What a fun book for new readers! Second graders learn what Fizz Ed is, and they meet the gigantic Miss Small, who is the gym teacher. She turns a quarter of a century old during the story --- a number almost as big as her height for these 2nd graders. There is the typical name-calling, a couple of words describing the posterior, and a lot of fun word-play. Will all the readers get the jokes? Maybe not, ut when moms and dads are reading along with their young readers, the fun increases exponentially.

How are these 2nd graders going to ever train these teachers to ACT like, well, teachers??? Gotta love it.

This is a decent early chapter book series. Each book has a bit of humor and a relatable setting and characters that make them easy for students to engage with.

We bought our seven-year-old a bunch of *Weird School* books for a trip we took earlier this year. He's really taken to them—they may be the first books he's read entirely by himself, unprompted—and has actually been pushing them on me to read ;-) We were missing this (#5) and #3, so I checked them out from the library.

This particular volume introduces the P. E. teacher, Miss Small. It's a bit of a reversal from the earlier books since the main character actually *likes* P. E. ... but things don't quite turn out the way A. J. was expecting.

I have only read the first five in the series so far and I'm enjoying them. Yes, they're formulaic, and yes, they're aimed at a much younger audience than me, but they're written with some wit and elegance, and Jim Paillot's illustrations add quite a bit.

I've read part of this book it's good

I thought this book was really silly because a regular teacher would never climb a tree because it's too dangerous.

This book is about a boy named A.J who is taking P.E for the first time ever. He thinks it's gonna be all about sports and danger. However, he is surprised on his first day. Instead it's all about balancing, juggling and boring stuff like that. Worst of all, the teacher is a big nutball. They play games instead of sports and one time, the teacher even broke her leg! However, in a few days, A.J realizes that P.E isn't how he thought it would be. It's better.

the book miss small is off the wall is about aj and his friends are excited about about there first year of fizz ed. But when they got there aj and the gang started to have second thoughts about fizz ed because aj thought they were going to be playing sports like dogeball, baseball, and basketball. But instead of playing any of those sports they played a game where they had to balance feathers on ther fingers. So aj at that time particularly didnt really care for fizz ed. But when they were outside playing tag miss small fell out of the tree and broke her leg. So she went to the hospital but the next week ajs teacher told them to get ready for fizz ed aj was wondering who would take miss smalls place and when he walked in there he saw miss smalls and once again he started loving fizz ed once again. The end

Miss Small is the gym teacher. Miss Small is really crazy because she doesn't do normal gym things. AJ thought he liked gym class but now with Miss Small they do the chicken dance and do scarf juggling. They also did square dancing and 3-year old games like Duck Duck Goose, Red Rover, and Mother May I. When they play a different game that I don't remember what it's called, one person has to hide and the rest of the people have to count to 12 then say "midnight" and look for the person. When they find the person they yell the name of the game (but I don't remember what it is). Miss Small was hiding in a tree and she fell and broke her leg.

I loved the kids thinking about adults. As a 23 year old woman, I have noticed that many older adults don't seem to believe in just plain childish fun. Everyone needs to let their hair down occasionally, and it was delightful to read that the adults in AJ's school do act like kids when they get a break from work. Now, to convince the kids...

I would recommend this book to people who like books about mysteries.

I like this book because I love books about sports.

Samantha says

Fizz Ed teacher Miss Small is tall and outgoing. She makes the kids do things like square dance, juggle, and balance peacock feathers. She is really off the wall. But when the kids at Ella Mentary School find out Miss Small is going to be a quarter of a century old, they begin to worry about her health and the fact she seems so immature. My daughter and I enjoy reading about AJ and all his adventures in this series.

Aleeza Batara says

This book is funny and at the same time weird.

Whitney says

I would recommend these books to young readers. There is a story line that a child can follow and it has relatable characters.

Alice says

Miss Small is a quarter of a Century old and the kids think she is so old she is going to die? She is a fun PE teacher and makes them do fun like like juggle feathers. I like this series, little boys will love these early chapter books. The only thing I would worry about is AJ can get a little violent. HE talks about hitting Andrea in the face and says mean things about Andrea, but other than that I liked it. I listened to these on the Audio CD (while I am driving) and I love Jared Goldsmiths narration.
