The Scenic Route: Adventures in the Life of a Traveling Nurse

Colleen Lanier

The Scenic Route: Adventures in the Life of a Traveling Nurse Colleen Lanier
Nurse Colleen isn't a woman?she's a nurse!"

With that simple statement, one of my campers summed it up perfectly. In a life full of change, nursing is the constant. Whether sleeping in a Mexican hospital, wrestling an inflatable alligator, dispensing prunes, or supporting parents as their child is taken off life support, the unforgettable moments in my life are found in nursing.

To me, nursing is a calling. It's the job I was born to do and the role that defines me. I wouldn't have it any other way.

The Scenic Route is the story of my life-long journey through nursing: the laughter, tears, joy, and pain that come with the choice to serve others. This book gives readers a glimpse behind the scenes of child psychiatry, developmental disabilities, pediatric critical care, camp nursing, and legal nurse consulting. Welcome to my world.

Catherine says

I liked Lanier's first book, "Miles From Home," so when I received a message from the author that she had written another book I thought her stories about her nursing career would be interesting.

Lanier focuses mainly on her nursing experiences but she also includes elements of her personal life. I like medical stories, so I enjoyed that aspect of the book, but I was also happy that she was able to fill in many of the details that were missing from her first book because it wasn't pertinent to the narrowed timeline of the segment in her life during "Miles From Home."

If you're reading this Colleen, my apologies for my delay in documenting how much I enjoyed reading this book. The stories were varied, sometimes amusing, sometimes frightening, and overall a good read.

Dee says

Liked it a lot.

Barb Raveling says

I really enjoyed this book. Easy to read and fun to get a glimpse into the life of a traveling nurse.

Alison says

kindle 157 (have another by her)

Niki says

A lifelong travel nurse

I really enjoyed learning about Colleen's diverse nursing background. Some of the experiences she shares are some of the most special and precious moments nurses are blessed to be part of and I am thankful she shares them freely. I related easily to her drive to experience some of the many different specialties that nursing has. Great motivational book for nurses but also a great read for anyone who enjoys true life stories, very touching.

Sharron says

All of you who marked this as to read must get busy! Excellent book detailing a very interesting life of the author as a traveling nurse. Remarkable woman, her compassion and love for her nursing career shines through.

Jenna says

I received this novel through goodreads first reads and I couldn't be happier. This book evokes tremendous emotion even from me, someone who rarely reacts to literature, and provides a deep insight into human nature. This is the story of a nurse, the author, who goes through many different jobs in her lifetime. These jobs in the medical field lead to a collection of wonderful, cheerful, insightful, and sometimes heart-breaking stories. I would recommend this novel to anyone looking for a bit of wholesome literature. The stories are just amazing.
