Just perfect!

This was just what I need. Laugh out loud funny. Love the part of seeing a little of Clair and Liz again. It's hard to find an author that will make you laugh hard till you're crying. Everything I love in the Chocolate series is here. The main couple were so perfect. Her family was nuts but in a loving good way. Please please more books like this. I have Kindle Unlimited but these type of books and a good comedy in it with an author that knows how to write comedy I will buy every time.

When I bought this series I figured I would read each story for that specific holiday..yea, that didn't happen because I became obsessed with the Holiday family and had to read the rest. The Holidays become one of my most favorite funniest family series-every single story became better and funnier, just love the whole entire family. Great must read series!!

I usually love Tara Sivec's work. It always makes me laugh excessively. So, when I saw that she had released a compendium of short stories (4 in total - about 100 pages each) about the holidays (and it was on sale for 99c on Kindle), I just couldn't resist it.

The first story is set at Christmas and it was fabulous. I laughed so hard and thoroughly enjoyed the meeting of Noel and Sam. It was very reminiscent of her Chocolate Lovers series. I enjoyed the story so much (well except for how Noel broke off her engagement - that was just plain nasty), that I moved straight on to the second story.

The second story was set on Valentine's Day (celebrating the engagement of Noel and Sam), this was followed by the third story that was set on 4th July (celebrating the wedding of Noel and Sam) and the final story was set at Easter (celebrating Noel's pregnancy).

Unfortunately, by about the second book I was a little over it and I really should have stopped reading as I knew I had lost interest. The two main characters and their respective best friends were basically the Chocolate Lovers characters again with different names. There was blatant self-promotion of her other books (which is fine - but it just came off really cheesy and out of character for Sam to have a stash of Tara's other books in his Marine satchel).

Also, I found myself cringing so much with some of the stuff (and I usually love Tara's stuff). I didn't like the way the word "Gay" was thrown around as being an insult or the phrasing "Don't be a Girl" or even animal cruelty (so not funny) or even the caricature that was Aunt Bobbie. Ms Sivec usually incorporates diversity which is excellent, but she did it here as the joke element and I think that her representation of transvestites/transgenderism is very inconsiderate and very small town America.

Also, how many times can the lead male character's penis get hit, stabbed, burnt....and we are still supposed to laugh. It is like sitting around watching a Funniest Home Video Show and wondering why everyone is laughing so hard at the guy getting hit in the balls for the 100th time. Ok, the first time might generate a giggle, but about the 10th time most people are a little over it. I usually like Ms Sivec's work, but stories 2, 3 and 4 just had me cringing about her representation of minorities, women and penis related accidents....(now there is a sentence I never thought I would say) :-P. Read it for Xmas and then take a break as reading the four stories back to back is too much for one sitting and the laughs dry up really quickly and you just start feeling really embarrassed.

These short stories were hilarious! I laughed til I cried! I didn't want to stop reading them and fell in love with all of the Holidays!

JMV says

Not your normal holidays

The things your parents say to embarrass you are nothing like Noel's parents.... Funny, sexy (lots of sex) and an easy read.

The Stocking was Hung - 5 Stars

Read in August 2016

I needed a light and funny book. This was the first one I came across on my kindle and it was exactly what I needed. I did not stop laughing the whole time. But I also got the feels. I love the Holiday family and cannot wait to read more.

Cupid has a Heart-on - 4 Stars

This book was totally cringe-worthy and laugh out loud hilarious. The Holiday family is completely crazy and I loved revisiting them.

The Firework Exploded - 4 Stars

I think each story just gets more ridiculous. But I loved it. I was struggling to hold in my laughter.

Araceli says

A hilarious series

I laughed throughout this series. A love story with some crazy family members is always a fun time during any holiday.

Raine says

Love the funny!

I love these holiday stories of the Holiday family focusing specifically on Sam and Noel. During Christmas the meet at an airport and Noel brings Sam home to pose as her fiance to meet her crazy family. Each holiday story continues to be the backdrop of a significant milestone in Sam and Joel's relationship. These stories were laugh-out-loud funny and we even get a cameo of a couple of characters from Seduction and Snacks.

Every once in a while I really need something different. After angst and drama and so many feels, it's nice to find something fun, light, even over the top. And Tara Sivec's The Holidays Series is PERFECT for that! Completely ridiculous, over the top funny, smoking hot while literally making you almost pee in your pants laughing. The series is a love story, filled with family insanity, sassy side characters, and the perfect combo of sexy, sweet, and silly to keep you reading!

Pat Rathmann says

CUTE AND LAUGHABLE ADVENTURE

Quirky and outrageously funny characters. Two people meet in airport and share a few personal funny lifetime stories. There is an immediate attraction between the two and ultimately she invites him home for the Holidays. He finds her family members are absolutely crazy and also always talking about it consumed about sex. The ridiculous never ends.
