Melody Anne

Kian Melody Anne

***New York Times* bestselling author Melody Anne's sizzling novel of ex-lovers locked again in a game of hearts.**

There was a time when surgeon Kian Forbes would have surrendered every cent of his vast family fortune if it could make Roxie Gilbert happy. That was before she skipped town, broke his heart, and sent him spinning through a string of forgettable one-night stands. He never even knew he'd fathered a child—with Roxie's sister, no less. But in the wake of tragedy, little Lily needs a home. And Kian wants his daughter. But Roxie's not giving in or giving up without a fight.

Fearful of her intense feelings for Kian, Roxie ran. Now that her sister's death has brought her home, she intends to take custody of her niece and avoid Kian—easier said than done on both counts. With their wealth and power, the Forbes men are accustomed to winning. And as she and Kian are forced to spend time together for Lily's sake, saying no to everything he wants proves impossible...even though it means risking both their hearts all over again.

Alaina Meserole says

I loved Kian and Roxie!

Kian was an unexpected audio that I grabbed. After listening to it, well, I easily fell in love with the characters and the story line. However, that doesn't mean that I didn't find things in this book that I didn't like.

One major thing was... him sleeping with her sister. Yep, that was a huge dagger to the heart kind of moment. I just couldn't get past that because they obviously still loved each other, and yeah he had no clue that she had a sister or what she looked like.. but still. Not cool man..

Besides Kian.. well, Roxie definitely had her moments too. I just feel like her thought process could've been WAY better. It was just certain moments she would just frustrate me.. and yes, I feel like that happens a lot when there's a kid thrown into any situation. Adults start acting stupid and crazy and this leads to my frustration.

Their romance and chemistry was so freaking good. Of course I still had the whole kid thing in the back of mind. Then the whole random murderer stalking thing was kind of weird and caught me off guard. At one point I just kind of freaked out and cringed because he was licking the kids face. LICKING PEOPLE! It was just plain creepy.

Overall, it was kind of hot mess that I eventually started to like more and more of. I have no idea what the second book will deliver but I also can't wait to dive into it.

Esther says

ARC provided by NetGalley in exchange for an honest review.

I debated not rating it as I didn't finish it, but yet I didn't finish it because it was that bad and skimming the book I found that it didn't seem to have much improvement.

I was bothered by the hero sleeping with the heroine's sister, really bothered.
~JUST NO~

And the heroine's thought process, actions, behavior was just to juvenile, silly and ridiculous.
~How she left the hero (wrong and immature)
~Why she left the hero (made no sense and was silly)
~Her behavior and reasoning on her return (not communicating or working things out like adults)

And after a third into the story, the frustration and irritation of the heroine and the storyline, I was done.

I didn't like Roxie

I really wanted to love this book - or at least really like it. But I really can't give it better than just an OK rating of 3 stars. I am usually a fan of Melody Anne's books so I'm surprised I didn't like this one as much as her other books.

I just couldn't stand the heroine, Roxie! I kept thinking that there was some great reason why she left the love of her life, Kian, and why she stayed away for four years. But when the real reason was revealed I just kept thinking to myself, "That's it???" The reason was SO LAME that it makes the character of the heroine out to be a selfish witch. She left Kian without an explanation. She left her sister - even if they didn't really get along she was the only family Roxie had left. She left her friends, especially her best friend Eden and never even kept in touch with her. And she never even came back for her niece. I'm sure she never even saw or met her because if she did she would've seen she looked like Kian. So basically Roxie's character is pretty selfish and has no regard for anyone else she supposedly cares about.

Now Kian was a little better character, though there were still some flaws there that I couldn't really swallow about. First if all, he is supposed to be a confident and self-assured man. Even though it says he grew up with wealth his parents never spoiled their kids and made them work hard for what they wanted. This should've shown that Kian's character wouldn't just let Roxie leave without trying to find her and ask her why she left him. Also, he wouldn't be weak enough to drink and whore his way through a lot of women. He said he couldn't remember all the women he was with because he was so drunk so I agree with Roxie when she realizes this and wonders if he has fathered more kids. Because how would he even remember if he used a condom? Also, how did women not trap him because he's so rich and good looking? And he's a doctor! He really should know better! He could get a disease! Finally, if he loved Roxie so much why would he never check on his love's sister? Or for that matter why wouldn't his family since they loved Roxie as well?

I think the one character I did really like in this book was the sister. Even from that letter she gave her lawyer we could see how her sister was initially selfish and then after Lilly how she really tried to turn her life around. That letter right there is why I love Melody Anne's books. She is able to reveal so much of a character, which is why I'm surprised that I don't like these characters as much as those in her other books.

I'm hoping that the next book will be better. I know it can be because I've loved other books by Melody Anne and I know she could write a heck of a story with great characters. This one just falls short of her usual high standards.

Shari Kay says

read the blurb

Jenny says

Hero has a baby with heroine's sister? This is gross! Avoid!

Book Lover says

I have read this author's Turbulent series and liked them. So, when I saw she had a new series starting, I requested this book without completely reading the blurb. Mistake. I am NEVER ok with a hero sleeping with the heroine's sister.

Roxie and Kian were supposedly completely head over heels for each other when Roxie left town leaving him a very short and not sweet note. It's 4 years later and Kian is an ER trauma doctor. Roxie's sister shows up, pregnant, multiple stab wounds and with her dying breath tells Kian he is the father of her 3 year old daughter, who also has multiple stab wounds.

Roxie is notified her sister is in the ER in critical condition and needs to come right away. Roxie arrives to find Kian asleep with her niece.

These two hit it and quit it so many times. Kian seems certain he wants her back while Roxie caves then runs away EVERY time. By a third of the way in I was ready to bang my head on whatever was close by.

Roxie is a sniveling, spineless, gutless, ridiculous woman. She's 26 now. She left 4 years ago to go to college yet it states she's been a nurse for 6 years. So much in her timeline didn't add up. She is from a broken home. Her mom ran off when she was young leaving her and her sister with their alcoholic dad.

Kian is now 35 and an in demand trauma surgeon. He comes from a very wealthy, powerful, tight knit family. Here's what he reels off when he tells Roxie he's Lily's dad: "I drank a lot, partied even more, and yeah, I didn't care which women I was with. I just wanted to forget you....But I wouldn't have been on the prowl for anyone else had you been at my side, where I thought you'd always be." OMG sooo many things wrong with these two sentences. The fact that he used the break up as an excuse for his behavior and then blamed her for his actions! NOT a man I'd want in my life.

These are just a few of my issues with this book.

I voluntarily reviewed an ARC provided by NetGalley and the publisher.

Leonor says

[he was so heartbroken after the heroine left him he slept with her sister and got her pregnant. Lol this is so funny. (hide spoiler)]

Alice says

I was severely disappointed in this book. The beginning was great. Awesome. By chapter 6 however, it all went downhill. None of it made sense. She left for 4 years and came back a nurse who could find a job anywhere, which is not realistic because she wouldve had zero experience. It took me 4 years just to get my

bachelors in nursing. Second, I hate females that are all “I can’t stop myself, I can’t resist, I’m not strong enough” and then the next day are completely like “it was a mistake.” And this happened throughout the whole book, over and over. It was so annoying. She would be stubborn for no good reason. A break in at the house I’m staying in where my sister was brutally murdered? Oh no, I have to stay, must exert my independence. I’ll just buy a lock. She was too defensive about the most asinine stuff. Would not recommend.

Melody Cox says

A terrible subject matter. Having a baby with the sister of the woman you loved. That just crosses the line in a very huge way.

Dilek VT says

The blurb says it all!
(The hero has a child from the heroine's sister.)

Lu Bielefeld *read.laugh.love* says

The hero has a child from the heroine's sister. WTF!

Naughty Mom Story Time says

Overall: 3.5/5

Naughty Factor: 3/5

POV: Dual/3rd person

Kian was my first Melody Anne book and I truly enjoyed the premise of the story and got hooked in Chapter 1. As I continued through the story, I fell deeper and deeper in love with Kian. The man had an amazing heart, he was kind and caring and came from a wonderful family. He was honorable and patient and protective and all around “Dr. McDreamy”.

But as much as I loved Kian and his part of the story, I was not a Roxie fan. I didn’t understand her motivation. I found myself fighting through her parts of the story. She was whining and defensive and I couldn’t fathom her reasons why. She lived so much with the fears in her head that she dismissed Kian’s good gestures and patience and, for me, it was like their only true connection was between the sheets.

Though I didn’t connect 100% with Roxie, I did ultimately enjoy this story. Kian was the one that left the everlasting impression for me. His family was great and I see good things coming out of this new series. I will definitely be interested in more from the Forbes men.

Jen says

DNF @35%

Soooo, after giving this what I believe to be more than a fair shot, I'm giving up and moving on. There were just some things I couldn't move past.

Even though I'm not normally down with the "ex sleeps with her sister" thing (and it's not a favorite trope here), that's not the reason this isn't working for me. Both MCs are all over the place and I'm already tired of the heroine sleeping with the dude and running from him under the guise that it was a mistake, etc. Own your actions, woman!

The writing in general is fine, but this just isn't my jam.

?Tonya? says

the blurb.... nothing more to be said ?

Sissy's Romance Book Review says

Kian by Melody Anne is the First book i the "Undercover Billionaire" Series. This is the story of Kian Forbes and Roxie Gilbert.

This was a great second change at love book. Roxie and Kian knew each other previously but they didn't end up together. Now they are bought back together by a tragic lost but can this time around will it be forever? I enjoyed their story and I am excited for this new series!!
