****DUE TO ADULT CONTENT, SEXUAL SCENES OF AN EXPLICIT NATURE, AND LANGUAGE THAT SOME MAY CONSIDER OFFENSIVE, THIS BOOK IS NOT INTENDED FOR PEOPLE UNDER THE AGE OF 18.****

Full of romance, intrigue, emotion and passion, Silver Dove is the concluding part to Craig and Amber's story that began in Silver Lining.

After the chaos of their early relationship and with their history of broken pasts behind them, Craig and Amber prepare to say 'I Do' on their Happily Ever After.

Life rarely runs to plan though.

Amber has fought long and hard to bury her fears and become a stronger person, but when old feelings resurface and tragedy strikes, it takes an intervention from Craig to prove her doubts are unfounded and to believe in love and hope.

Just when they think they are at a point where they can be happy and move forward together, the pair find themselves fighting obstacles and difficulties that will truly test the strength of their bond.

Can Amber gather the strength to fight against the forces trying to destroy her? Will Craig keep his promises of remaining truthful? As a couple are they tough enough to battle through these turbulent times and emerge stronger than ever?

R.J. Nicolson says

I have had the honour of reading this amazing book early and I loved every word written E.J. Shortall you have completely outdone yourself.

The story of love never runs smoothly and this is proven within the pages of this book. Every emotion is screamed from the pages entrancing you into the story. This is a fantastic conclusion to Craig and Ambers story and will keep any reader glued. There's something for everyone and tears will be shed.

An absolute must read.

Helen Barnes says

SILVER IS THE NEW GOLD! 5 SILVER STARS!

I LOVED this book! Probably more so than Silver Lining (and even I can't believe I'm writing that!) For the first 25% Amber cried so often and I was worried this was going to be an ongoing theme (I hate weepy women) but I knew Amber had strength and I really wanted to see this come out in her. I was rewarded. With hindsight the first quarter of the book is traumatic so I suppose her tears were justified. The drama in this book was amazing, the rollercoaster Amber and Craig ride in this sequel is just... WOW! So much happens in the plot that you HAVE to keep reading. It had me gripping my Kindle and swearing at the screen. Equally it brought a lump to my throat and a tear to my eye, sometimes painful tears and sometimes happy tears.

I felt a realism to all the 'events' in the book that kept me glued, I could relate to so much. I loved the baby theme going on in this book. So many authors seem to skip around it as nobody wants to read baby/pregnancy and hot sex in the same book?! But if the author writes it well the two can make for a hot read with the loving connection couples experience when expecting a baby, which (I feel) brings MORE loving emotion into making love. EJ Shortall wrote the two brilliantly.

I'm so glad their HEA wasn't dragged out into three books (because it could have been with how much amazing story was crammed into Silver Dove) I feel a two part story kept both books 'un-put-down-able' Hats off for an amazing sequel to an amazing first instalment. I wanna award 5 gold stars but I think silver is more fitting, because why change what works so well? For me, Silver is the new Gold!

Vicki Briers says

I was lucky to win an Arc of this book. If I was asked what one word would describe this book it would be AMAZING! I found the book compelling and it had me on edge until the last page. The book took my breath away. All I can say is I don't think 5 stars is enough for this book. I can't wait to read other books by E J Shortall.

Sassy Southern says

What a wonderful follow up novel by this awesome new writer. This series is a must

read!

Amber has finally found her Happily Ever After with Craig, or so she thinks. After their engagement, they are faced with a lost of tragedy and their lives are in turmoil.

Craig loves Amber with everything he has, but sometimes it doesn't seem enough.

He struggles to keep Amber out of her darkness.

Every time they had their lives back on track there was something else to throw a curveball at them. This story flowed beautifully and there were lots of twists and turns to keep me on my toes.

This is such a wonderful couple. I felt all their highs and lows right along with them.

Craig is so dreamy and Amber is a strong person even through all her struggles.

It was a real joy to read their story. I hate that it had to come to an end!

Ruthie Taylor says

"I received a free copy of this book to read and review for Wicked Reads."

This is the sequel to 'Silver Lining', a book that I enjoyed when it was released earlier in the year. I reread it before this, as having the story fresh in my mind makes the experience so much better. I would recommend that you read both books together.

What a great continuation of the story this is. Emotional, dramatic, romantic, tearful - and in a way that is believable, and flows smoothly. It is impossible to write much more without revealing spoilers - but I can promise you will not be disappointed! Craig and Amber have their share of ups and downs, and Becky and Scott are their ever present supportive friends. I would love to read more about their story, and maybe get some updates on Craig & Amber too.

Kay Richards says

Eeeeeekkk!!! I am extremely grateful for EJ allowing me to beta read for her a 2nd time... I cannot wait for you all to get your hands on this!! It's amazing!!! :)

My review will be more complete after this weekend!!

Joanna Brocklehurst smith says

Well, once again EJ has hit the mark, Silver Dove was a wonderful follow on to Silver Lining. You get to see Craig and Amber's story unfold. You fell in love with them in Silver Lining, I didn't think it was possible to fall even more in love with them in this book, well it is, trust me! Craig spends the whole book trying to make Amber happy and protect her from things she has no idea are happening around her. He is definitely on the top of my men I would like to keep list!

They are the perfect couple, complement each other in every way, however trouble wants to get in the way of this, with letters and phone calls from some unknown person the stress begins to show. Everything goes from bad to worse when Amber is attacked, Craig swears he is going to find whoever it was and make them pay for all the damage they have done.

This will definitely bring a tear to your eyes, well it did me anyway.

Review for Silver Dove (Silver #2) by E. J. Shortall

5 out of 5 stars

What a wonderful follow up novel by this awesome new writer. This series is a must read!

Amber has finally found her Happily Ever After with Craig, or so she thinks. After their engagement, they are faced with a lost of tragedy and their lives are in turmoil.

Craig loves Amber with everything he has, but sometimes it doesn't seem enough. He struggles to keep Amber out of her darkness.

Every time they had their lives back on track there was something else to throw a curveball at them. This story flowed beautifully and there were lots of twists and turns to keep me on my toes.

This is such a wonderful couple. I felt all their highs and lows right along with them. Craig is so dreamy and Amber is a strong person even through all her struggles.

It was a real joy to read their story. I hate that it had to come to an end!

Romance Readers Retreat says

This review may contain SPOILERS if you haven't read book #1, Silver Lining.

We pick up where we left off in book #1 and it seems that all Amber's dreams are about to come true. But is the flight of true love ever without it's turbulence?

Amber and Craig are faced with grief, love, mistrust, loss, betrayal, lust and insecurities. Can what they share overcome all the obstacles placed in their path?

It seems that despite moving forward in her life and finally opening her heart once again, her insecurities lie just beneath the surface.

Craig comes with his own fair share of baggage, which have disastrous consequences.

When their relationship is put to the test, can it survive? Who will live? Who will perish?

Book #2 is slightly different because it is written from his and her pov. I found this refreshing and great to hear the male's thinking in all this.

The characters are well thought out - even though I did want to slap some sense into Amber occasionally - and it's a quick, easy read.

Give it a go and enjoy!

Karen Harper says

Before I read Silver Dove I reread the first book in the Silver series, Silver Lining. Why? One, because it was a while since I had read it and two, because Silver Lining is one of those books that is so good that you can read it many times and still love it.

Silver Dove did not disappoint me, proving that E. J. Shorthall is not a one-hit wonder. Before I started reading this book, I decided to have a look at the playlist which is found at the end of the book and I'm glad I did. Do you look at the pretty gift wrapping before you open a present? To me, that's exactly what the Playlist is – the pretty gift wrapping that makes you wonder what is inside.

Even though Silver Lining had it emotional moments, Silver Dove definitely has more. I became quite teary more than once, but that doesn't bother me because I don't like to be a casual observer when I read a book, I want to be an active participant. I want to experience a character's emotions whether those emotions are happiness, frustration, anger or sadness. This book has them all.

I loved the fact that so many of the characters from Silver Lining returned, but there were also new characters to meet. Some you will love, some you will hate. Does it have a HEA? I won't tell but I will say that there are many times when you will have a smile on your face as you read Silver Dove.

I gave Silver Dove 5 sparkling, silver stars because silver stars are prettier than gold ones.

Kayla Melser says

This is book two in the Silver Series by EJ Shortall, she knocked this one out of the park! I was so thrilled that I was able to read an ARC in exchange for an honest review.

Overall it was a great book, you get to delve more into Amber and Craig's relationship, and it picks up right where Silver Lining left off. Craig had proposed to Amber, but there are some apprehensions from both sides and then BAM you get hit with a plot twist! It's not the first one in this fantastic book. I cried quite a bit, I feel so emotionally invested in this book couples relationship that when they hurt it is like I can feel it too. EJ is one of the few authors who has been able to do this to me. And while it can be exhausting I definitely thank her for this!

I highly recommend this book to anyone who likes angst, drama, sweet relationships, and awesome couples.

Janet says

WOW, this was such an emotional book. I was lucky enough to receive an ARC of the book for an honest review. I am still left with a major book hangover and it has been over 9 hours since I finished the book. I feel like maybe I should go back and read both books back to back right now as I still need more of Craig and Amber. I love how we pick up in Silver Dove right where we end in Silver Lining. Even moments after saying yes, things from Amber's past start to effect her and thanks to the love and support of Craig they are able to work through it. Then we have more family issues that hit them shortly after settling into life together and Craig has people from his past that come into play causing more drama. You will need more than a few tissues while reading this book. There were plenty of times I needed to just walk away from reading so I could shake things off as what they had going on felt very real it was easy to forget you were reading a book. There were both good and troubled times but everything in the book were things that could actually happen. Plus, there is the great support of the friends Becki and Scott. I am looking forward to hearing more about them. I am so glad to have discovered this author and am so looking forward to more books from her.

Laura says

This book was provided by the author and Paranormal Romance and Authors That Rock in exchange for a review.

Silver Dove continues the story of Craig and Amber, who were the main characters in Silver Lining, and picks up right where Silver Lining ended. Amber's having second thoughts over Craig's proposal, and that is only the beginning of the drama that ensues. I'm glad that Craig and Amber having a "happy for now" ending in the first book did not make everything about their lives and relationship suddenly picture perfect.

They each still had their issues and went through relationship growing pains as they continued to get to know each other better. That being said, it seems like there were a lot of crazy circumstances thrown their way - as a reader, I understand that you need to suspend reality to a certain extent, but there were so many bad things that happened to the couple through the course of a year that it just seemed like overkill. There was a violent incident involving Amber about halfway through that honestly made me want to abandon the book.

Despite the extreme circumstances, the relationship between the couple played pretty realistically. There were typical ups and downs of a couple who had just moved in together, etc. We also got to see how the

relationship between Becki and Scott progressed during the course of this book as well. I was hoping there would be a bit more involving Craig's sister, because I found her to be interesting.

I would recommend this book to anyone who enjoys contemporary romance. I give this book three fangs.

Karen S says

What can I say about this book except that I adored every single page of it. There aren't many writers that can completely transport you into another world with just their words but this lady is certainly one. The story is beautifully written and I lived the it all right along with the characters. Make sure to have a huge supply of tissues, I sobbed like a baby on more than one occasion. This is a gripping, real story that echoed parts of my own life and had me nodding along and murmuring with understanding as the emotions and feelings were totally nailed. There are ups, downs and the other kind of ups and downs that make you hot and bothered!!!

I feel tremendously privileged to have travelled this journey with Amber and Craig and their story will forever occupy a place in my heart. The editing was top notch and I highly recommend this book to everybody. Eagerly awaiting more from this fantastic author.
