She desperately wishes to bring about change and she's given her chance when the 'Avatar of the Light' appears in her bedroom in the middle of the night. Their romance begins, but is tested when Mirena decides that the best way to take on the tyrant who rules their society is to seduce him. Risking it all to get what she wants, Mirena realizes too late that everything has a price and sometimes that price is more than one person can pay alone.

[For the most part, the story flowed well, and I found myself immersed in it for most of the novel. Occasionally, there were some parts where some more editing would have been helpful. In the beginning, some characters were described twice within a few paragraphs, and there we

First off - apologies to the author. I read this book months ago and meant to leave my review sooner.

Although I'm not a big fan of fantasy novels, this story kept me intrigued until the end! Kudos to the author. The characters were well defined and the story line, while sometimes a bit complex, was clear. I would have liked to see a bit of a stronger lead, however, I understand the importance of development, so I will hold off on that criticism until I read the next installment. Overall, this was a fast and enjoyable read for me. Looking forward to seeing what happens next!

[Especially after she was awesome at sword-fighting too. (hide spoiler)]

The story was enjoyable but unfortunately the reading experience was not as fun as it could have been due to some weird formatting issue in the electronic copy I used causing the chapters to appear in a random order. Mira was a fun character, but I was not as fond of Lyana. Hope was missing some strength of character considering his position in the world.

This was quite the intriguing story with a very complicated storyline. We have parallel realms with mirror like characters (each mirror with the same name),majik, standing stones to transport the magi between realms, allusions to futuristic technology, and yet a taste of the medieval remains. All of this creates an

intricately woven tale of love, politics, betrayal, war, and ultimately an enticing cliffhanger setting us up for the next installment. Will our protagonists be reunited??? Stay tuned!

The edition that I just completed was the ebook version and I have to point out that in the later chapters there were several errors in the editing. A good solid proof is needed. A few times the awkwardness resulting from these errors was enough to pull me out of the world the story was creating and plopped me back in front of my tablet.

On a technical note, I found the dialogue was excellent. It felt natural. Obviously great care was taken to ensure that the dialogue felt true to each character. I would however have liked to have "seen" more attention to the details about the world(s). The stage that this story was set in I feel would have been better served with more description. As most of the characters were dual parts, keeping track of which character you are reading proves tricky at times (perhaps a trick like that used by Piers Anthony in his Adept series might have eliminated that?) I felt at times the lack of tell tale signs indicating which realm you are also broke the flow of the story.

For lovers of fantasy and/or teen fiction this book will certainly entertain and hold you captive. A warning though this book does touch on violence against women, rape, and suicide but not as major threads or themes. They are events within the story but readers sensitive to these types of events should be forewarned.

I am not sure that this is fully warranting a 4 star but definitely not a 3 star. I will error optimistically because the story is so very inventive (I lost track of how many twists to the plot there were)and put my qualms down to editing more so than storytelling. I look forward to the next installment.

An awesome story with characters you'll love (and some you'll love to hate). I had trouble putting it down.

This book is unputdownable guys. The epic-ness of it!! This is the book with the amazing plot. This is the book that I finished during 24 hours. I LOVED this book.

This book is heartaching you'll cry. I was just sad throughout the novel. There were some swooning but sad moments too between Mirena and Hope. The sudden breakup of this duo was so sad. All the sacrifices that Mirena made to finish the Panarch, in the end I was just mad at Mirena for her darn sacrifices.

The most amazing thing was the Mirror World, where there are copies of the people living under the Panarch's rule but opposite in nature. Mirena's sister is pure sweetheart in the Mirror World which was pretty disturbing. I hated Caraline the most, she was a big twist too. Dipaul should get the title of 'Cruellest Villian Alive'. There were so many engulfing things in the book.

Although there were hundreds of difficulties in Mirena and Hope's relationship, still they had their moments. There were some lovely dialogues that Hope said to Mirena which were making my heart pound like crazy. You will find yourself totally in love with Hope! Because I really liked his character. I felt like the story was

short and should have been more long but still this book was worthy with loads of crying scenes. A prrfect full of actions book!

An interesting fantasy setting featuring a group of characters that can travel between worlds where mirror images of themselves exist. This is a darker fantasy romance, but still manages to have humour in the right places. The story is quite intricate, with magic and travelling to the different realms where everyone is mirrored – and then disguises even get thrown into the mix. It could easily be confusing, but instead it creates a rich backdrop for the story and well-crafted world building.
