Catch a Tiger by the Tail

Eve Langlais

Catch a Tiger by the Tail Eve Langlais

Previously published in the anthology *Wild*, the paranormal queen of steam and sass pulls out all the stops in this sexy, funny short story from *New York Times* bestselling author Eve Langlais.

Broderick has a job to do—audit the books of a gentleman’s club. Sounds simple, except his company wants him to find dirt linking to the mob, his secret mob employer wants someone to pin the blame on, and the bar manager at the heart of the controversy doesn’t want him—even though she’s his mate.

All Things Urban Fantasy says

Review courtesy of All Things Urban Fantasy:

CATCH A TIGER BY THE TAIL takes place in the same world as LEGAL WOLF'S MATE, and with such a dramatic twist in the first book, I was still surprised by the twist in this one. These novellas are not necessarily a series; they were both released in shifter themed paranormal romance anthologies, so they're made to be read individually. They are funny, sexy bites of paranormal romance that can be read in one sitting.

Broderick is a tiger-shifter accountant. He's a wiz with numbers and making the correct sums appear. His mentor is the wolf-shifter alpha who has quite a few shady businesses under his control, so Broderick helps out with that. He's smooth, but a bit dorky, and was instantly likeable.

Lulu is also interesting. She is obviously hiding something from the start, and Broderick cannot help but keep pulling at the thread like a kitten with a ball of yarn. I'm not typically a fan of lovers who keep big secrets from each other, but in novellas it works because they can't keep the secret for long.

With lots of sexy action, scary shifter fights and dramatic reveals, CATCH A TIGER BY THE TAIL has just enough of everything to please those who like their paranormal romances more or less cheesy. I adore the cheese, personally.

Sony says

Before you go any further, this book was previously published in the anthology "Wild", which the author has kindly informed, readers about in the description on Amazon. I like that she has done that for the readers, I have purchased books before (not by this author) and have found I already own it but under a different book title, yes, one-click is my frenemy.

Now moving on to the good stuff; I love shifters! This author gives you a great story with action, sass and a steamy shower scene all rolled up into one short story. Broderick is a tiger shifter/geek with a job to do, audit the books to a gentlemen's club, he also has some seriously bad pick up lines; they are so bad you find yourself laughing out a little too loud. I used one of his lines on my husband, you know just for fun and if you could have seen the look on his face, it would have sent you running for the bathroom too. Lulu is the manager to the gentleman's club and she has a secret. Will her secret put her in more danger? I don't want to give too much of the story away so guess you will have to get the book and read for yourself. If you love shifter stories with action, geeky lines that make you laugh, than this is a book for you. This is a great book for when out at the beach, that is if you don't mind people giving you a funny look every time you laugh. I look forward to more from this author and can't wait for Fabian's story to be told.

I voluntarily reviewed this ARC for an honest review via NetGalley, this is my honest opinion and has not been influenced by the author, Publishers or NetGalley in anyway.

Review originally posted at RabidReads.ca.

This is a fun novella. This story can be read as a standalone, but is also set in the same world as Legal Wolf's Mate. This story was everything I expect with an Eve Langlais book. Fun shifters that might have some quirks. Laughs, sexiness and some suspense. A great way to spend a few hours.

This story is about Broderick. He works for his alpha as an accountant. I instantly loved his nerdiness. Broderick is a great friend to the alpha, but is much bigger help with numbers than as muscle (but don't let that make you think he can't fight, because he can). He is sent to the alpha's strip club to check the books, because something is going on with them.

Lulu hasn't been running the club for very long and she knows that something is up. She knows that the owner is a mafia boss, but he doesn't seem to be a big part of this business. She's never met him.

This is a really cute novella. I had a great time with these too. I enjoyed the suspense and there was a twist that I didn't see coming. I had a lot of laughs. Fabian, the alpha, is the hero of the next story. I can't wait to dig into it.

She shrugged before grinning. "I guess. But, now what, Garfield?"

He didn't even try to hide his shudder. "Are you comparing me to a domestic breed? I'll have you know I'm a siberian tiger. A rare and majestic species."

"With a giant ego."

"And a tail." He winked.

"Speaking of ego, are those dark roots I see at your temple?"

His fingers brushed the area in question. "I kind of have a stripe on the side. I've had it since I was a kid. I get it dyed to look normal."

Lulu snickered. "Normal. There's nothing normal about a geeky tiger in an accountant suit."

**Book was provided to me by the publisher via NetGalley. This review is my opinion and was not requested or provoked in anyway.

Mandi Schreiner says

Cute shifter novella....Would not have minded more emphasis on the romance and less on the action

Review coming

Jo (Mixed Book Bag) says

You never know what will happen when you catch a tiger by his tail. Lulu finds out when she gets involved with Broderick. In this short story both Lulu and Broderick have secrets that lead to some laughs out loud moments. Broderick knows Lulu is his mate but she is human and just does not want to believe him even though she also feels the bond. There is enough world building and backstory to support the plot. The ending did make me wonder if there is a story for another character in the works. This is a nice short read. Pick it up for when you don't have time for a long books but need something to lighten your mood.

Warning: I am not a robot! I have feelings, thoughts, likes and dislikes and this review is based on that. You should read the book to form your own opinion/thoughts. Read on!

Rating: 3.5 Meow Stars!

The cover, it needs work. Also I know this is an ARC and it sure looks like it needs editing, there are a lot of broken words, i.e. "carry ing". It bothered me a bit.

The story, someone is stealing money from a supposed lord, so he sends he most trusted accountant who happens to be a tiger shifter, he meets the person handling the books, but she happens to be his true mate, he knows that right away. The problem? She has secrets and she is not a shifter and doesn't know they exist. I really enjoyed the book except for one thing, Broderick came up as a dominant male, but every so often he would think the word "Meow", I don't know, I couldn't think of him as a powerful feline, every time I read that word I thought of a tiny, playful, fluffy, cute cat, not a Siberian tiger.

It ended on a cliffhanger, which made me want to get the next book ASAP, because Garoux is someone I would like to know and see how big of a man he is and what he will do when he meets his true mate.

The romance, i believed Broderick, her not so much and then she accepted rather easy the fact that shifters existed. I would have panicked at first and then find out that my true mate is one, even more.

Lulu, I couldn't relate to her...

Broderick, he was funny, determined, geek, and hot.

Overall, did I like the book? Yes, I did. Would I recommend the book? Yes.

Broderick Fredrickson never expected to find his true mate when he was sent to find evidence of wrong doings at the bar owned by his Alpha, Fabian Garoux. Lulu Lamontaine is suspect number one. With police and his Alpha ready to pin it all on her, Brodrick rushes to prove her innocent and save her life.

With a den of Bears lloking to make trouble and Fabien looking for a thief. Lulu needs to find out what is real and what is only a dream before she is the next one killed. Eve Langlais has written another action packed story and given us sharacters that have us on edge and hoping for a happily eve after. With action and suspense in abundance Catch a Tiger by the Tail is a delightful story to titilate the reader's imagination. My rating is 4.5 out of 5 stars.

Carvanz says

Lulu is one tough chick and Brody an accountant falls for her immediately. He wears a suit and works in a cubicle for the city, an admitted numbers geek. He's also a Siberian tiger shifter and he's just discovered that Lulu is his mate. When bad guys are popping up everywhere and shifting into bears, Brody is out to save her from danger despite her ability to save herself.

This was a fun, cute read with lots of humor – some of it a little immature but most of it spot on. Brody and Lulu's interactions were so entertaining that my only complaint is this wasn't long enough. While their story ends, it does lead into the next story with a little cliffhanger. A quick read told in dual points of view it's perfect for those times when you're struggling with a book hangover or can't decide what to read. Of course, it's also perfect to read just because.

Eskimo Princess Jenkins says

Not too bad. Storyline was good. The characters were well developed, yet they held lots of secrets from each other.

Erin says

Everyone liked this book but me... DNF @ 38%.

This is completely a preferential thing for me. I love my PNR.. but apparently I like it a certain way. I didn't like the H.. at all. I love nerdy guys, but in a shifter story I want them to be possessive and become a neanderthal. Also, if I had to read him say "Meow" one more time in his head, I would give myself a headache with all my eye rolling.

*ARC received via Netgalley and author/publisher in exchange for a honest review.

Beth says

Broderick is an accountant for the shifter alpha boss. He ends up investigating a strip club that has been taken a loss, only to discover the human woman he is supposed to investigate is his fated mate.

This is a novella length read that was previously released in another anthology *WILD*.

Fast, fun and frisky read, *Catch a Tiger by the Tail* is what I've come to expect from Eve Langlais. The characters are quick witted and flat out fun. The romance is hot and heavy with lots of sheet and or up against the wall time. And, there is a strong plot that keeps you invested in the outcome. Well balance, enjoyable and just what you need after a long day in reality.

I received this ARC copy of *Catch a Tiger by the Tail* from St. Martins Press. This is my honest and voluntary review. *Catch a Tiger by the Tail* is set for publication May 16, 2017.

Marta Cox says

Ok this story was previously available in the anthology Wild and as far as I'm aware hasn't been expanded in any way so if you own that book save your money but if like me it's a new to you story then be prepared for laugh out loud outrageous flirting as Brody finds his Mate!

I really enjoyed reacquainting myself with this world of shifters and as big bad wolf and mob boss Fabian discovers something fishy going on in a club he owns he sends in his favourite accountant to sniff out the thief. Weretiger Brody is stunned by the redhead who greets him waving a gun but nothing is going to stop him from charming the pants off her! Ok she might be a thief but that's ok if he has to go on the lam with her then so be it but what if she's innocent? Well it turns out that Lulu isn't exactly telling the truth and her secret will send Brody reeling!

This author always makes me smile and even though it was a quick read nevertheless yet again there's enough romance, plot and mayhem to thoroughly entertain me. Poor Lulu, so stumped by all the 'new' terms for the gangs that Brody uses. You can't fault Brody's honesty though and he certainly has his work cut out getting Lulu to purr! Lulu is feisty, independent and very much a woman in control and their interactions were such fun. Yet I do wish it had been longer as there's still a lot in play but hopefully if we ever get Fabian's book my questions will be answered. For now though it's a happy ending for this couple and it was such fun seeing the geeky accountant show how he could roar!

This book was provided for me by Netgalley with no requirement to review. I voluntarily requested and read this and my thoughts and opinions are my own.

Diana in SC says

A fun, sexy romp

Wow! Eve Langlais is at the top of her game with this short novella (121 pages). The author's snarky, fun, out-there sense of humor may be an acquired taste, but her legion of fans are sure to love this shifter tale. I sure do love it. Beware: Only buy this if you want a silly, sexy book. Also, if you already own the shifter anthology "Wild", then don't buy this novel because it was previously published in there.

The story is set in a modern world like ours in which humans don't know about the existence of shifters, and the shifters have jobs and generally live like regular people.

I love the sassy characters. Broderick is a hot, funny accountant who also happens to be a tiger shifter. He has the most charming cat-like behavioral traits. I absolutely love his character because he is so adorable and hot. I love how he courts his human mate Lulu, who is totally awesome. She is a modern woman, but she can kick butt like an Amazonian warrior. She valiantly tries to resist Broderick and his gift of chocolate, but no sane woman could hold out long against that romantic campaign.

Eve Langlais is quite good at writing action scenes. There is also a decent little mystery in the plotline.

I received a free advanced reading copy from the publisher via Netgalley, and I voluntarily wrote this honest review.

Cozen says

Overall, it was a good short story. I good one to read during lunch hour. It was too short to get depth into a character but enough to have a start, middle, and ending.

BookWormAli says

I received a copy of this book via NetGalley in exchange for an honest review.

Ms. Langlais makes me laugh out loud with her unique characters and settings. I loved that this book revolved around a human h who seriously knew how to kick butt and keep herself safe in most situations.

I loved that the Tiger H was sweet with a deadly core, who didn't need to throw that out to impress his girl. I thought they were well balanced and the fact that I did not guess her secret was a shocker to me. I totally thought a different aspect to that so thumbs up EVE!

I cant wait to read more from this writer. She has me in stiches every time, because "Meow" she's got sharp wit.
