### Melanie-Smokenator says

Reaper is just an alpha male. And almost dying on the job (being an assassin and all) made him realize - he wants someone to come home to. PS - what he was doing at his assignments place had me laughing - but also delayed him. He turns to a dating service and well things just don't work out the way he wants - the ladies just don't suit him.

The Owner takes him into her own hands and does that turn into some interesting events. This man literally does not like the word no. He is all alpha male and once he sees you as his - nothing will stop him from protecting what is his.

Annique is an independent lady. She had me in such stitches. She has a past that seems to haunt her and Reaper wants to help. He doesn't tell her that he is more than a Real Estate agent. She can't tell him why she is hiding.

Then throw in her mystery sister at a ski resort - I think this made my whole week. I was laughing because they are a such stubborn but funny couple.

Love it.

He then decides he needs a happy ending of his own but how do you go about it. Do you look for a female hit an in a dating site. Bow shoots at him. Grab it and find out. Does he find a mate.

Meanwhile some is after his female counterpart. Is it the same person after both of them. Do you take care of the other person

This is the third in the bad boy inc series. It's a standalone. I haven't read the others, and had no problems. I enjoyed this read. It spent a lot of time in Reaper's head and him dealing with his issues. He seems so grow in this book. I really like his character. Annie is a different story. For a adult woman on the run she is really naive and whiney. I wish she was a bit stronger or had more growth. There is a HEA, so no cliffhanger.

Overall a good story. The narrator did a good job, but could have read a little faster and engaged more in the beginning. I haven't listened to this narrator before. He did a good job of having a different tone for different characters, which can be hard for narrators that have a deeper voice. A solid four star read.

Deadly Match is a short, sweet, fun read that kept me flipping pages as fast as I could. Charming “Reaper” Montgomery is an assassin who is in his early forties. Getting shot makes him think of slowing down and finding someone to come home to. The dating service sends him one woman after another but none of them works for him but the moment he meets the feisty owner Annique Darlington he is smitten. The only problem is she comes with baggage and isn’t interested. Reaper has a challenge on his hands but he needs to keep them both alive so he can convince her to be his.

I love this quirky series. An older couple in a fun romp. Not your everyday romance.

### The Right One!!!

While out on a mission Charming Reaper Montgomery nearly died whwn an unknown shooter shot him. Now he was looking for love so he decided to turn to a dating service. He met the beautiful, smart and sassy owner of Secret Match who took his breath away.

Annique Darlington was the proud owner of Secret Match, she had a dilemma when she couldn't find a match for Reaper. Such thing had never happened to her before, she was at a loss at what to do.

When they first met, there was a mutual attraction between Annique and Reaper. The latter was ready to walk away when the former suggested they go on a date so she could get to know him better. In order to find him the perfect match.

Reaper had a feeling that she was hiding or maybe she running from something or someone. He just never knew how dangerous until they were shot at on their first date. He wanted her and he knew that she wanted him as well. She juat wasn't ready to take that plunge yet.

The banter between them was alluring. When Annique was in danger again, Reaper made it his mission to protect her. But things got a wee complicated when her past came back to disrupt their present in an unexpected way.

Reaper finally found out who his mystery shooter, he never expected her to turn his love life upside. In the end the sexy silver fox saved his beloved and got his HEA. Loved all the twists and turns.

**DEADLY MATCH** is the third book in Eve Langlais' **BAD BOY INC.** series. it was fun, action-packed,

fascinating and oh so steamy. Another amazing job by Eve Langlais. 5++++

P. S. Ooh I'm so excited for Darren's story next ;).

This series keeps getting better! Charming Reaper Montgomery's occupation is catching up with him – not the real estate agent one – and he's starting to feel his age. After a mission goes terribly wrong, he has a lot of time to think about how nice it would be to have someone waiting at home for him. Someone to love him and spend time with him. But where is an assassin to go to meet eligible singles? Why not a dating service!

Annique Darlington runs Secret Match, a very successful matchmaking service. After a lot of dates with all different kinds of women, she just can't seem to hook Reaper up successfully. So she decides to take matters into her own hands, and give him the benefit of her personal matchmaking talent. She is surprisingly good at finding perfect matches for others, despite her own horrific dating past. It just seems inevitable that the unmatchable man will match with the unwilling-to-be-matched woman.

Reaper has his work cut out for him in convincing Annie that she can take a chance on him. She is terrified of something, but won't open up to him. All of his queries turn up dead ends. Who is this woman? What is she afraid of? And where can he find it so he can kill it for her?

A great addition to the Bad Boy Inc. series! I've loved all three books. Each one can stand alone without any problem. I do recommend reading them all in order so you get introduced to the crew members, but it is not essential. Full of humor, action, danger, and love – this book also shows that love has no age limit!

This one was just... ok. Fine, but not that interesting. He was pushy, she was busy being scared a lot (ok, rightfully so), and it was obvious who the shooter was going to turn out to be.

### **Jessica Gomez says**

This story is sooo good. It had everything in it that I love from this author. Plenty of humor and hot bed action as well. And action like hand to hand fighting and actual gun fights. The lead male role was drool worthy. I am actually sighing right now. I loved that he was complex and has a sweet side only shown to the female lead. I loved that the female lead had sass. She wasn't a pushover and had her own opinions. She had her own voice and used it. I loved discovering the sister's secret too. It was a doozy.

### **Jae says**

I enjoyed their bickering very much. Too funny.

### **Jessica Frances says**

Deadly Match is the third book in the Bad Boy Inc. series, but can be read as a standalone. I have not read the others in this series and didn't feel lost in the story at all. This story is about Reaper, an assassin who is toying with the idea of settling down after a near death experience, and Annique, the woman he employs to set him up with someone. What happens after that is unexpected for both of them.

This was fun, light, and a great way to read away an afternoon. Sure, it was silly, and sometimes didn't make sense, but in Eve's usual fashion, she wrote two fun characters and put them into some hilarious positions. This did have a little darker feel to it, but it never waded too far into that territory in my opinion. I thoroughly enjoyed this story and look forward to checking out more of this series.

### **Miranda Beazley says**

A semi retired assassin looking for love hires a match making service to help in his search for love. What he doesn't bet on is the hot single owner who peaks his interest more than anyone has before.

A cynical bad boy assassin, finds an instinct to protect with a hot single lady in trouble. Annie and Reaper are a great couple, Annie is so strong emotionally and mentally, she's been through hell and she's still ready to do what she thinks needs to be done. Reaper is the bad boy we all want to tame, and Annique is the lucky lady he's set his sights on.

I really enjoyed these two and this book. It was action packed right from the get go, like literally the first words of the book are action packed and involve a shooting. Another great story by Eve Langlais.

3.75 - 4.0 \*\*\*

This was a fun book that didn't take long to read. Lots of LOL moments. I loved Reaper and Annique. They were perfect together. I'm looking forward to the next book.

### **L M says**

Not the best I have read by this author. After the interest grabbing first few pages I found the rest of the first half slightly boring and lacking this authors trademark humour that was in the two previous books. The constant denial of the heroine ended up being grating and took away my reading pleasure.

Liked Charming (Reaper) and his confident attitude but wish he had told Annique what he was earlier, she may have told him the truth.

These two didn't really become a couple until nearly the end of the book but I felt no connection to them by this point.

The end was fun and I liked the twist with the shooter. The situation with the ex-boyfriend just seemed overdone, why did he want Annique dead? how many times can someone NOT be dead?

### **Salisa says**

Annique Darlington is the owner of the service. She is running from someone. She would have this time if it weren't for Reaper. Annique and Reaper's chemistry is Hot, Hot, Hot! However, they have I will take care of you, I need to run method for most of the book that is a bit annoying. Though the author did a good job putting me their shoes and bringing connecting me with the characters.

The highlight of the book was the climax. And what a Climax! The only this I got to say is it was worth the back and forth of the characters. Totally Worth It.
