**UnScrew Me (Savage Beast MC #1)** Hayley Faiman

NOVEMBER 2018

Thirty-two and single, Presley wants to start over. She's only going through the motions--just breathing, not living. It isn't the life she's always imagined.

She should be married, with a little house and a few children, maybe even a labrador to greet her after a long day of teaching third graders.

Treasurer for the Savage Beast MC, Silver lived life hard. At forty-five he's seen and done it all--twice.

A single father in need of someone who could love him, and his boy. He's given up on ever finding a woman who fit him--fit them.

Two people breathing. Two people wanting to be loved. One an outlaw. One an innocent. Two people who could not be more opposite, yet when their worlds collide, so does their chemistry.

## From Reader Review UnScrew Me (Savage Beast MC #1) for online ebook

**Jessica says**

**Fell Flat**

Gah, it pains me to write this review since I enjoy Hayley's books.

But this book was not good. The H turned me off big time (He ruined the book for me in general, he was just, Yuck.) And the h was just naive and stupid, imo.

I didn't feel any chemistry between these two either. At one point in the book I was hoping Presley would leave Silver for good. But of course, she didn't.

Hoping the next book will be better.

---

**K.S. Rochell says**

Hayley has Slayed it with this new series it's intense, captivating, sinfully steamy, Sliver is the king of alpha bastards he is a wicked, Delicious asshole with a heart of gold I couldn't put my kindle down this story OWNED ME!!

More review to come..

---

**Terri Moore says**

What in the actual fuck? There is so much to unpack here. The H is a raging prick, who lusts after one woman (not the h) and has sex in some form with 2 other women all by the 4% mark. He then has what eventually will become a club whore give him a blowjob after he already had sex with the h. The h gets kidnapped by rival MC and gets sexually assaulted. The club rescues her but no one even thinks to cover her naked from the waist down body - I mean fuck one person could have simply taken their damn shirt off to cover her. The H throws her half naked into his truck, is super angry with her, FUCKING SPANKS HER BECAUSE SHE NEEDS PUNISHED FOR DISOBEYING AND GETTING HERSELF KIDNAPPED. He proceeds to have sex with her (if I recall correctly "not making love but really fucking her") and SHE APOLOGIZES FOR GETTING KIDNAPPED AND ASSAULTED. \*Deep breathes\*

And that brings me to the h. I had sympathy for her at first but that quickly died. She was just as responsible for how Joel treated her as he was. So many times she would question what was happening but then nope Joel and his magic cock fixes everything lickedy split!

Everything I've listed happened by the 65% mark. At that point I was all "I am going to rage read the rest of this bitch because I am not a quitter" so I did finish. This is my third read of this authors and I just do not like her H's. They're all selfish pricks who cheat and no amount of sweet talk will ever make up for that so I guess I gotta pull out the old "it's not you, it's me" and mosey right along.

## Cc says

Kristin Ashley vibe, but not as sweet. Beware though, TSTL abounds, by both MC's. Mmmnm, my favorite, not. Also, cheating. I'm not usually bothered by it if the hero is at least a lllleettlllee remorseful. But no, its club business, bitch, you take it and while your at it, you trust me. With your Fvcking life. You also tell me you love me but I don't tell you. I will, maybe sorta kinda, say sweet shit to you in Spanish that I, maybe sorta kinda, will explain to you what it means. But, and this is a BIG BUT, if I have to suck some really hot chicks cvnt (for club business, you understand) I will. And you WILL trust me.

Aaaaannndddddd .....she does. But the author does throw us romantics a bone (no, no she really doesn't) at the VERY VERY VERY END. He, um, sorta kinda maybe, thinks he'll be faithful. Maybe. ? At least I gotta laugh, right? (No, no I really didn't) Don't say you weren't warned. Also, I don't care for the writing. That's not a dig at the author (writing style should never be belittled, it's hard and I applaud anyone who has the nerve to put their work out there). I put this in only bc it impeded my understanding of timelines, who's good, who's not, etc. KU

## Anca Ash says

The writting really good but the story a bunch of prehistoryc bullshit. He man can cheat, he is the boss man...the little lady good for kids and being cheated on. I can understand having sex with ow at the beginning but not after they are together. And the h being a stupid women...yes i'll forgive you everything. Time of my life lost.

---

## Tee loves Kyle Jacobson says

Lordy lordy lordy and Holy Hell is what I said when I was reading this book. This is the first book I have read from Hayley and it will not be the last. I was thrown into a world that I love. Bikers are rough and rowdy and do things that are not on the up and up and I love that about them. Bikers are real and don't have to worry about fluff from them. This is Silver's story and wow what a story.

Silver is the Treasurer of The Savage Beast MC. He is a single father of an amazing 8 year old boy Buster. Silver is a great father but he is getting older at 45 he wants a mother for Buster and wants to have an old lady to come home to. Someone who takes care of him and his boy.

Presley is a school teacher and she needs a change of scenery because her life has become sad. She is looking for a man to settle down with and have children and live the American dream. At 32 she has nothing to show in her life and she craves that change so she moves to a new city and decides she will live a little and have fun and just maybe get her man and family in the process.

Then she sees Silver picking up Buster from school and she is hooked! She wants to get to know him but she also knows that he is Buster's father and has to tread lightly. Then Silver sees her and he wants her in his bed and on his bike and being a mother to Buster. This is where the story takes off and holy shizz does this story take you on a roller coaster ride that you will not want to get off. This is a must read MC book that is raw and gritty and rough oh and panty dripping goodness!!!!

---

### **Kelly Williams says**

I received an ARC in exchange for an honest review. Great new series by Hayley!! She has perfected the art of writing about men you want to strangle, kiss, smack and hug all at the same time!! This new series has promise! They are violent and gritty like all her past MC books. Silver takes no bullsh\*t and takes what he wants. Great story with tons of action/romance. Can't wait to see how this series unfolds!!

---

### **Mfred says**

Well. Shit. I love motorcycle club romance, but I will be the first to admit a lot of books involve violence against women-- all in the name of "dark and gritty" plots that are meant to shock and titillate. I do my best to avoid the most egregious examples of the subgenre. I read other Hayley Faiman books before and thought I was safe. She took it too far in UnScrew Me.

Silver, the so-called hero, is a rapist. There is just no other way to say it. With a gun held to her father's head, he "asks" a woman to go down on him. She complies. He rationalizes the act by saying it's about a show of power and control on behalf of his MC, not sexual desire-- which excuses nothing. It's a forced sexual encounter under threat of violence. It's rape.

Later, the heroine Presley is raped in the same way for the same reasons by another character. Why bookend the story that way? There are no parallels drawn between the first woman and Presley. And if that's not enough, Silver goes on to blame Presley for what happened to her and she agrees with him. It's her fault because she ran away and got kidnapped, the book says. What. The. Fuck.

There's a lot more to dislike about the book. Silver refuses to be monogamous to Presley, just in case club business requires him to stick his dick in a woman at some point, some time. It's literally the only thing she asks of him, and his best answer is "I'll try." He is an extreme jerk, even for an MC romance style alpha hero. Everything must be done his way and Presley must accept it if she wants any kind of relationship with him. There is no redemption through love. There is no journey to a mutually satisfactory ending. There is only capitulation.

I was really disappointed in Faiman for this book. It's one thing to write something raw and gritty, to show the darker side of life. It's quite another to exploit the sexual victimization of your female characters.

---

### **Konny says**

UnScrew Me by Hayley Faiman is book one in her brand new Savage Beast MC Series. The book tells the story of Silver and Presley and is NOT for the faint of heart. The story is raw and gritty, there's violence, a

hero who's rude, crude, an outlaw, violent without blinking an eye.

On the other hand he's a loving father and brother to his MC family. He's a man in his forties, mature and knows what he wants. He's through a lot, the MC life is a rough one.

Presley Gray is a 32 year old teacher, new in town and lonely. Both meet and it's not love at first sight with fireworks exploded, no. It's more like a slow burn where they get weared down.

I started reading and was hooked pretty quick. I read the story in one sitting, I had to know what happens to the characters. USM is a dark read and is told in a dual POV.

---

## **Sheri says**

Did you ever finish a book and think to yourself "WTF did I just read"? That's what I felt when I finished UnScrew Me by Hailey Faiman.

I love a good MC story. Unfortunately, this was not a good story. This is a story about a really bad guy and the doormat woman he basically orders around and she does whatever he says.

Silver is the Treasurer of the Savage Beasts, a completely "illegal" MC (meaning they only deal in illegal things, like transporting drugs). The story starts 20 years earlier. He's in love with Savanna, who is the bitch (a term we hear at nauseam in this book) of his "brother" and his the "brothers" kid. Hawke, the "brother" takes off, leaving the club to deal with the aftermath of his leaving, which is devastating for Savanna. Silver pines for her for 20 years, raising her kid, and his own and then he meets Presley, who is his son's teacher.

Firstly, Silver is a really crappy dad. So much so that his own child tells Presley that his dad "is a bad guy" and "will hurt you". Why would you want to be with a man whose own child tells you to stay away from? Great sex apparently.

Presley is a total doormat of a character. She has a few moments where she wants to leave Silver, but he doesn't let her. He's decided she's his. Come on. This book sets women's right back with it's portrayal of a woman who can't possibly live without a man - a man she knows virtually nothing about and doesn't know that what he does for a living is illegal.

The most ridiculous part of this story is the branding. To claim Presley as his own, she has to be branded. Literally branded with a branding iron. ARE YOU FRICKING KIDDING ME WITH THIS???? I have never read something like this in ANY of the MC books I've read. Can I also add that at the point of this branding, SILVER HAS NOT EVEN TOLD PRESLEY HE LOVES HER. She was just like "sure, brand me with fire for a guy that may or may not love me".

The whole Savanna storyline was also ridiculous. Why Silver even liked her was beyond me. She was a terrible mother (but he was a terrible father, so there's that). The whole storyline made no sense. This book was also unnecessarily violent and crude. Based on the summary, I expected a completely different story than what I read.

This book was insulting to women and not worth reading.

---

### **\*Dee's Reading Time Matters says**

This was most definitely a gritty and intense 5 stars MC read for me that wasn't for the faint at heart!

Silver Hernandez, the hero in "UnScrew Me" will make you love to hate him because he's so set in his ways as the growly Treasurer of the Savage Beast MC. He's been in love with a member of Savage Beast MC's old lady since day one and when that member, Hawk becomes nomad and leaves his MC, abandoning his woman and 4 year old daughter, Trista, the chapter continues to support and protects them. Distraught Savanna, Hawk's ole lady is hurt and very bitter but still Silver wants her. She acknowledges to Silver that he can have her body but her heart belongs to only Hawk. Silver doesn't want that type of relationship so as time passes, he has a son by a drugged- out groupie of sorts and she give him his child which he names Buster.

When Silver Hernandez meets heroine, 32 years old, Presley Gray (Buster's 3rd grade teacher) she has recently moved into a new town taking a teaching position and seeking ADVENTURE and YES does Presley gets said ADVENTURE with Silver! Buster is an endearing cute kid who had so many of his father's charming mannerism that it was too funny to read the words at times! The members and prospects of the Savage Beasts MC are all alpha men: tough, manly, frank and possessive take charge dudes and it makes for a gripping new series! BTW... lil' Buster Hernandez has a crush on the President's daughter so this might just give evidence of a second generation series to boot!

This was a great start to a new series and really can't wait for Wolfe and Esther's story along with maybe Trista and Taz...

5 BIG, satisfying stars \*\*\*\*\*

### **Shari Kay says**

This would be a *no*

<https://www.goodreads.com/review/show...>

---

### **Nikki says**

NOPE. No. Very disappointed - didn't finish. I understand when reading an MC romance there's gonna be some annoying things with club girls and the hero's lifestyle before they meet the heroine. But instead this guy thinks it's cool to force a girl half his age to become a club whore in exchange for her fathers debt then has her blow him in front of her family. Then after acts like he did a good thing for the club and it wasn't cheating - even tells the girl he's just essentially forced into become a sex slave for the club the he has a girl. I CANT EVEN. So many things wrong . Him having sex with one of his usual club girls would have been less horrific. At the end of the day though how could you root for someone who does that?

---

### **Joelle says**

When they Fall they Fall Hard !

---

Omg ! I don't know where to start with this one as I am still running on a high with all the excitement this current tale brought us.

Hayley for me is on of my favorite MC authors as everything and anything she writes I love reading cover to cover.

Right from the very beginning you were engrossed in the story and stayed that way to the very end.The story was packed with tons of drama.

The story revolved around Silver who can't seem to give up wanting to be with his brothers old lady who left her.I don't know how many times I wanted to smack him for the idiot he was pining for that wicked witch Savannah what a "bit\*\*" she was!

The story kept us on edge the entire time as you could not help being that way because Silver's personality was so explosive and you just never new how he was going to act at anytime or in any situation.

This is a story where you have a love/hate relationship with one of the main characters and Silver was like that for me as the man was a complete A-hole the entire story yet was capable of being a loving and caring man.Silver had a very dominate personality I found him to be abrasive,hard,dark,gruff,gritty,violent,possessive,protective,overwhelming and not love-able on the whole.Silver however is not heartless when he loved he loves fiercely.,he cares about and provided for them,he loves his boy above all else.Women however are drawn to the hard and sexy man.Silver screams "Bad Bay Beware" just by looking at him.

Run-Run-Run lol

Silver finally found a women to snap him out of his blind lust he had for Savannah and she is a mousy school teacher who is timid,kind,love-able and pure sunshine. Omg! Presley never had a chance as that man steamed rolled her big time !From the very beginning he dominated that women in every way possible.Girl what is wrong with you? lol

Presley is pure sunshine,love-able,caring,naive,sexy,and someone looking for adventure."Oh boy",Did she get that with Silver and his MC family and then some.Presley was a character that I felt bad for as Silver expected so much from her yet, wasn't willing to give her any promises in return.Honestly,I don't know what drew her to that man in the first place but, she saw something in him under all that hardness that I just didn't see."I must be Blind" lol. Presley was a character that I loved as you could not help but, being drawn to her innocence.

Overall I loved the story as it was filled with tons of drama,The story had twists,turns,surprises,was dark,gritty,dangerous and kept us on edge the entire time and I couldn't put the book down until the very end.

The story itself was hotter than hell.The chemistry and the sexual escapades between Silver and Presley where intense,exciting,super hot,even explosive,at times.Silver acted more like a dom-with his sub most of the time with that take what I give you attitude and be happy with what I give you. Arrogant much?The sexual situations were hot,but, in your next breath you want to punch Silver's lights out for being so arrogant and cocky!

This is not a story where you are going to love one of the main characters but, as the story progresses you find out that there is more to Silver than meets the eye and he kind of grows on you. LOL Fans of Hayley's are going to love this one!I have a feeling others are going to love it or hate it "we however loved it."
