Excel Applications for Accounting Principles

Gaylord N. Smith

Excel Applications for Accounting Principles Gaylord N. Smith

This textbook introduces students to the power of spreadsheets. It contains over 50 spreadsheet problems that reinforce principles of accounting concepts. The problems incorporate formula development and model building skills that may be used in a variety of accounting applications. Emphasis is placed on what-if analysis.

Rachel says

This is a great book for learning managerial accounting. The exercises were really helpful and well explained.
