### Charlie says

I am Sorry to say that I hated this book because I hated both the H and the h. They were both totally selfish ratbags who actually kind of deserved each other with their selfish ways. The kid is a prime candidate for selfish H when he grows up because his parents will have ruined him.

Let me mention the book title NO they weren't married again they were never divorced so the title is total rubbish.

So let's start with the plot selfish h had left the H 5 years ago because he lived work more than anything else she found out she was preggers so never told him because he said he didn't want a family. I think really it was because she wanted to punish him for neglecting her in their marriage. He was also a piece of work though apparently he only married her to spite his grandpa and he genuinely wasn't in love with her when they married despite her thinking he was.

She then decided to tell him about the kid after he had a brush with death.

Neither of them came out of this story very well tbh they should have divorced years ago and his attitude in particular was grating he threw his money around everywhere and is in danger of turning his son into a spoiled toad. In addition to that he didn't think his wife was entitled to anything (she never asked)

I truly enjoyed this one. The hero, Adam, had a revengeful reason for marrying Sienna, as innocent as she was she suffered, severely. Adam lost the first four and half years of his son's life when she walked out on him. It was new and refreshing. Adam fell in love with her the second time in marriage and she never stopped. Good read.
