The Infernal Devices: Clockwork Princess Cassandra Clare , Hye-Kyung Baek (Illustrator)

The threat of Mortmain's Infernal Devices looms as the Shadowhunters race to work out a way to counteract the mechanical monsters. Meanwhile, plans for Tessa's marriage to Jem are underway, despite her fiancé's failing health and the unresolved feelings between her and Will. When Tessa is captured, Will must leave his comrade behind to save the woman they both love... But with the final missing piece-Tessa herself-in Mortmain's possession, can anything stop his plot for revenge?

My goodness...is that girl on the cover supposed to be Tessa? Oh well, if it is then Tessa just deserves to look THAT BAD.

OH. YES. SHE. DESERVES. EVERY. BIT. OF. IT. NO. KIDDING.

Also, someone should teach the illustrator how to draw gentlemen suits and Victorian style of dresses properly.

Aleishas Reviews says

The infernal devices is one of my favorite trilogy's of all time, Cassandra Clare's books were phenomenal. Being very new to the manga genre, I was not sure what to expect when it came to these three adaptations. Let me tell you... I was blown away!

The art was incredible beautiful and the story flowed effortlessly. I thought being so short that the essences of the story would be lost, that the characters would no longer appear as themselves. **I was wrong.** The manga successfully captured the reasoning and thought behind the characters motives. The art only enhanced the emotion behind the angst filled story. (view spoiler)

Of course being so short compared to the original book, parts had to be left out. (view spoiler) But I can understand why and overall it didn't effect the story's plot.

All in all I was definitely happy with the adaptation.

I can't wait to explore what more manga has to offer.

FATHER IS A WORM

I still cried.

I honestly can't even begin to explain how much I love The Infernal Devices as a series. Forever needing and wanting more Will Herondale.

My heart can never take that epilogue.

The Infernal Devices (Manga) Reviews:

Clockwork Angel - 5 Stars

Clockwork Prince - 5 Stars

Clockwork Princess - 5 Stars

Edit: 8.5/10

9/10

Not quite as hard-hitting as the novel, but I'm crying like a baby all over again.

Lauren says

cries that was SO emotional!

WHAT a finale! I honestly couldn't put this book down. The illustrations continued to make me swoon, Jem was pure perfection (and so was Will) and there was death, treachery, battles and declarations of love
swoons

The last few pages were simply beautiful!!! I believe the ending will go down in literary history (at least I hope it does). I would say it was the perfect love story but it was more of the perfect love triangle. Anyway, a truly spectacular read to give your heart a workout!

Flor says

If you excuse me I will be here, crying my heart out and feeling lonely (again). Thank you Cassandra Clare and Hyekyung Baek for breaking my heart in the most beautiful way.

5/5 Stars

This whole Manga trilogy made me want to reread TID!

Ishmeen says

I love this series so much y'all ? the manga was so cute and entertaining - those chibi reactions were

absolutely amusing ? Really good and quick way to refreshen your memory on the plot I reckon!

Seeing Will and Cecily's facial expressions while they bickered made me chuckle. Best thing about this manga.

Ending made me tear up. Damn these love triangles. I still like Will more because, to me, he was a better match for Tessa.

The reason I read more graphic novels and stay away from mangas is that I can't really tell the characters apart. They all look the same to me- especially good looking guys. Thankfully, every now and then the names are mentioned. haha

Kayla says

Love the original books still but damn did I enjoy these manga versions. Excellent illustrations, writing, and some hilarious moments that made laugh out loud. ?

I think these made me love Jem with Tessa more than her and Will...but he's still amazing ?

Marie Dellis says

2.5 stars.

"It's me the problem, not you." I don't think mangas are my thing.

melissafandomworld says

Whether it's the regular book I'm reading or this manga edition with the art-work in it; this final installment of the trilogy guts me every single time while reading it, no matter how often I re-read it.. I just can't seem to cope with ALL THE FRIGGIN' FEELS, my god.. Phenomenal. I'm heart broken, emotionally crushed and I LOVE IT SO MUCH.

WHY did I read this again? Oh yeah, that's right; because they're my favorite reads, right? BUT READING THEM, and especially this last book, DESTROYS ME EVERY SINGLE TIME. I'm such a masochist..

And me ending up crying in foetus position shows me what a magnificent job the artist did with this final manga installment. The fact that this read was able to practically make me feel all the feels I always experience while reading the original book says enough I think.

There was one sentence I missed in this book though, it's a really important one to me personally - (view spoiler) But other than that one sentence not being present in this book, it was just yet again utterly perfection!

YES, I'm devastated at the moment and I'm still wiping away my tears and trying to find a way to close the re-opened chaotic and unmendable wound that's called my shattered heart, but I can't do anything other than marvel in the magnificence of it all. The art-work was yet again spot on, the story-line was plot-driven, the characters and their development is wonderfully done and it all embodies exactly what the original book is like.

Katie says

After reading this, I think I need a little time to recover before I dive into my reread of the novels. While I felt that the character development of the characters in the graphic novels fell a little flat (due to the medium of the story - I didn't find this to be the case in the novels), this book still found a way to completely destroy me, and I am not so sure I can handle the feels if I were to immediately start rereading the novels.

I absolutely love this story and the series, and I am really glad I chose to read it in this form as well. I don't anything will stop me from loving these characters and how much they all love each other. (view spoiler)

If you love The Infernal Devices, I definitely recommend giving the graphic novels a chance!

Pinky says

"Father . . . ," Gabriel began. *"Father is a worm."*

I know, I just wrote a review for the manga of Clockwork Prince, and I already finished Clockwork Princess. You must think that I am crazy! But I finished reading both books before I wrote the review so I am doing both of them one after another. Anyway, I enjoyed this book so much, even though I was crying half of the time. It was so much like the actual books!

The feels were making me crazy and I felt like I was going through all the pain all over again. Tessa, Will and Jem have the most complicated situation and it was killing me. Every time I see them all together, I am thinking about the way they are feeling and how awkward it is at times. Their loyalty towards each other is just amazing and it brings tears to my eyes.

"Life is full of risks. Death is much simpler."

In the end, I was crying so much because it was so sad but satisfying at the same time. Although I knew what was going to happen, I cried anyway. And it may be hard to believe, but I don't cry a lot when I read. But the actual books are so powerful and the manga was so beautiful and everything fit in place. It's too good to be true!

"It is a very strange thing, to be in love. It changes you."

I highly recommend you read the Infernal Devices. I recommend reading the Manga after reading the series so that it won't be confusing and it would be nice and it is a faster way of rereading the books. I highly recommend this book and any other books by Cassandra Clare. And I want to start reading more Manga because of how much fun it was. I want to read more books by this Manga artist. I want to reread the actual books later on, when I am done my TBR list. (That is going to take awhile) I can't wait to continue reading more books and jumping into different stories!
