My Life in the Nineties

Lyn Hejinian

My Life in the Nineties Lyn Hejinian

Poetry. The continuation of the project begun in Hejinian's best-selling MY LIFE also available from SPD MY LIFE IN THE NINETIES provides important glimpses into related works such as HAPPILY, THE BEGINNER, and SLOWLY. Part prose poetry, part autobiography, and part radical modernist experiment, MY LIFE IN THE NINETIES is a masterpiece of recent writing on identity, language, and politics."

Ali Lafferty says

It normally takes a lot for me to read anything besides straight up prose, but this little book was absolutely wonderful! Lyn Hejinian is actually my professor right now and one of the grad students that leads discussion section for the lecture suggested we look at her work and so I found this at the library. There were certain passages that resonated in some weird, incredible way, like this passage where she talks about our greed for experience, how we think other people's stories have happened to us because we want to possess that experience. The book is filled with small, everyday revelations like this one; plus, the language was beautiful.

Yonina says

It wants to delight me and it slowly gets comfortable adapting the earlier styles of My Life (edition 1 and the updated edition 2) into something new, something not quite as unsettling but still more meditative. Perfect too for my ongoing thesis about Hejinian's work and discursivity, syntax, and (non)sense.
