasies is a erotic romance book about a menage a trois relationship between two brothers and the woman they both love. Jenna and Ryan have been in a long-term committed relationship, but Ryan is a workaholic who keeps blowing Jenna off. She's finally about to break up with him after he ditches her as her date for a wedding when suddenly Ryan shows up...or so she thinks. It's actually Ryan's twin brother Jake. Jenna thinks he's playing out her stranger fantasy and goes along. Then a month later, she realizes she's pregnant. Ryan proposes despite the fact that he's knows he's not the father. He loves her too much, and Jenna just thinks Ryan is the father. But just before the wedding, Jenna finds out that Ryan has a twin brother named Jake, and all three realize what has happened. Now Jenna must figure out which man to choose. The only problem? She realizes she loves them both.

This book was SUPER hot. I really could have used a cold shower more than once, LOL. What I really enjoyed about this book, though, was that even though it was an erotic romance, and there was lots and lots of yummy sex, it wasn't *all* about the sex. It was about the characters, how they grew and changed, and about the unusual problem of a woman falling in love with two brothers. Sometimes, I get a little bored with erotic romance books when they are just all sex, but this one didn't bore me at all. Carew kept me in the story from start to finish with a solid romance and great characters to go along with the yummy sex.

I knew going into this story that a lot of the mild complaints were about Ryan, about many not liking him, and how Jenna should have picked Jake. But I never really felt that way. I kinda saw them as two halves of a whole. Jake was the fun-loving, laid back half, and Ryan was the intense, serious-minded half. And together they made up a whole that was, well, the perfect man. I could completely see how Jenna loved both of them.

The one thing I wished had been a little more thorough was the epilogue. It was sweet and a nice wrap-up, but I wanted to know more. Did Jenna marry one of them? Or did they just have an unofficial commitment between the three of them? What did their families and friends think of what they were doing? Had they had any serious backlash from it? I wanted to know all that, but instead the epilogue was just a brief glimpse saying they were happy. If I'd gotten some of that info, I'd have given this book five stars.

Great book, despite that, though. I enjoyed it quite a bit. I'd definitely recommend it for those of you whole like menage erotic romance books. And I definitely plan to read more from Carew.

Bronwyn Rykiert says

This book was exactly as I expected and it was a good read. Jenna is in love with Ryan and he with her but he has not been showing it lately because he was spending too much time at work and she felt neglected. when he cancelled plans to come to a wedding with her she was very upset then she saw him later at the same hotel and when he introduced himself as Jake she thought he had come to th help her with one of her fantasies - making love to a stranger - she introduced herself as Aurora. They had a great night together and when they were next together she never spoke to Ryan about because he never brought it up. Then she finds out that she is pregnant, Ryan asks her to marry him. It is not until the wedding that she discovers Ryan has a twin brother Jake and that he was who she had spent the night with and he was the father of her baby. She breaks off the wedding because she is such a dilemma as to what to do - it is suggested that she spend some time with Jake - next thing she is in love with him too - it gets interesting then. I enjoyed the intimaties between these 3 people.

This book was recommended to me and I agree with the recommendation.

Emily says

Jenna Kerry has been in love with the methodical and work-a-holic Ryan since the day they met, accepting his determined focus with it. When Ryan disappoints her with canceling their plans her mood goes from hurt to ecstatic when he shows up and acts out one of the fantasies she has always wanted to try, sex with a stranger, the problem is it is not far from the truth...Ryan never mentioned his twin brother Jake.

Mistaken identity sets the path to a riveting story that has Jenna torn between two brothers. You really feel for her quandry because Ryan was afraid to love her to much, where as Jake is more than willing not to hold back on anything, between the two of them they balance each other out on the perfect man. Had some areas where I thought hmmm...but overall very good. Love the cover on this one. 3.75.

Night says

I don't want to say this book sucked, because that's unfair to the author who I am sure worked hard on this. I read Swing before and found that lacking. But it's a masterpiece compared to Twin Fantasies. This is seriously lacking. The entire concept is kind of creepy and ridiculous. I actually found myself skipping through a lot of the sex scenes because they were repetitive and boring. I was curious to see how the situation was going to resolve (although, let's face it, we all know what the ending is going to be).

I had to practice buttoloads of suspesion of disbelief. For example, I don't find it credible that Jenna and Ryan dated for a year but he never told her he had a brother (let alone that a twin)? The excuse given for that is flimsy at best. Especially when his brother is in town helping him work on a project. They aren't estranged, so it makes no sense that it never came up in conversation.

I just found so much of this implausible and the ending rather squicky. But then again it kept my interst enough that I breezed through it rather quickly.

Michelle says

This author has good ideas for her books but for some reason her writing falls short for me. I can't get into her characters, usually I want to be the woman in the book or have the man or men in it. But not in this case and I was so excited about her being with twins which has always been my own fantasy! I was disappointed that I was not turned on by this book. I did finish this book by her which was more than I can say of her previous works.

Auntee says

Competitive twin brothers + one lusty woman = unbelievable but utterly smutastic story.:)

Mahlet says

Accidentally clicked on a GR link while finishing up this review – so I clicked “back” button and review is gone! I'm finally done cursing, screaming and slapping my couch cushion, so here I go...again.

I enjoyed it, but I liked Carew's previous books “Swing” and “Blush” much better. No scene here could compare with the hotness of Swing's dungeon scene or that memorable door scene in Blush.

I took major issue with Ryan, Jenna's fiancé. Before Jenna accidentally sleeps with his twin brother Jake, whom she's never met and actually thinks is just Ryan playing out her “sex with a stranger” fantasy, Jenna has been in a relationship with Ryan for nearly a year. Ryan has neglected Jenna, not giving her enough of his time or satisfying her sexually. And he had the lamest excuse, too – something about, “oh, if I REALLY give in to my crazy intense desire for Jenna, I'll just get lost in it and it will be overwhelming and completely take over!” He doesn't tell HER this. No, he just keeps this to himself, so Jenna doesn't actually know if he really loves her due to his lack of attention.

The guy I really liked was his twin, Jake. Jake was adventurous, fun, attentive and sexy as hell. When Jenna moved in with Jake, to give a relationship with him a try, I was ecstatic! But then about a week into it *guessing, I read this a week ago*, Ryan moves in, too, and I was so disappointed. I wanted Ryan out of the picture. I didn't think the chemistry was as strong with Ryan and Jenna, and I didn't think he deserved her. This book ends as a HEA ménage, and I would have preferred no ménage and just Jenna and Jake.

On the plus side, the humor in the beginning was great, especially during those post-coital conversations with Jenna and Jake, before she realized he wasn't Ryan. I'm still a Carew fan, just didn't like this book as much as the others I've read.

Unapologetic_Bookaholic says

Jenna is dating Ryan and has been for a year or so. He's a workaholic and she's deciding whether or not to end it all. Until one night, at a hotel where she's attending a friend's wedding she spots "Jake". Thinking this is her sex with a stranger fantasy come true she plays along with Ryan's game and has the time of her life.

Later Jenna finds out she's pregnant and tells Ryan. He knows he never slept with her that night, but asks her to marry him anyway. It all come to a head when Jake is caught kissing "Aurora" and Ryan spots them. Jenna thinks she's kissing Ryan and realizes she's made a terrible mistake. Not only has she been kissing her brother's twin, but sleeping with him too!

Well this is only the half of it. The story is one that I believe will make you a fan of Opal Carew if your not already. She develops her characters and story very well. Her love scenes are mentally engaging and physically stimulating and while not conventional you root for this romance in the end.

Jess says

Ehh. this one was a little weird to me. I don't want to go into detail because it would ruin part of the book.. but I was just a tiny bit creeped out. But I enjoyed the overall story and thought it was interesting.

Sindys says

This book has a hilarious story. It is crazy Two better than one. This book has lots of sex. This is the first book I read about threesome.

Mitabird says

This is probably one of the most ridiculous books I've ever read. The writing style seemed juvenile and the sex scenes were boring. Plus I had to suspend huge amounts of belief. It was like a train wreck and I couldn't stop reading this. I don't find it believable that Jenna and Ryan would be dating for a whole year and he never mentioned that he had a twin brother. Nor did he tell his brother Jake about Jenna.
