General, Organic, and Biological Chemistry: Structures of Life Plus Masteringchemistry with Etext -- Access Card Package Karen C. Timberlake

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab

& Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab &

Mastering products, you may also need a Course ID, which your instructor will provide.

Used books, rentals, and purchases made outside of Pearson

If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not

be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

"General, Organic, and Biological chemistry (2-semester).""This package includes

"MasteringChemistry(R)." "Give allied health students the chemistry they need...how and when they need

it!Designed to prepare students for health-related careers, "General, Organic, and Biological Chemistry:

Structures of Life"breaks chemical concepts and problem solving into clear, manageable pieces, ensuring

students follow along and stay motivated throughout their first, and often only, chemistry course. Karen

Timberlake's friendly writing style, student focus, vetted and refined clinical chemistry problems, and

engaging health-related applications help today's students make connections between chemistry and their

intended careers as they develop the problem-solving skills they'll need beyond the classroom. The Fifth

Edition fully integrates the text with MasteringChemistry to provide an interactive and engaging experience.

New Construct a Concept Map activities help students connect ideas through video solutions and live

demonstrations, while the text and media establish a clinical focus that ties chemistry directly to allied

health. Instructors can also assign MasteringChemistry's new Dynamic Study Modules, which enable

students to remediate core math and chemistry skills outside of class, freeing professors to focus on GOB

Chemistry concepts and problem solving during class. Superior support beyond the classroom with

MasteringChemistryMasteringChemistry from Pearson is the leading online homework, tutorial, and

assessment system, designed to improve results by engaging students before, during, and after class with

powerful content. Instructors ensure students arrive ready to learn by assigning educationally effective

content before class, and encourage critical thinking and retention with in-class resources such as Learning

Catalytics. Students can further master concepts after class through traditional and adaptive homework

assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all

automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to

assess student understanding and misconceptions. Mastering brings learning full circle by continuously

adapting to each student and making learning more personal than ever--before, during, and after class.
