The Mighty Quinns: Logan Kate Hoffmann

He's just an average, irresistibly sexy guy...

It's a long, hot trip from one side of Australia to the other, but horse breeder Logan Quinn has a job to do—sell his favorite filly, and dream of a home and a horse ranch of his own. When he stays over at a posh horse farm, however, his dreams turn to fantasies about the owner's daughter. And for just one night, he gives himself up to sweet surrender....

One night isn't nearly enough for heiress Sunny Grant. She'd be crazy to let a scrumptious bloke like Logan disappear from her bed and her life. Now she wants more—even if it means stowing away in his camper van!

With nothing in common but a white-hot attraction, they'll travel across the Land of Oz—together. But nothing in this journey will ever prepare them for their destination!

I was with this book until the last 45 pages where the ending got prolonged and unnecessarily convoluted. I skipped at least 20 pages.

Jean Tallman says

Logan Quinn is a hard working retired investment banker johnny come rancher. He breeds horses. He is traveling to deliver his "prize mare" when he stumbles upon Sunny at the ranch where a former co-worker is now working.

Sunny is a spoiled-little-rich-girl, but "failed" Olympian whose number one love is horses. In what is a creative bit of writing, she stows away in Logan's camper because she really has nothing better to do but travel the Outback with him.

These two find companionship and then love in the week that follows. Logan then returns home when he is told there is someone there who will only speak to him to discover he has inherited \$1 million dollars from a great aunt in Ireland.

He returns to Sunny a month or so later to show her the new ranch he has bought and ask her to marry.

I have always liked the Quinn series, it's great to see a "new" line :)

Very good book. In order to pay the bills at his horse ranch, Logan has to sell his favorite horse. As he is driving her across Australia to her new home he stops at a fancy horse farm overnight. There he meets Sunny. Sunny is drifting after her Olympic dreams crashed and burned, but something about Logan draws her in. After one awesome night together, Sunny stows away in his camper so she can go with him.

I really liked both Logan and Sunny. Logan is a really sweet guy. He worked long and hard to get the money he needed to start his own horse ranch. He doesn't want to sell his filly since she was going to be one of his breeders but he needs the money to keep the ranch going. When he meets Sunny he is very attracted to her but knows she is well out of his league. He doesn't expect her to show up at his camper and give him the best night he's ever had. When he finds her in the camper the next day he decides to let her tag along on the trip. I really liked the way that Logan knew what he wanted and was willing to do the tough things to make them happen. Even though Sunny was willing to buy the horse from him he was determined to honor his commitment to the original purchaser. I loved seeing him get to know Sunny as they traveled and how his

emotions got more involved. As much as he came to love Sunny he still had some serious issues with their economic differences. They had a lot in common with their love of horses but he still had a hard time thinking that there could be anything permanent between them.

Sunny had spent her life trying to live up to her father's expectations. When her Olympic dreams tanked her father became even more obnoxious to her and she was even more lost as to what she wanted to do with her future. Logan's arrival on her father's horse farm was just what she needed. Her attraction to him was instant and intense. She didn't want to stop at one night with him and decided to tag along on his trip. They started out with plans for just being together for the length of the trip and then going their separate ways. She started out as seeming pretty spoiled with not having to think about money or consequences of her actions. The more time she spent with Logan the more she started to think about what she really wanted her life to be like. I liked the way that she came to understand Logan and his dreams and how she realized that she wanted to be a part of his future. I also enjoyed seeing the ways she had changed by the time she got back home.

I liked the way that the prologue set up the premise of the series. When the elderly Ms. Quinn discovers that she has family she never knew about she sets out to find them. Logan is the first she locates. I love the effect that her search has on him.

This was a fun, quick, sweet read. Logan has the long, boring task of driving one of his horses across Australia to a buyer. But that boring trip adds a bit of flair after meeting Sunny at his first stop. Sunny is trying to recover from her recent performance at the Olympics and Logan is just a delicious distraction. After one spectacular night Logan has to continue on his journey but when he finds Sunny has stowed away he doesn't want to turn around and leave her behind. Sunny brings excitement and an unexpected friendship to the trip. Not to mention sexy, steamy evenings. But they both have issues to work through; Sunny's feelings of abandonment and Logan's feelings of not being enough for her. But as each kilometer flies by they find that love can provide an answer for almost anything. I think I enjoyed this even more because I'm a former Australian resident so I loved to read the local phrasing and imagine the accents. Fun read!
