My Love: Bobby & Sophie

Melanie Shawn

My Love: Bobby & Sophie Melanie Shawn

Do you believe that opposites attract? Well, Bobby and Sophie Sloan sure put that theory to the test...

As the youngest of the Sloan boys, Bobby never said much. But when it came to wife, he was always quick to express his love and devotion. Sophie's lovable, animated soul complemented his strong, silent demeanor perfectly.

Together, Sophie and Bobby were a match made in heaven. Their uncomplicated marriage was full love, trust, and unconditional support. But when life-altering news threatens to change the simplicity of their lives, only they will be able to decide if they can accept this new change with love, or with fear and doubt.

Finally see inside the love that first welcomed us into Harper's Crossing...

Author's Note: Each book in The Crossroads Series can be read as a stand-alone.

From Reader Review My Love: Bobby & Sophie for online ebook

Maria says

What I liked most of this book is that it shows that a perfect couple is perfect because they decide to be that way, not because that they are by themselves. Sophie has a new challenging job that she loves, Bobby has a steady and safe job in his family business. Then Bobby decides to take his dream job and they got pregnant, when they swore and agreed that they will never become parents. Their love accepted and conquered all, even an unexpected child.

Alison Davies says

We first met Bobby and Sophie in My first, but they were already together.. In My Love we get to see them later in their lives.. It's such a sweet story, I'm so glad their story was told.. I love this book just like I've loved every Melanie Shawn book.. If you haven't read any of these books, get on over to Amazon and get 1-clicking... You will not be disappointed!!

Nelly says

This was a short story but still had all of the qualities I liked in the rest of the series. It was sweet and passionate. I loved Bobby's reaction considering he wasn't planning on having kids.

I was also so excited to see at the end that there were more books to come. So excited!!!i love the series!

ARC received in exchange for an honest review

HOT is the first word that comes to mind when I think of this book !! It grabs your attention on the first page and holds it through the whole book. I have read all the books in the crossroad series and I thought that each lead male character was very sexy and hot but Bobby put them all to shame. He had it in spades !! The only thing that disappointed me about this book was that it wasn't longer. I would have liked to have gotten to know Bobby and Sophie a little bit better. I would recommend you give this book a read. It is a quick, hot read that will not disappoint you.

Esbeidy Ronquillo says

I loved the book! I was so eager to find out about Bobby and Sophie and I was not disappointed! I am so glad that they were able to work their "problems" and show why they were a power couple rooted by love and passion!! a very hottttt book!

Talking Books says

My Love - Bobby & Sophie by Melanie Shawn was one red hot scorching read with so much heat between the characters with equal amounts of tenderness that draws the reader into Sophie and Bobby's story.

Another magnificent addition to The Crossroads Series.

Sjoukje says

Just when I think I can't love these characters any more than I already do, Melanie Shawn surprises me with a sexy hot read like My Love. Bobby and Sophie are already together when this whole series started so, we only get glimpses of them through each book. In this short but intense story we see that Bobby is so much more than we thought, and the way he loves his wife is just oh-my-god amazing. So naturally, when he sees her acting a bit strange, he worries and takes care of her. Little does he know that she has a bit of a secret that she is a bit scared to share, especially since they agreed on the subject when getting married...

Lots of love, cuteness and sexy scenes in this novella - a total must read for Crossroads series fans!

Shannon Riley says

Swooning over Bobby

Sweet little update on one of my favorite couples. Sophie surprise had me on the edge of my seat and Bobby's reaction was perfection. The interaction between Bobby and Sophie is what drew me in. Honesty and respect between them seals it. More please.

Amalia says

I'm so glad this series isn't over. YES! It's that good. As for this book, it was HOT HOT HOT! There's a scene when they are both in the car and Bobby is driving...HOLY SMOKES! My favorite from the past series has been Jason and Alex, after reading Bobby's story I think he's in my list as well. We met Bobby and Sophie in "My First Love" that book is actually about Jason and Katie. Bobby and Sophie are in it because they are getting married. So this book takes place 3 years after the marriage and it talks about how they met and fell in love. I think it's pretty cool that Melanie decided to take this approach with this storyline instead of how they started off. I actually love it because I get updates on the previous characters. It's like the story never end! Especially when it's a good series, I don't want it to end. Since this book is 3 years into the marriage it takes the characters on how they deal with married life and curve ball decisions. How they handle being individuals and yet try to balance a partnership. I loved how in the end they were both struggling to find a middle ground in their marriage. I just absolutely adored this book. In the this book there is TWO BIG SURPRISE'S. One of the them had my mouth wide open! I was yelled out "Didn't see that one coming at all". What a sneaky surprise Melanie Shawn threw in the book. I'm seriously dying to know how and when

she will develop that into a storyline. I highly recommend this series. You can read the books as a stand alone, since Melanie is so good at give snippets of who's who. In my opinion just read the whole series and just enjoy the HOTNESS of the Sloan Family.

Laura Hannaway says

This story was absolutely wonderful! I particularly enjoyed the fact that we finally got to know Sophie and Bobby at long last, and what a revelation they proved to be! I honestly didn't think anything could make me melt the way that Jason and Katie did in My First, but Sophie and Bobby managed it! I loved the fact that whilst they adore each other they're also passionately in lust and genuinely seem to enjoy one another as people! That they've known each other almost their whole lives is never in doubt, there's a confidence in the way they're written that convinces you of that (and that type of relationship is something that very few authors seem able to write convincingly - it's a pet peeve of mine!) So once again I can't praise the writing duo enough for another wonderful instalment in this series!

Maureen Bartlett says

A wonderful new holiday novella from Melanie Shawn. Bobby and Sophie have been in love with each other since they were little kids, and even if it did take them a decade or so to figure it out they are now happily married and even more in love. So when life decides to shake things up in their little love filled world, it leaves Sophie feeling a little queasy. Life doesn't always follow the path you expect it to and when Bobby tells Sophie his big surprise, she's shocked, little does he know she's got a surprise of her own for him! As they face their fears together will their love grow even stronger? Read 'My Love' to find out!

Gina says

The couple that started it all -- Bobby and Sophie!! What a great pair and how in love!! This is an awesome story of what true love and committment mean and how love grows every step of the way! GREAT series!!!

Alima Livzletlivz says

My Love...my love...my love...my love...keeps me warm!!!!

I don't think there can ever be two people more polar opposites than Bobby Sloan and Sophie. Youngest of the Sloan boys, Bobby's always been the quiet one, never saying much, but always supportive of his family. Love for his family puts his desires on the back burner, with no questions asked. But now the chance to be and become what he had always had a passion for, presents itself and he grabs it, with full encouragement from his family, and a news that he wants to surprise his wife with.

Sophie is the talkative, full of life wife that Bobby loves to the end of this earth. She is the lovable, animated woman that loves her husband with a passion and complements his quite demeanor. They are a perfect match made in heaven, leading an uncomplicated life with love, trust and unconditional support of each other. But now Sophie's discovered some unexpected news, which would change the lives of everyone concerned.

Three years after marriage, and still feeling like newly weds, their love and passion is off the charts, with Bobby being vocal with action, and Sophie matching his desires act to act. But with big bolts of surprises coming in small doses, it's up to them to accept this life altering change with love and understanding, and have enough faith in each other to overcome fears and doubts.

No matter how many times I read...re-read, the Crossroad Series is one of those quintessential compilation of stories I can never ever get tired of. And the Sloans and Harper's Crossing are forever going to be etched as my top favorites.

A charming and nostalgic novella perfectly timed for the holidays!

Jamie Rhodes says

Add another book to your shelf and get this one. This is a short book, but it packs a punch. We have met Bobby and Sophie in every book beginning with book one. They are the young couple who got married in book one. Bobby is the youngest Sloan brother. They have been married for three years, but they are getting ready to undergo some changes in their lives. Bobby makes Sophie feel so secure in his love for her. That melts me. I love this family. I love this series. Dual point of view. No cliffhanger. Oh yes, my favorite character Grandpa J makes an appearance to spread his wealth of knowledge with Sophie. He's the ultimate grandpa. I am glad to see that there will be more in store for us in the series.
