Saving Arianna Alisa Woods

JAK

I'm the bodyguard for a woman who was captured and mated against her will.

Watching Arianna get hurt is tearing me apart. The mating bond is everything great about being a wolf—sexy, euphoric, bonded for life—but for her, it's an invisible prison cell. And I want like hell to break her free. But it's impossible—her mate is my alpha's brother. And I owe him my life. Not to mention he's my boss in the most prestigious dot-com investing company in Seattle.

But what is that worth if I have to watch a beautiful woman destroyed before my eyes?

ARIANNA

The magic holds me captive, but I've never stopped dreaming of being free.

Six months. Just six months since I was mated to Mace. Seems like an eternity. But I finally convinced him to let me go back to school—that way I can help in the pack's business. Maybe I'll win a little more freedom along the way. A little more room to breathe. Even if I must return every night to a mate who takes what he wants, no matter what. School is as free as I'll get—and my bodyguard is a breath of fresh air in a life that feels like it's choking me.

But when my bodyguard saves my life from an attack by rogue wolves... *everything* changes.

Is love stronger than magic? Or will breaking an unbreakable bond destroy them both?

Saving Arianna (Dot Com Wolves 2) is a super-hot complete story with HEA.

(Formerly published as Dark Alpha).

Margaret says

This is a great story where disregarding the pack rules is the right thing to do. Jak is a hero. He knows that Arianna needs saving and that if anyone is going to do it, it has to be him. He is ready to give his life to save her and it comes very close. Jak and Arianna are a great couple and they get their happy every after. Jak gets more than just the love of his life he gets the family he has always craved.

angela says

Excellent, excellent, I highly recommend reading this.

Cyn Mistress Kitty says

Really liked this story. LOVED Jak. I also liked Arianna and thought she was so sweet and strong even after all she had gone through.

Lisa Hunt says

So touching and real life

This story even though fiction touches on real life issues . As with most of Ms. Woods books she puts such strength into the main male and female . I was so absorbed in this story I was so sad that I reached the end. I could of kept reading this story forever. This did put tears in my eyes at times, so it was an emotional book for me. Which any book that can do that is a must read . I will say I will re-read this book many times I liked it that much! I recommend this to everyone!!!

Jackie says

What a great story. Love how all these wolf packs that Alisa Woods has written about are all inter-connected, even if only by a small thread in the story or just a few characters. Jak & Arianna are almost star-crossed in their love of each other in spite of the danger that it creates. They are adorable together, you can't help but cheer them on & hope they get their HEA. It's fantastic that they develop love for each other without having the mate bond or something fated as in all the other wolf stories out there. Loved what happens to Mace in the end, he so deserved it. Interesting twists & turns in this story's plot that I didn't expect. Always glad to see the HEA us readers always want for the characters we adore. Hoping to see more of Sarra & Marco as well. Would also like to see Circe find a wolf mate, she seemed to be a "good witch" in spite of the bad reputation all the witches seem to have with the wolves in Alisa Woods' books. I received an ARC of this book from the author for an honest review.

Shaly says

I enjoyed this book a lot better than book one. I was really cheering for Jak and Arianna, I felt horrible at her predicament, getting kidnapped, forced to mate with Mace the ass and then getting sexually assaulted practically everyday while pretending she's into it just so he wouldn't hurt her further. She was too young and sweet to put up with a sadistic bastard like him! That's why as shocked as I was that she actually pursued a relationship with Jak, I was still rooting for them! This book had me on tenterhooks the whole time, I was terrified they would get caught! Of course Jak's plan goes to hell in a hand basket super quickly but the journey to free Arianna and basically himself was a very adventurous one.

Janet L. Hage says

Freeing a captive mate

Arianna was stolen from her family and forcibly mated to a dark Alfa Mace. Mace was a cruel man and Mace's brother had his beta Jak watch Arianna. Jak's mother was also a captive mate who was killed by his father in front of him. Jack now had to free Arianna from Mace. Suspense, action, and romance are on the menu in this paranormal romance, with witches thrown just to spice it up. Adult readers due to sexual and violent content.

Reina Lee says

Excellent

I guess I read these out of order, but I enjoyed all of them and the pieces are coming together. Wondered why I knew some of the characters already. Just really enjoy this series.

Jamie says

Alisa Has a knack for the shifters for sure! I loved seeing a character from the first book develop here in this book! True Alpha male swooped in to save the damsel in distress. Lots of twist and turns especially the ending all for the HEA! Love it now I am on to dot com 3!!

Tia Louise says

I absolutely LOVED this exciting, heartbreaking, SUPERHOT story!

Jak and Arianna are so beautiful together, and Mace is such a despicable character.

I knew J & A would have a rocky road to being together, but I never expected the twists this story took. It is such a fun, exciting read!

I've always preferred vampires to werewolves, but Alisa Woods is quickly changing that with her hot and sexy shifters.

Just like the first set "True Alpha" this set is FIVE STARS!

Can't wait to see what she dreams up next.

BJ says

Quite a lot of angst with h mated to evil shifter and the H is her bodyguard. H is in love with her, sees how unhappy she is with her mate, but there is nothing he can do. It was good, with witches coming to their rescue, a different spin from most shifter books where witches are usually evil. Pretty good.

Paula-Diane Lufflum says

Hot

A hot and exciting read, lots of fighting and pack business, fighting within, fighting outside and a near death experience for Jak. Loving Arrianna, Sarra and Marco. Journey's and magic make this a thrilling read.

Robin Franks says

Great read

This story is a wonderful addition to the series. I am so glad that Jak got his happy ever after. When he rescued Arianna and set her free I knew he had an alpha in him. I hope to hear more about his small pack in future stories. I would recommend this book to any adult reader wanting sexy shifters in her life! ;)

Sheila Walker says

He had to save her from Mace and he was willing to do anything to make it happen

Jak fell in love with Arianna the moment he saw her but she belongs to Mace his alphas brother, he was on bodyguards duty Adrianna was back at school on the order of Mace father. Jak loved the closeness her smell. Bounty hunters tried to kidnap her they both shifted and fought. When it was over She fell she had been shot with a dart. Scooping her in his arms he dashed to the car. What happened next surprised them both hot hot hot that made his mind up to free her from the man and wolf who kept her captive. There are lots of twists and turns to the story and you don't want to miss any of it highly recommended and much enjoyed
