Tallstar's Revenge Erin Hunter , James L. Barry (Illustrator)

Warriors Super Edition: Tallstar's Revenge is an epic stand-alone adventure in Erin Hunter's #1 nationally bestselling Warriors series! This never-before-told story offers Erin Hunter fans their first look at the inner workings of WindClan and reveals the truth about Tallstar's past before the events of *Warriors #1: Into the Wild*, and before he became the leader of WindClan.

After a tragedy leaves the young warrior Talltail filled with bitterness and an all-consuming hunger for vengeance, he sets off on a dangerous quest for revenge—far outside the bounds of the warrior code. Join the legion of fans who have discovered the epic adventures, fierce warrior cats, and thrilling fantasy world of the mega-bestselling Warriors series. This stand-alone entry is perfect for new readers and dedicated fans alike.

Tallstar's Revenge also includes an exclusive ten-page Warriors manga adventure!

Michelle Elizabeth says

[I also thought Tailtail's showdown with Sparrow was uneventful for all the build-up, but mercy was obviously the right choice (hide spoiler)]

Irene says

In many ways, I really enjoyed this book. I thought the moor runner versus tunneler dynamics were intriguing, and Tallpaw's struggle to please his parents and make them proud while also following his own destiny was relatable. Talltail's adventures beyond the WindClan borders were great, and I especially enjoyed his friendship with Jake. I also liked the whole idea that Talltail had to follow his heart and go on a journey before realizing that WindClan really was his home, and home was where he belonged.

Unfortunately, I also felt the book was plagued with under-developed ideas. Based on what we saw in the book, it really did seem as if Palebird didn't love Talltail as much as Finchkit or her other four kits that came later. Yet, when Talltail became Tallstar, we're just supposed to accept that her mother's love for him was just as strong as her love for all her kits, even though she never showed it?

Also, I couldn't figure out what the rogues were all about. WindClan seriously allowed a band of rogues to stay with them all summer long just because "they've always come"?! They let the outsiders train with their apprentices, and share dens with their warriors and elders?! It just didn't make sense, having read the Warriors series and knowing how Clan cats supposedly feel about non-Clan cats.

Overall, a good story about how revenge isn't the answer, and home is where the heart is. As usual, it's especially satisfying to see cameos made by other known Warriors cats, and there's a real gem of a connection in this one, if you make it to the end.

Diana says

I love this book so much! Easily one of my favorites ♥

Sharla says

Spoilers!

This is the most emotional, heartbreaking, and dark Warriors book yet, in my opinion, apart from perhaps A Dangerous Path and The Darkest Hour.

There are so many emotions, I've been moved to tears several times reading this.

First, there's the fact that Sandgorse hates him.

Then, there's the fact that Palebird ignores him.

Thirdly, his father dies.

After this, Tallpaw becomes extremely cold and unfriendly, distancing himself from his Clan and even further from his mother as he plots avenging Sandgorse's death, as he feels a living cat is responsible for the way his entire life is and his estrangement from his Clanmates.

When Tallpaw, now Talltail, goes on a mission to kill the cat "responsible", he befriends the nicest, wisest, sweetest, friendliest cat in the entire world. Jake, a kittypet who helps save his life, joins Talltail for his mission, giving advice along the way.

"I know who you are. You're my best friend, and you always will be." -Jake

"I'll always be your friend, Talltail. But I'm a kittypet, and you're a warrior. You'll always be a warrior." - Jake

That was when the floodgates opened. ^^

Erin Hunter has done the impossible and topped every other novel she's ever written with this one.

Not to mention Hopkit, Shrewclaw, Dawnstripe, and Barkface.

"Wormcat?" Shrewclaw rasped weakly. "Avenge Brackenwing for me."

Crying again.

Sydney says

Erin Hunter NEEDS to write these faster. They're AMAZING!

Sparrowwing says

This book was amazing! The plot was great, and I'm glad that the authors decided to focus on one cat from every clan in the super edition books. I have to admit that this book made me cry quite a bit, but that proves how good it is. I never expected this book to have a link to the main character from the first books in the Warriors series.

amalia says

I'm not a cat lover but this book was hard to even believe that it was about warrior cats! You have to read

Ruby says

-----SPOILERS AHEAD-----

This might be my favorite book so far! I don't know why...it just seems that her writing has improved so much since Into The Wild. I definitely loved the manga in the back because *SPOILER ALERT* Firestar is Jake's son! And that's awesome and came as such a surprise. It was a really great book. I really like the super editions because they give you a chance to look deeper into a cat or clan that you thought you hated. Even though I really liked Tallstar before this made me like him even more. I found that as an apprentice and kit he was really annoying about tunneling. It kinda disappointed me that he didn't want to follow his father's pawprints(see what I did there xD). But, I suppose I can relate to not wanting to be stuck underground all the time. Then, when *SPOILER ALERT* Sandgorse died....Tallstar fell apart and needed the satisfaction of killing Sparrow. Which was annoying. I didn't like how he went on a journey at first but then, I loved him meeting Jake; and developing that friendship (: It was really cute. It's sad that Reena and Tallstar aren't going to be mates because they were so shipable. I would have liked to know what his deputy life is like but oh well. Also, I thought him and Doespring would make an adorable couple. I loved Barkface and Tallstar's friendship and for the first two chapters I thought Barkface was a girl, which disappointed me when I found out he was a he. So yeah. I loved this book so so so much!

Kris says

I love the Warrior books! And, I really liked this story, especially the ending. I particularly liked how the author(s) hint that there is something Tallstar knows about a certain warrior cat that we all know.

Ariel says

I was surprised that I enjoyed this one this much since Tallstar is one of my least favorite leaders. I think the book does a good job explaining his future actions (why he did what he did, why he was so friendly and trying to avoid conflict). It was also interesting have such a unique clan to read about: the way the Clan was split in two between the moor runners and tunnelers. Overall, it was a cute story and I'm glad I read it.

My only complaint would be that we didn't see any of Tallstar's time as deputy. {SPOILERS from previous SE}I would have loved to see how he reacted to Reedfeather having a mate in RiverClan and to Hawkheart killing Bluestar's mother as well. {END SPOILERS}

Rynneer says

[coldness towards his son after Tallpaw decides that he hates tunnels (hide spoiler)]

haley says

I love the Warriors series.

Tallstar's Revenge is one of the best books in the series, although not the best of the super edition novels. It's certainly one of the saddest books (doesn't beat Yellowfang's Secret or Crookedstar's Promise, but it's still hella sad).

Ah, Tallstar. This book definitely changed my opinion of him (don't worry, in a good way!). I always thought he was just a wise and easygoing leader, but to see he was so bitter and angry when he was younger....This may surprise you but it actually made me respect him a whole lot more because I could see how much he grew, from a grief-stricken vengeful young warrior to one of the best characters in the Warriors series. Tallstar is one of my top four favorite leaders of all time (if you're curious, the other three are Crookedstar, Bluestar and Firestar).

Anyways, my point is that it made me see him in a whole new light. And I really appreciate when a book is able to show me more of a character.

And Jake!! JAKE!!!! No wonder Tallstar and Firestar were so close! Tallstar was friends with his dad! Wow!!! This actually ties things up quite nicely. Excellent :)

Overall, the Warriors series is one of my all-time favorites. Some books in the series are better than others. Tallstar's Revenge is one of the better ones.

Chris says

It's a little painful for me to give this book such a low rating - Windclan is my favourite clan and I've always liked Tallstar and respected the tough choices he had to make as clan leader. But really, this book is a bit of a let-down, especially after the wonderful standards set by Crookedstar's Promise and Bluestar's Prophecy. The problem isn't Tallstar's character - he's much as you'd expect from the first and second Warriors series. It's establishing Windclan almost as two mini-clans with the Tunnellers, and trying to force conflict between them and hunters, that makes the first mistake. I loved the inclusion of Jake as a friend of Talltail, but on the other end of the spectrum the revenge-based hatred he has towards Sparrow doesn't flow as naturally. The pacing of the book also feels clunky and awkward - I couldn't believe how far through the book I was when I realized Talltail wasn't even close to becoming deputy. Not that his kithood and apprenticeship isn't interesting, because it is, it just creates a huge unbalance with the length of his quest, and the last section of the book as leader. I would have been far more interested to read an extended section from this period in his life.

Aside from his friendship with Jake, Tallstar lacks the in-depth relationships that so define other Warrior stories. He has an in-clan rival in Shrewclaw but it never feels as natural as it's basis, Fireheart and Dustpelt. He never has a real romantic interest, and he never really interacts with other clans.

It's not a bad read - I have never found a Warriors yet that I would consider unworthy of reading altogether - but I had much higher hopes for this super edition.

Jenna says

THIS BOOK OMG. I DONT THINK I HAVE EVER FELT THIS EMOTIONAL ABOUT A BOOK BY ERIN HUNTER! THE ENDING>>>> IT SHOCKED ME SO HARD! Okay so I didn't really like the way Tallstar was when he was an apprentice but that was mainly Sandgorse's and Shrewpaw's fault. I could write so much more on how good this book was I thankfully bought it so I can read it again :) If you love warrior cats, imminently get this book :D

Jenna xx

Ryan says

Tallstar's Revenge is probably the most unique book from the Warriors series I've read so far. After spending his young life in his home, Wind Clan, a dark tragedy heavily impacts Tallpaw's life dramatically. Upon gaining his warrior name, Talltail leaves Wind Clan to get set out on desperate journey of revenge to seek out the cat who killed his father and avenge him. Some stuff I liked about the book would be the strong character development the reader experiences within Talltail as he endures many challenges during his vengeful quest. The characters he encounters with are endearing and the plot is overall really satisfactory. However, the only thing that bothers me about the book is that in the first couple chapters, you already know many of the events that occur before Talltail's departure from Wind Clan because the summary the book gives you already gives you a couple of spoilers. All in all, Tallstar's Revenge is a really great book that I highly recommend fans of the Warriors series to check out.
