His True Fortune

Liliana Rhodes

His True Fortune Liliana Rhodes

The fourth and final installment of the bestselling His Every Whim series!

With Samantha still spurning his love, Drake decides it might be time to move on. Little does he know, Samantha has a secret and its one she isn't ready to admit.

As a federal takeover threatens Xander's company, he decides it is better to keep a very pregnant Ashley in the dark. What he doesn't realize is his increased demands and overprotective behavior have Ashley believing he's pulling away from her.

With both couples unsure of their futures, will they finally have their happily ever afters?

This 19,000 word novella is the anticipated ending of two love stories between plus sized sassy women and the billionaires who can't resist them.

Amanda says

This is the conclusion to Ashley and Xander's and Drake and Samantha. Both couples face some challenges and hurdles will their relationships survive and will love be enough? Serial 4 of 4

Tina says

Thank you, finally a really good book which shows that the leading lady doesn't need to be stick thin to be in love with an alpha male. I really enjoyed this book, I loved the stories, characters, romance and when required the sexiness. A pretty story with a beautiful end.

C Joy says

3.5 stars

Would've rated it higher if not for the wrong grammar once in a while.

Jessica Pegram says

Great read

A warm and funny love story with sexy undertones. I couldn't put it down. Will definitely be purchasing the next book.

Ava says

I'm not going to review about this book but I'm going to do it about the whole serie. overall it was a very good story, romantic about two couples. both couple different. in one hand the males are quite the opposite one far away from the scene and the other one manwhore.

it was cute for the couple drake sam.

I will read about deborah and her secret male client. curious. and I did really enjoy the books I read so why stop now

Kristina says

Loved this final chapter in an amazing series! All of Liliana's characters are relatable to the everyday woman!

Xander and Ashley were amazing in this final chapter and you get to learn more about Xander!

Drake and Sam, love the chemistry between them!!!

Shatan says

Overall, I enjoyed the entire series. Some areas of the books I wanted more details on some situations.

~ Stephanie Lynn ~ says

This is the final installment of Xander and Ashley also Drake and Samantha. I am not going to go into full detail of the book because it will give to much away the only thing I will say is both couples go through some struggles. I liked the idea the author was going for but wish the books were a little longer with more detail. Drake and Samantha story was way to short for me. Not enough of Drake and Samantha for my taste. The author could of made two very series novels out of the short 4 books. So much could of been done with their stories. This is a sweet read but would of preferred more flesh and more detailed sex scenes. If your looking for something fast pace and sweet without the sex scenes described in detail then this is the book for you.

Boxy Frown says

2.5 stars

Ugh Sam was so hard to root for. Every time Drake came back to her with sincere longing and his heart on his sleeve, she would throw it in his face. Every single time. Then she ended up pregnant and kept it from him! I didn't like her and I felt Drake could do better quite frankly.

Pam says

His True Fortune: His Every Whim Book 4 is by Lilian Rhodes. This is about Samantha and Drake as well as well as Xander and Ashley.

Can Drake finally catch Samantha and convince her that she loves him instead of hating him? Xander and Ashley try to help bring them together. Ashley becomes pregnant. How will she feel during the pregnancy? Will they have a boy or a girl?

Such a fun book to read.

Elizabeth Bennet says

This is the final book in this series. For the most part it was a light and romantic read. Through the whole series really only two complete love scenes and two foreplay scenes. Ashley and Xander take the lead as the story begins with their love story and is continued throughout. You get to see them come together, become parents and my favorite part... you get to see Xander shut his mother up, hopefully for the last time. The way he fiercely defends his wife. I loved it! This book didn't quite rate as high as the others in the series but because of Xander it was close but I just needed to show my displeasure in a stubborn h.

I'm talking about Samantha. I liked her in the previous books but she just became across as so prideful and stubborn I began to resent her. First, I can absolutely relate to her feeling of rejection as a child. She was in love with Drake all through her childhood. She watched as he'd roll his eyes and laugh with his friends over her school girl crush on him. To him she was his nanny's daughter and 7 years younger than him. She'd tag along and he found it all annoying. He too was young though and we can't forget that. Now, he sees how foolish he was but the past can not be erased and so there is a consistent tug of war between the two. The man apologizes several times pours his emotions out but she allows her insecurity and doubt take the lead one too many times for me to like her.

Drake has never had to beg a woman to date him or get to know him. Sam thinks she can do everything on her own and needs no one. Her friends see her true emotions for Drake and call her out. There are multiple times this girl admits she needs to let it go and go after him. One minute she's going after him but as the wind changes she's back to feeling sorry for herself. It was beyond frustrating.

*****SPOILER ALERT*****

Sam finds herself pregnant and makes the brilliant decision she doesn't need to involve Drake(THE DAD). In fact, she decides to not even tell him. It took away part of integrity and made her so weak in my eyes. I tell you if I had been her friend I would have detached myself from her because she was all drama! Things couldn't have been clearer and yet she tortures herself long enough for Ashley to step in and reveal her secret to Drake. He wasn't even hurt or upset. He was pretty minimal in the shock department and after she pushes the poor guy away, I don't know 6th time, he peels out of the driveway.

*****END OF SPOILER*****

The book ends with a sweet epilogue and a bonus chapter of Samantha being less stubborn and acting human again and Drake tying the knot. This is definitely a series you need to read all the books in order to have the complete tale but I suppose you could stop at book two after Ash and Alex get together but they have so many more wonderful moments. They were a cute couple. Enjoy!

Sousetso says

For the whole series:

Summary: 6 stars

Story: 2 stars :):):)

Really..?!

Vanessa James-brooks says

Again for the last book in this series I highly suggest starting in book one because with only 90 pages or so a book each book runs right into the next book and you will not want to miss a beat! All the different characters through all the books you will fall in love with, My three favorites though were the clothing designer , ashley, and Xander . Drake was easy to fall for as well, but not as much as xander lol. Not intended for anyone under 18!
