Blind Date Teddy Bear

Mimi Strong

Blind Date Teddy Bear Mimi Strong

Trevor isn't like those guys you see on the covers of romance novels. He's got some body hair. He's put on a few pounds. And he's got an ex-wife he's still thinking about.

Naomi has bright blue hair and still lives with her parents. She isn't sure about becoming a grown-up, but she's attracted to Trevor, and he's all man. He's got a softer side, too. A teddy bear side.

* * Her Teddy Bear is a short story or novelette of 14,514 words, or about 58 book pages. * *

An erotic tale for adults 18+ only.

Nikki says

Cute spunky girl meets huge hunky hairy dude. They have a blind date and some smokin hot sex! Will there be a date #3??? I'm about to read book 2 to find out! :D

Jacqueline says

Thoroughly enjoyed this short story. I loved Trevor who was a few pounds overweight and pretty hairy. He was not the brightest when it came to dating etc. Not your typical romance hero. The heroine was well written as a 23 year old girl who still lived at home with her parents. She seemed to be not quite sure of herself and where she was going with her life. She made some mistakes on the first date and had realistic reactions afterwards I thought. I'm going to have to get the other 2 episodes which sucks because I didn't mind paying \$.99 for 50 pages but \$2.99 for the next 70 pages seems pretty steep. And to top it off there's another short episode for a further \$2.99. Oh well I'm sucked in now.

Edeliz Bering says

Short hot read. My rate 3.5 stars

Iza says

Phew ! Hot and fun story, not too long but perfect for a cold winter ! A bit weird with the growling, though...

edzkie♥\$*.*\$♥ says

I love teddy bear. And the concept that Trevor is described as a huggable, good looking, and dependable. Although this is quite short and I have to check the next book for more but this first installment sizzled. And I'm glad Trevor was not so hairy like teddy, he just needs a bit of shaving..?

Katina says

Amazon Freebie

Jess -BeautifullyBookish- says

Short, sexy and surprisingly sweet.

Shannon says

I grabbed this book off Amazon today because it was free.. I liked it. It was steamy and it was cute.. I would like to read more, but I will never ever pay a dollar for a book that is less than 200 pages, let alone 50-60 pages.. So here's to waiting for more possible freebies..

Joy Whiteside says

This was a nice enjoyable read. I sat down with it and proceeded to finish it in one sitting.

It had a great story that sucks you in and wont let you go until you are finished, awesome characters that you want to know more about and the story flowed smoothly from beginning to end.

Mimi Strong is an awesome author who has created a really wonderful story.

Monica **can't read fast enough**** says**

Ummm, did I read the same book as everyone else? This book has received so many 4 star reviews that I just went to check and made sure that I clicked on the right book. This is the first time that I could not struggle through a book that is less than 60 pages long. Thank goodness that it was a freebie. There is no story line, just bam! Oral sex in the front of a truck, in a parking lot, on a first date, after knowing the guy for less than a few hours. Now I like the humpty hump as much as the next girl, but I would appreciate it at least being disguised as a story...

Karen111 says

Really enjoyed this! I liked the characters of Naomi and Trevor, and storyline was refreshingly realistic. Loved that Trevor was a bear of a man - none of your metrosexual/shaven chested/groomed to within an inch of your life man for me, thanks very much! :-)

Cheesecake says

[
Trevor and Naomi. Can't remember how I came across this one. I was drawn by the H because he's got body hair and although he's in no way chubby, he isn't Mr. America either. He's a big teddy bear! Big, good looking and a wee bit clueless when it comes to women.
He's Naomi's sister's boss a

DKristin says

I...Um...Well...Hmm... This was different. I liked it overall, some of the bear references were a little weird... I see myself as really open minded and into a lot of "different" stuff I guess when it's outside of a paranormal book and there are no shifters and what not it just was a little weird to refer to a person as a bear because of body hair/size and then asking them to growl. LOL! Maybe that's what it was, instead of finding it super hot, which I did find a lot of this hot, when it got to that stuff it just made me laugh. Yeah. I guess if they just referred to his growly behaviors and hairiness and size without emphasizing the "bear" thing it wouldn't have been as funny and flowed a little better, for me personally.

Julie says

3.5 stars

That was cute

That was hot

And I want a Trevor ;-) a real man (but with maybe less hair)

Brandi Salazar says

This was a short, delightful read with plenty of humor and steamy encounters. It ends in such a way that doesn't leave you hanging but still wanting more.
