Private Reserve Cathryn Fox

Olivia was the best thing that ever happened to me. But she's a good girl, and I have a side that is far too dark for a minister's daughter. When she started talking about plans after graduation, the only thing I could do was run back to Italy—to protect her from me. But she's back in my life, and I need a wife before I can take full ownership of our failing vineyard and hotel. Only problem is, I want her again. No way can I put my hands on her. One kiss, one taste, could unleash the side of me that would only scare her.

If she discovers my dark side, I don't know if she'll flee back to the states, or surrender to me. What she doesn't know is she already owns me, and if she leaves, I'll never be the same.

Quickie

This was a short, satisfying, quickie. Enjoyable if this is what your're after. If you want lengthy character developments, for the relationship to take time to develop and a totally believable and likely plot, then this is probably not the book for you. A fun bit of escapism! Has inspired me to read the rest in the series.

Having read the *Hands On* trilogy by Fox before, I was really excited to read her new series. *Private Reserve* is the first book in the Dossier series and although I've only read Hands On before, this book completely took me by surprise. Without giving too much away, (since this story is a novella), we get to meet Olivia entering a new stage of her life. After her boyfriend broke up with her she has struggled to move on, but since it is her twenty-fifth birthday she is determined to make the most of it, especially when one of her friends is supposed to be planning her the trip of a lifetime. Needless to say that when Olivia arrives to Italy she wasn't expecting to bump into her ex boyfriend Gio. Now she has to see him during her stay and as the two start to get along again, feelings start to resurface between them that neither one can control. It is then that secrets also start to reveal themselves, secrets that could tear them apart once again.

I really enjoyed reading this story, it was quick and steamy! The chemistry between the characters is undeniable and it is because of that that had me reading until the very end. There were things that I wished the author could have elaborated more in the story, and the end was a bit abrupt, but it all works out in the end. If you like steamy novellas than I would definitely recommend reading *Private Reserve*.

I want a savage.

I want to be turned and twisted. I want to be ravaged and ridden.

Hot. Damn.

I mean, hot damn, people. Now this is what I call erotica. While it's full of ridiculously hot smut (all of the smut!), there's still a romance at the heart of it. And for a quickie read that I devoured (while fidgeting uncomfortably because MY OVARIES!), it was very satisfying. It's like a decadent morsel of dessert. You don't need much to make it fulfilling because it's so rich and delicious. Do you know what I mean or do you KNOW WHAT I MEAN?!

This is one sizzling hot MFM romance that will hit the spot just right. I love the premise of this series, with girlfriends forming a pact to buy each other their dream trip on their 25th birthdays. First up? Olivia. Still not over her ex boyfriend that broke her heart, she finds herself at a beautiful vinery in the middle of Italy on her trip. But while the scenery is gorgeous, there's not a hot man in sight....until she sees one that rocks her world. The twist? Her ex boyfriend happens to be the son of the owners of the vinery she's staying at. He walked away from her because he thought his desires were too depraved for a good girl like Olivia. But what he doesn't know is that she craves exactly what he's been holding back on with her. And when they find out their desires happen to be shared? ALL OF THE OVARY EXPLOSIONS. My only quibble is that I would have loved for an epilogue to really tie everything together, but I guess you can't have it all

If you're looking for a smokin' hot MMF romance that you can devour in one afternoon, you're welcome. Just make sure you're not in public so as to avoid any...ummm....uncomfortable repercussions. Ovary survival not guaranteed.

Valeen Robertson says

Holy shit, *Private Reserve* is down and dirty and hot! Olivia is on a friend sponsored birthday vacation in Italy at a beautiful vineyard when she stumbles upon two hot men, one named Lucas and one wearing a hat hiding his face, having hot, dirty, dominating sex. Olivia is jealous because she wants to inspire that kind of heat in a man and for him to take her like that, she wants to be dominated and used and for him to set her dormant desires on fire. A short time later her ex, the one who broke her heart two years earlier when he broke up with her, sees her at the vineyard (his family's vineyard) and proposes marriage on the spot, causing Olivia to choke on the grape she had just thrown into her mouth.

When Gio comes to her rescue and dislodges the grape stuck in her throat that's cutting off her oxygen, dread spreads through her heart. She's never gotten over the man who shredded her heart, and she regrets letting her friends convince her that this vacation where she's not to come home until she's had "**legendary sex-delicious, salacious, rough and dirty, 'bang me against the wall and leave me bruised' sex.**" was a good idea. But, as Gio explains why he needs her to marry him (so he can take control of the vineyard and modernize it), she thinks perhaps she can do it, after all, she'll get something out of this fake marriage - her dream job, then she can be the one to leave Gio after he takes control of his vineyard.

Of course, that's not what happens, as the feelings Olivia has always had for Gio are still there, and Gio's own dark desires come out to play when he realizes just how naughty his new, fake, wife is, that she's not the sweet, innocent pastor's daughter he had thought she was while they were together two years earlier. When Gio realizes he can have both halves of his soul, Olivia and Luca, his best friend and lover, a hot scene plays out and Olivia gets more than she had ever bargained for when she set out on her 25th birthday vacation.

If you like MM, MMF, or even just dirty, dominating kind of sex, I highly suggest you check out *Private Reserve*. It may be short, and lacking a lot of backstory and things like deep feelings, but it's seriously hot and all three characters are likable and interesting, especially Luca.

The guy I still love.

The guy I never, ever want to see again.

The guy I'd do anything to see again.

This was a short adult story. It was easy and fun to read. I liked how the author created the flow here, that did not seem forced.

The series are about group of girl friends, that for their twenty-fifth birthday draw a name, and that person plans a surprise vacation for them, and by surprise I mean surprise, because they do not know what they are going to get there, even their dresses are packed for them. All they get is a dossier, where they are going.

So the first book is about Olivia, the minister's daughter, who was always told that anything else than vanilla is a sin. However, she always craved more, and she did not get it even from a guy that she loved, and she still loves. That was the only thing lacking in their relationship.

Gio, broke up with Olivia and left her back in the US and moved back to Italy, because of his family business and because he loved her so much that he wanted to protect her, from himself. He loved her, but he did not want to corrupt her, and he knew that he will, one day, if he stayed, because she is a good girl and he needed more.

The only thing that was lacking was Luca's appearance. I liked his character, but it seemed like he was this extra that was forced in this story. His character was an important one, so the author should have included him more, to deliver what she wanted too. Since right now, it seemed like as I said a forced extra.

60 shades of Pissed ? off

there are sin things you should always be warned about , rape, abuse , cliffhangers and m/m or m/m/f ménage ,especially when the description only ever mentions two MC's and they are one man and one woman, the description only mentions Gio holding back because he has a dark side, not a man in the side.... m/m isn't something you should be blindsided ,especially when the story is sold to as one revolving around just one couple... m/m is hot and popular a lot of women,but it's not for every one ,soo if your proud enough to write it, why not be proud enough to at least hint about it in the desc.....

Not the lack of character development ,in a story that just flies ,and is over before it starts good w/TSTL h who is supposedly still madly in love w/the H but when she sees him w/the other man doesn't recognize his body or his voice just because she doesn't see his face, now two years is a bit of a while but I can't imagine forgetting ANYTHING about a man I loved that deeply especially his voice or at the very least having a very weird feeling and some very nagging doubts ,that I'd be trying to live in denial from.... but , but a couple of days later when she can PLAINLY SEE just close they are and how different Gio acts, with his voice , his

body , his everything , and the other man is putting the moves on me ,the one I SAW having sex the other day and and is saying 'there is NOTHING he doesn't know m nothing that they dint share '? Aaaaaaaaaaaaaa, ding,ding,ding , we have a winner ?!?!? Only a complete idiot wouldn't getting a clue.... well I called her a TSTL fir a reason.... I won't say how long but it's a 100% longer then it should...

No,this is just something 'sexy' to get you off, not much of a story and is barely finished/done when it's over... felt incomplete and unsatisfying... like jumping off a ride before it's come to a full and complete stop... if it had been just Gio and his naive, not soo bright Olivia mid have given 3 stars, but blindsiding with another man m that wasn't even hinted in other reviews (just boasted how 'hot and sexy' it was not the description? Two stars is the best I can do...

If you like m/m and are mainly looking for a story to get off to, this might be for you but if you aren't into m/m or want a story that feels full and or complete ?

Aaaaaaaaaaaaaaaaaa,not soo much ;(

This book! WOW! Light a fire and make me sweat!

That's what I felt like with this fast novella! Do you love it fast, hard and heavy? Cathryn Fox torches the pages with this blistering story. She packs in MM scenes, BDSM, menage - MMF, and even marriage. Good thing this is a short book. You will need the time to recover!

But what I missed this most is MORE! Bring us more in this sweet hookup! I could not get enough. MMMMmmm Yum!

This super hot quick read will be one I look forward to re-reading again and again. The premise behind the Dossier series is a group of friends are to so something on their bucket list for their twenty-fifth birthday. One friend is in charge of the birthday persons dossier which will ensure that their deepest desire is fulfilled. Whomever setup Olivia's dossier was one hundred percent correct in sending her to this particular place to fill her desire of a wild and crazy night of sex.

Sexy, sultry, and sinfully intoxicating!!!! Cathryn Fox boldly writes an unconventional love story in her

---

newest release, **Private Reserve**. This novella is somewhat an acquired taste since it involves a menage a trois so if you are looking for a love story where a woman discovers her own sexuality and a man claiming the woman he loves. So if you are looking for a erotic fast paced romance that involves an unconventional relationship then this book is for you.

This one took me by surprise....I am not short story reader, neither I am three-some erotic drama reader but this one was unexpected. I guess what worked the most in the book was execution of the story. If any of the events or revelations happen before or after then their designated time, it would have been chaotic and messy with full of misunderstanding...but being a short book, there is no space for that type of drama and anguish which I appreciated. While I enjoyed this one...I am not sure I'd be reading next one.

## Deborah says

Olivia is on her way towards a vacation from her life. Her close friends made a pact for each one to send another on a trip of a lifetime and have epic sex, when they turn twenty-five. She ends up in Italy-Tuscany to be exact and staying in a vineyard. All she sees is older people. Some trip of a lifetime. Just then she spots Gio. Her college love of her life. who left her. Heartbroken. What's the chance of this being his family's vineyard?? Her best friends couldn't know could they??

Gio left Olivia and moved back to Italy to protect her from himself. She was a minister's daughter, and he had darker needs. He's never gotten over her. When she shows up out of the blue in his vineyard, fate has dealt him a gift he will not squander. In order to take over the family business, he needs to marry. The vineyard is failing. How can he get Olivia to help him? Problem is, I can't touch her. I couldn't stop and she deserves nice. I can't always be nice....

And then there is Luca, Gio's best friend, and lover..... How can he fit into the mix?-if he even can..... Maybe the good girl is ready to be very naughty....

What an interesting scenario. I love the Dossier series! I first read book two, House Rules, and had to go back and read book one! Short, spicy reads that pack a lot of story on the pages! Gio and Olivia never stopped loving each other. It was lack of communication that drove them apart. Now that they are older, they have an idea what they want, and it's each other. Their chemistry was spiking from the pages and I felt their connection. I love second chance love stories and this is one of the better ones I have read. The interesting twist is the best friend and how he fit. I liked the addition and it seemed right within the story! This turned into one sizzling MFM read!!

## Sissy's Romance Book Review says

'Private Reserve ' by Cathryn Fox is the story of Olivia and Gio. This is a Novella with around 90 pages or so. This is a short and hot read that gives a second chance at love. Olivia is still dealing with a sore heart

after Gio up and left her. But she is on a Birthday Trip given to her by her friend in a birthday pack they made with each other to give each a exciting 25th birthday adventure where they are to have 'epic sex'. But Olivia ends up meeting Gio where she is staying...and finds that his family owes Villa she is staying at. Gio is hiding a secret that he doesn't think Olivia would understand or want to be a part of. In addition, he thinks she won't understand his feelings for Luca. Can these two work things out? Can they get past this deal they made and move forward to something stronger and more permanent.
