Christmas Letters: Christmas Letters\Three Christmas Wishes Debbie Macomber
Rediscover Christmas on Blossom Street in this classic holiday romance from #1 *New York Times* bestselling author Debbie Macomber.

Katherine O'Connor adores her five-year-old twin nieces—and objects to her sister's plans to dispense with Christmas. While Katherine spends her days at a cozy café, writing Christmas letters for other people, her sister is following the theories of child psychologist and author Wynn Jeffries, who is also, as it happens, Katherine's neighbor. She is particularly horrified by his edict to "bury Santa under the sleigh," and she's out to prove that Wynn and his ideas are full of...snow. He's not going to ruin her nieces' Christmas! Too bad the guy's so darned attractive... As the days—and nights—move closer to Christmas, Katherine and Wynn both discover that love means accepting your differences. And Christmas is about the things you share...

Yeni? kar? larken okumak daha bir keyifli oldu :) Tavsiye ederim.

Jennifer says

Um.... Is there supposed to be someone in this book I actually like? Because it just did NOT happen for me.

The main Character "K.O." allowed her sister to treat her like crap. Seriously. If someone treated ME like her sister treated her - I would go OFF. I think the rudeness and selfish behavior of the people in this book was supposed to be the comedy portion of the book - but I was NOT feeling it. It just came across as a bunch of immature jerks banging into each other.

I had a really hard time with the whole book honestly. K.O. was dating a man whose lifework as a psychologist was putting a theory out into the world that children should set their own boundaries and he advocated "the free child" theory. K.O. watched her nieces go from well adjusted children to BRATS on this system that her sister (the jerk) implimented. So K.O. goes into the relationship with the attitude "He's perfect except for this whole "Lifework" thing". Um... That is not a small thing people. Why would you go into a relationship with someone who you had THAT large of a difference in world view. This guy is on radio shows talking about his book, going to book stores to autograph this book, and spent years perfecting his theory. He is being called the "Next Dr. Spock" - and you vocally HATE his theories - but maybe you can still date him? Um. No. Not buying it lady.

This one was a dud for me.

Melissa says

I really enjoyed this story!

Katherine (nickname K.O) does not agree with the theories in Wynn Jefferies book -- but despite that...they are drawn to each other.

They live near each other - and they have a neighbor who predicts romances in a very cute way!

I like the idea of Christmas Letters, and the way that Christmas Letters are interwoven in this story.
Great Christmas book!

Susan (susayq ~) says

My mom has been on a Debbie Macomber kick since I introduced her to the tv show Cedar Cove, which is based on Debbie's writing. Mom went through all the Cedar Cove books and is now working on the Blossom Street ones. This is one of the Blossom Street ones. I heard her laughing as she read it, so I figured I'd give it

a whirl. This was exactly what I needed to read today. It was light and fluffy and funny and what you expect from a Christmas romance.

Sevgi Ervan says

Hiç be?enmedim ?Resmen bitirmek için okudum ?

Gülay Cansever says

s?cac?k ve a?k dolu bir ara kitap ;)

Esra says

Blossom Soka??'nda geçen keyifli bir Noel hikayesi :)
K.O. ve kedi a???? kom?usu, ilerleyen kitaplarda örgü kursunda kar??m?za ç?kacak herhalde..

Teri-K says

She writes lies in other people's Christmas letters, so they can pretend their lives are better than they are and thus make their friends feel bad. Because nobody's life is always perfect. He tells parents how to raise their kids, though he's never been a parent. I dislike phonies, so this is not a book for me.

Amber says

For my first debbie macomber book, this was a pretty good read about a Christmas romance in Seattle and christmas letters.

Jackie Lane says

What a cute book about Christmas this was. I loved the spin with the writing of the Christmas letters. Although this book takes place partially on Blossom Street, it really has nothing to do with the Blossom Street series. Until the very end of the book, very little is written about Blossom Street.

As always there were likeable characters such as Max, Wynn & LaVonne. The "Z" household was also a lot of fun with everything from dogs to adults having a name with a "Z". The unique twist of the controversial book that Wynn Jeffries authored called The Free Child helps to keep the story moving along and yet allows for different opinions.

As usual, I love the HEA books that are lighthearted and are just plain fun Holiday reads.

Mandy says

A nice Christmas story about two completely different people coming together. Debbie sure knows how to write a romance. Recommend, definitely around Christmas!

Eirelyn says

HERE, THERE BE SPOILERS

This was a light, sweet read for the holiday season. I enjoyed the characters and the storyline, and the immediate clash of KO's & Wynn's views on child-rearing. It was interesting to see the way they navigated their budding attraction and new relationship, while trying to avoid the subject on which they held completely opposite views.

My only complaint about this book was how abruptly it ended. KO & Wynn had their argument and immediately broke up, realizing they were never going to agree on how best to raise a child. Several days later, KO decided to fight for Wynn, not wanting to let him go because she was in love with him. When she approached Wynn, he had basically done a 180, suddenly agreeing that his views were too extreme and that he would be writing a new book to retract some of the things he had published previously. Granted, he had had more than week to consider what had happened, and it's entirely logical that he realized his approach was too extreme, but we were not shown any of that change or development. The turn-around was too abruptly presented, in my opinion, but other than that, I really enjoyed this book and was glad to see that the two of them finally decided to work on compromising their views.

Kristen says

Another excellent book by Debbie Macomber! This book is a part of her blossom street series. Did not know that while I was reading the series so I went back and read it. A very easy read. Could not put the book down once I started it.

Felicia says

This is kind of a spoiler review but not really, I mean we all know how all romance books end don't we, happily ever after.

This is a hard review for me because I really enjoyed reading this book but at the same time there were a lot of things that really bothered me about it too. I think the best way to review this book is to give a list of the things that bothered me and then sum it all up with why I liked it.

Things that bugged me

1- Katherine's nickname being K.O. it's just dumb I trained myself to call her Katherine every time it said

K.O. because it bothered me so much.

2- So many times the people in the book acted like 2 year olds, it was SO DRAMATIC that it wasn't fun to read because adults would never act the way they do in this book. Examples; When Katherine first meets Wynn she starts off all nice to him and then goes crazy screaming at him in a public place. I know she dislikes his books but really who would do that to someone famous who you have never met in a public place? Plus she never even read his book which seemed crazy to me, you can't hate something you don't know anything about.

3- When Katherine introduces Lavonne to Max this nice sweet kitty all the sudden goes crazy like a rabid animal and attacks Max. Then there is so much blood all over everything but Max doesn't even need stitches. Then Max although normal up until this point starts acting like a crazy man who is going to sue Lavonne over the cat incident and fakes amnesia then a few chapters later he is a normal man again and with no explanation why.

4- The ending was so rushed, it was like the author looked up from writing and realized that her book was due to be finished so she wrapped it up in like 3 pages. All of the sudden after babysitting 2 naughty kids Wynn decides that he is wrong and is going to write a retract his last book and write a new book saying kids do need boundaries. It just doesn't make sense at all, didn't Wynn a child psychologist who works with children every day do any research or have any proof his theories worked before writing a book? Then one day he babysits twin girls who's mother read his book and raising them like it says, when he sees how naughty they are then all of the sudden he realizes he is wrong. You would think he would have realized that before publishing a best selling book right? So Katherine knocks on Wynn's door says she loves him, he says his book is wrong they decide to get married and have kids and Max and Lavonne are engaged all in a few pages.

5- And lastly, it bugs me that without even discussing important issues like how they will raise their own children they decide to get married and start a family and everything turns out happily ever after. It would never happen, people who disagree on important matters like how children should be raised in such a big way should never have children unless they want to eventually get divorced.

But really at the end of it all it is a cute little Christmas romance. The characters are funny and mostly likable even if they aren't realistic. The story is funny and made me want to keep reading. The language was good and I like a romance where there aren't sex scenes and groping, those kind of romance books just aren't my type of romance.

Read this book if you are in the mood for a mushy sweet romantic book that you won't try to take to seriously.

I would rate this book a B- or a C+, not the best book ever but I enjoyed it and would read more by this author.

Jennifer says

★★½

Christmas Letters is #3.5 of Debbie Macomber's romance/women's fiction series titled: Blossom Street. I have never read any of the books in this series before; Christmas Letters was the first. I wanted to read a Christmas story and the audio was available at my library so it was kind of a convenience reading choice. Overall, it was OK. I didn't dislike it but it's not something I would necessarily recommend to others either. Some parts of the story put me in the Christmas mood which is why I bumped up the rating of 2 stars to 2½ stars (and ultimately rounding up to 3).

Please note: It's possible that my enjoyment was affected by reading this story without reading other books within the Blossom Street Series. However, it seemed like a standalone story - I wasn't aware it was part of

the series until I began to write a review on goodreads.
