Havoc Ambere Sabo

Havoc

I left behind my home, my family and my club to hunt down a bastard that doesn't want to be found. My only focus is putting a bullet in his head and figuring out how to save my sisters from the Infierno cartel. The problem? He's a ghost in the wind who always seems to be one step ahead.

Things change when my best friend, Cessy, forces me to bring Angel out on the road with me. Angel Hernandez, the hotheaded Hispanic beauty who drives me crazy. She wants the bastard's head as much as I do but she has no concern for what it may cost her. Can we overcome the scars of our past together or are we destined to die for the sins of another?

From Reader Review Havoc for online ebook

Liberty Parker says

This book is a ride on the wild side. We see a side of Havoc that makes you quiver. He is dead set on revenge against his father. Wrecker is an evil man..(that's all I say in case you haven't had a chance to read this yet). Havoc spends months on the road, looking for and trying to locate Wreckers whereabouts. With no success he goes home for a big event for two of his best-friends. As he gets ready to leave, he has a surprise guest leaving with him. Which doesn't make for a happy Havoc.

Angel, went through something no woman should ever have to encounter in a lifetime. (Again, not giving it away) She becomes fast friends with Cessy, who wants to help her friend out. Angel gets sent on the road with Havoc-against his approval.

Let's just say, from here things get hot, steamy, scary and down right hawt! If you haven't read Cessy I highly recommend you do so, there are reoccurring characters.

This is a must read MC story. Five stars...Congratulations Ambere.

Suzanne Giorgione says

I absolutely loved the first book in this series, Cessy and somehow Ambere Sabo just keeps writing amazing MC books! You need to read book one before reading this book, which was fantastic. Following the wedding of Cessy and Venom (squealing here), Havoc (Cessy's best friend) and Angel (one of the girls rescued in the first book from the cartel) go on a trip to try and find where Wrecker is. Both want revenge for different reasons and neither one really wants to be with the other. As the journey continues, Havoc starts to think that maybe he was a little harsh on his judgment and crappy attitude towards Angel. She's not what he expected. She is a strong, kick-ass Hispanic lady who isn't afraid to die to right wrongs and avenge her parent's deaths. She's also beautiful and caring. Angel softens towards Havoc as well. He's not as big of a jerk as she thought. He has had a horrible past and opens up to her about things that happened. Things he never even told Cessy. Now comes the sparks and chemistry. Oh and the blow your mind hot sex! You might need a fan here ladies! There is so much in this story and I don't want to ruin any of it for you. It's a wild ride, full of action, gritty, raw emotion, truths that are hard to hear, more war against the cartel, friendship, family and revenge. I don't know how in the heck I can wait for the next book. There is still so much more to know. Best MC books I have ever read!!!! I voluntarily reviewed an ARC of this book.

Tianna says

First and foremost, if you haven't read Cessy yet, then you really need to in order to fully appreciate Havoc.

Get your stuff together and be ready for the ride of your life because Havoc is impatient to get going! I feel like Ambere Sabo's books should all come with this warning label: WARNING: DO NOT START READING UNLESS YOU WANT TO GET NOTHING ELSE DONE TODAY!

Havoc picks up months after Cessy and reels you back into the life and chaos of the Silent Sons. Havoc centers on Angel and Havoc. These two are both way to stubborn but holy cow you can feel the sexual

tension rolling off these two.

I love it when the story takes you places and seamlessly transcends into the twists and turns so that you never know what lies ahead. Havoc drove right into my heart as this pierced and scarred up bad boy who is loyal to his momma and sisters. Angel is honestly his perfect counterpart, in that she finds herself in him and is able to thrive with him as her safe place. This story amazes me so much because of how much that happens and yet it flows at such a natural pace that you don't realize the amount of ground covered until the end.

I can't wait to see what Lilly's book has in store if this is what Ambere Sabo is giving to us after Cessy! This series is becoming one of my favorite MC series very quickly. I have to say that riding with the Silent Sons MC, you never know what kind of ride you will be on next!

Kylee says

I received an ARC of Havoc and this is my voluntary and honest review. I fell in love with the Silent Sons when I read Cessy and was so looking forward to the ride of my life with Havoc. Havoc is forced by Cessy and his club to take Angel with him to help him locate his father and the Cartel. Seeking revenge on his father "Wrecker" is top on his list and he doesn't need the beauty with emerald eyes distracting him, what he doesn't realize is they have more in common than he could possibly ever understand. As Angel and Havoc go on their journey to locate her parents, the Cartel and Wrecker they each discover that what they have been looking for is staring them right in the face. As Havoc shares more with Angel than he has with anybody else in his life including his best friend Cessy he comes to realize that seeking revenge may just cost him the one person that calms the rage inside him. This gritty fast paced MC romance will have you glued to the pages and falling in love with these two, not to mention Havoc is the definition of hot and steamy. The ending of this book will have you sitting on the edge of your seat waiting for the next instalment of the Silent Sons, if you weren't hooked on this series before believe me you will be now.

Romaine Heart says

Ambere Sabo has outdone herself with this fabulous Book 2, Havoc, The Silent Sons MC Series!

Havoc is definitely a page turner that keeps you intrigued in this action packed suspenseful drama with the right mix of betrayal, deceit, murder, humour and steamy sex.

Havoc is seeking revenge against his evil father, Wrecker, who had sold Havoc's half sisters and friend to the Mexican cartel. When Havoc is forced to take along Angel to El Paso in further search of Wrecker, the wild ride begins.

Angel is strong woman with a Latina attitude. She wants Wrecker dead for killing her parents and selling her to Enterrador of the Mexican cartel.

Now the Silent Sons MC along with the Reapers MC and the Dominion MC join forces with the EPPD to bring down Enterrador and the Mexican cartel. Will they succeed or are they out numbered by the cartel?

Enterrador has a fixation with Havoc's sister, Lilly. She is the image of Enterrador's dead wife. Will Enterrador ever make Lilly his?

I love this well written story. Havoc and Angel's personalities are perfect. I loved the meal at the cabin and the shower at the motel. I can just image Havoc's expressions! So funny.

Havoc, Book 2 is definitely a must read! I would strongly recommend this series! 5 stars +.

I'm volunteering an honest review for an advance reader's copy.

The Silent Sons MC Series

Cessy, Book 1

Havoc, Book 2

Lilly, Book 3 (coming soon)

Beyond The Covers Blog says

Havoc is the second book in the silent sons mc series, it's also one I couldn't wait to read following its predecessor CESSY....

Ambere Sabo didn't disappoint, if anything she has lifted the bar higher.

Havoc is..

Havoc and Angels story, two people looking looking for revenge, after the same man, Angels Captor, Havoc's father.

Havoc's need for revenge is fuelled only by his hatred for his father, not only for what "wreck" has done to his family but the secrets and lies that continue to unfold.

Angel seeks retribution, taken from her family and abused...then in one moment, she loses everything, and everyone she ever loved.

The emotions are raw and running high in this story line..for two people who have nothing to lose or care if they live or die what more could you expect...

It's a story of hatred, revenge, retribution, love,family and the lengths people will go to, to protect the ones they love.

The story line flows easily from Cessy, book one in the Silent Sons MC. All the main characters are involved and we are given little pieces of how there lives have carried on as well as being introduced to new characters...again back stories are written, through the story which enabled me to have a clearer picture of past and present moments.

The dynamics between Havoc and Angel is intense, they are both fighting there own internal battles to stay away from one another, yet others around them can see what they cannot....the fierce passion they have for one another.

What stands out the most in both books is Ambere's strong female characters, which is rare in most MC books....I love it!!!

Plot twists, steaming HOT scenes, strong & sassy women, along with fierce men this book will keep you wanting more.

Can't wait for Lilly, book 3 to be released.

Brandy Roberts says

Didn't realize Havoc would have me close to tears held it in as much as I could but the end it really got me just so unexpectedly sad this was such a great read and we get a little tease for the next Silent sons MC book witch I'm looking forward to . This can be read as a standalone but I'll highly suggest that you read Cessy before this because there might be a little confusion and major spoilers . Ambere Sabo has done such an amazing job with this series and I can't wait to see whats to come for these characters just so excited . Lets just say Havoc and Angel don't start off on the right foot but as they get to know one another and learn of a common enemy ,the need for revenge , see each others emotional and physical scars they start to understand/ build their relationship . Angel is one tough heroine after everything she has been through she didn't break and one of the things that's driving her is the need to get her retribution and take the lives of the people who took everything away from her , loved the friendship she shares with Cessy you can see the bond they share . I really loved Havocs character in the first book it kinda took me by surprise at how dark he has become but as we get to know his story and the reasoning of why he's on a mission on getting the man who is responsible of so much sorrow it becomes understandable . These are written perfectly for one another their chemistry is

a slow build but once they cross that wall there is no turning back . I'm really excited to see whats to come the heroines are so awesome and from the little tease we get she's going to be a firecracker .

Kaitlynn Taylor says

Havoc- Ambere Sabo

4 star review

Havoc by Ambere Sabo was a phenomenal read! It's book 2 in her Silent Sons MC series. This story is super sexy, intense, twisted and haunting, everything an MC read should be. I hadn't read the first book so I can honestly say it can be read as a standalone. It was surprisingly easy enough to follow, everything club related is described and all the characters roles are detailed. While I'm sure it's best to read them in order I still really liked this one. This story is certainly not a light easy read but thankfully there is just the right amount of humour to lighten the mood.

Book 2 follows Havoc and Angel, two very different yet similar characters, they both know what it feels like to lose it all and would do anything for revenge. Havoc, just like his name implies is intense, hard headed and ruthless, he also has a caring side that very few people get the pleasure of witnessing. Angel is a wicked woman with a heart of gold, she's strong, determined and selfless. Havoc and Angel's chemistry is off the charts and undeniably sexy. I look forward to reading more of Ambere's work in the future.

Sara Oxtan says

Havoc by Ambere Sabo a fast paced and thrilling four-star read. This is the second book in the Scilent Sons MC series, I have read them as a series and enjoyed them both as such, but it could be read as stand-alone if you wanted. This is just as good as the first book if not better as we already know some of the characters so you know more background, I also must admit I shed more tears in this book as well and that surprised me more than I can tell you, as it came out of the blue. The dram is great and will suck you in so far you won't want to come up for air. Angel has had a past you wouldn't wish on your worst enemy and with her friend Cessy they start to help each other out. Havok is a man on a mission and he will get what he wants and what he wants is revenge, and he isn't the only one. Watching Havoc face some internal battles was great, he shows us he is a man of many talents and he this story has so many elements they will all keep you hooked, bring on book three I can't wait.

Lager & Lefse Book Blog says

Havoc is the second book in the Silent Sons MC series by Ambere Sabo. This story is focused on Havoc and is a continuation of book 1 (Cessy).

It's hard to review too much without giving away the plot but here's what I can tell you. Havoc is a fast paced, hard hitting MC/cartel life story with raw, gritty emotions. It's quite the page turner as one would rush to get to the end. There is a happily for now as each story builds on the previous book. I will warn you that she doesn't hold back on situations, so there may be some trigger scenes (more graphic and violent than anything).

Havoc and Angel are an interesting couple. They have a common goal in mind, however, neither knows their true intentions when thrown together by Cessy and The Silent Sons. They fight for their next day while maintaining ahead of the demons that chase them from the past. It was satisfying to read about Venom & Cessy from the first book and how all their lives entwine with each other.

Considering Cessy was Ms. Sabo's premiere book, she did an exceedingly wonderful job on her follow up. I look forward to where this series heads next.

Nerdy Dirty & Flirty says

~Lynzi

Man oh man!!

Why did this book have to end?

I have been patiently waiting for this one to hit my kindle, and when it did, I quickly jumped in. I couldn't wait. I loved book 1, Cessy, and was so excited to get more of these characters and this MC world. Especially with what all was going on.

I also couldn't wait to read more into Havoc, and see his side of things. I loved him in book one, and of course finished this one loving him so much more.

Now that I'm done, I'm left sitting here wanting the next book. Like now. I just want to keep reading. I don't want to have to wait. But man I can't wait for the next one. And I KNOW they HAVE to have another one. But I think I might die waiting.

Havoc has always hated his father, but with the new things he has learned that his father has done, it has made his hate grow to unthinkable levels. Also making him want him dead and to take revenge on him like he never thought before. But he realizes after months on the road and no sign of him, it might be a lost cause, but he won't stop. He won't give up, until he's dead. But his club thinks he needs to go about it a different way. With a little help. Help in the form of a petite feisty Latino who won't take his crap. The only thing he likes about her, is that she wants his father dead just as much as him.

The only thing Angel has on her mind right now, is revenge. Revenge for her parents and the life that was taken from her. Revenge for the pain and torture her and the other girls went through. She doesn't care how she has to do it, or even if it costs her her life, but she will bring down the people who took her world from

her. Even if she has to deal with the 'pendejo' who pisses her off.

This MC is one I haven't been able to get off my mind. I loved everything about both these stories. These characters have touched me in so many ways. The craziness and betrayal that goes on, blows my mind, and it all keeps me guessing and on the edge of my seat.

I couldn't get enough of either of these books and will try to be patient until the next one comes out. Let's see how well that goes. :)

Ana Rita says

Gimme MC books.... Gimme. Gimme. Gimme and I'll read them all and be on cloud nine because of it. This lady made me an addict for her writing since the first book that I've read.

Ambere Sabo has a way with words that will hook you up in a sec and then you'll want to keep going and going. Get ready...

Havoc is her latest release and it's the second book from A Silent Sons MC and Jesus... What a series this is. This book tells the stories of Havoc and Angel.

But let me give you an advise, despite both books are standalones you should read Cessy first in order to understand this series better.

Havoc will give you the goose bumps...

Angel had endured the worst fate possible but she managed to get away from it. We have a glimpse of her on the first book and we can see that she's a feisty woman... Her best friend helped her get away and she loves Cessy dearly. Now, the thing that make her get through the days is her insane hunt for the ones that made her suffer, that took everything from her.

But she's not alone in this hunt, Havoc is right beside her.

But for Havoc is reason is even more personal... Let just say that family means nothing when the ones we call family treat us bad and betray us in the worst way.

I can't say much more without spoil so I'm gonna shut my mouth...

This book is hot, raw, forbidden, intense you name it.

The plot is amazing and the interaction between the characters is not only sexy but also crazy.

The way the story progressed left me anxious, scared and worried.

I love a book that can evoke true feelings from me, that can make me enjoy live to the fullest, because not everything is always black or white. Sometimes we need some gray into the mix.

I loved every second of it and I want more because I was so mad that it had to end. Why?? Why Ambere?

Will we wait long for your other book? Please say no!!

I voluntarily reviewed an Advance Reader Copy of this book.

Jos says

4 Stars

This is the second book in this series and I truly liked it a lot! Havoc and Angel were great together:) I have to say that the little interaction with Venom and Cessy from the first book was great. Cessy made the most heartfelt statement about her man and it really made me see the "girlie" side of her and I have to say, I loved it!!!!

The writing is great, the storyline is intense, it's mysterious and suspenseful and yes, hot in all the right

places too. My only minor issue is that I wouldn't classify this as an MC romance...it's too suspenseful and there are too many moving parts going on outside to keep up with for my tastes (I find it a bit overwhelming at times)but still for those who do love a great storyline that isn't necessarily full of romance then you will love this. Me, I want more romance and less suspense and outside storyline drama if that makes sense. My feelings is that I want the main focus on the couple but here in this series I find the couple is the minor storyline if that makes sense. I have to say I can't wait to read the third book to find out what happens next:)

Maura says

Havoc is Book #2 in the Silent Sons Series and I think it's important to read book #1 (Cessy) first.

Book 2 is about Cessy's best friend Havoc. He is living for revenge and won't be satisfied until he gets it. Angel is a strong woman who is going with him to her hometown to try and solve a mystery. He doesn't want to do it, but he can't say no to Cessy.

Once again, this is a multi character story with layers. The reason I think it's so important to read the first book is because of the background characters and situations we've already been introduced to.

A few of the things I really enjoy in this series is the fact that not everyone is a "cookie cutter", stereotypical biker. There are feeling and emotions that the bikers feel and friendships they aren't afraid to defend. I also appreciate the multi cultural personalities that are written about.

I am looking forward to the continuing series to see how everything pans out.

Britt Franks Red Hatter Book Blog says

This series is quickly becoming one of my absolute favorites! With strong, tough women who can stand on their own and their equally tough men that always have their backs, The Silent Sons is an MC series that keeps you riveted to the pages from the very start and Havoc is no exception to that. Angel and Havoc are both set on revenge, havoc against his father who betrayed them all in the worst possible way, and Angel against the cartel that took her family. Forced to work together on tracking down Havoc's father and the Cartel the sparks are immediately flying between this Latina spitfire and gruff biker.

I loved both Havoc and Angel since meeting them in the first book and have been (impatiently) waiting for their story! It was so worth the wait for these two! Angel is a whole new type of strong woman. After all she's been through, she's tough as nails, but she also has a better understanding of the grey area between right and wrong. Even as fiercely independent as she is, she has a huge heart and loves all of her new family behind words and would do anything for them. Havoc is still on a rampage after the actions of his father. He's sole focus has been nothing but revenge for months on end.

With his mind solely on that he's distanced himself from everyone he loves, but it's not long before Angel is bringing him back to seeing more than just his rage. Both so dead set on avenging their loved ones it takes the two of them together to realize there's more to their lives than their vengeance. I loved the balance there was of healing for both Havoc and Angel, but without stopping them entirely from their mission. Sexy, at times beautifully sweet, and still filled with the gritty suspense that makes this a real MC book, Havoc was absolutely incredible and left me dying for the next book in the series.
