Big Game Stuart Gibbs

When someone takes aim at Rhonda Rhino, FunJungle's pregnant (and endangered) Asian greater one-horned rhinoceros, the zoo steps up security measures in order to protect this rare animal and her baby.

But the extra security isn't enough—someone is still getting too close for comfort. Teddy and company start to suspect that whoever is after Rhonda is really after her horn, which is worth a lot of money on the black market.

For the first time ever, the head of the zoo enlists Teddy for help—for once, he doesn't have to sneak around in order to investigate—and the results are even more wacky, and even more dangerous, than ever before.

I really enjoyed this book because I enjoy reading mysteries. I would recommend this book to all the people who like reading mysteries. This book is about a rhino who got shot at but wasn't killed. Teddy (One of the main characters) and some other people try to figure out who tried to kill the rhino. They face many dangers, but in the end, figure out who and why they tried to kill the rhino.

The Big Game was an amazing funny action packed book written by the one and only Stewart Gibbs. The book takes place at the Fun Jungle in Teddy's little town. He works at the Fun Jungle and takes care of the animals. When the word gets out that the Rionda Rhino is pregnant a very suspicious poacher tries to kill Rionda! Will Teddy save Rionda? you will have to read the book to find out. I would recommend this book to people who like action packed funny mysteries. (this book is the 3rd in the Fun Jungle series). To see the 1st Fun Jungle go to JulienDE to see his review.

When someone takes a shot at Rhonda Rhino, security goes on high alert to try to capture the poacher. Teddy once again finds himself caught up in the mystery, but can he find the shooter with Large Marge once again on this tail for something he didn't do?

It's always wonderful to be back at this zoo, and the characters are as wonderful as always. The plot is perfectly constructed with everything set up well for a great climax. The issue of rhino poaching is giving a much needed spotlight without slowing things down at all. Middle grade audiences will love it, as will anyone who wants a wonderful mystery.

I really enjoyed this book. It had a great plot line and kept involved the whole time I was reading it. There were many plot twists that were very well incorporated. This book is about a kid named Teddy who lives at a zoo because his parents work for the zoo. Someone shoots at the rhino to get the horn (which is worth a lot of money) and Teddy tries to figure out who it is. During this time he still has to deal with having a crush on his best friend while they work together on the case. He ends up figuring out who shot at the rhino before anyone else does and saves the day. I would recommend this book to anyone who likes fast paced mystery books and loves to be surprised.

E ARC from Edelweiss Above the Treeline

Teddy is having a typical day for him, walking the elephants around the zoo before school, when a gun goes off and they stampede, wrecking a restaurant and a lot of other areas of the zoo. Rhonda, a pregnant rhino, seems to be the target, and this is a serious concern, since poachers might be trying to kill her so that they can sell her horn, which is considered valuable. A little less serious is the vandalizing and robbing of a candy store and an ice cream store-- actions with Large Marge is hot to pin on Teddy. J.J. McCracken, the owner of the park, asks Teddy to help with the investigation this time, but is still underhanded: he asks Teddy not to tell his parents. Along with Summer, McCracken's daughter on whom Teddy has a bit of a crush, Teddy tries to figure out the logistics of how the shooter would have gotten into the zoo, gotten near enough to the enclosure, etc. He's also trying to prove that an orangutan is targeting the food stands, and dealing with the fact that his home has been moved on the other side of the park, because McCracken wants to put in roller coasters. Despite the inept efforts of the zoo security staff, but with help from his parents, can Teddy solve both mysteries and maybe (finally!) get the girl?

Strengths: Really solid, clever set up of clues to the evil doing, and great use of setting. I'm not usually a fan of figuring out mysteries, but this was really top notch. I also thought it was touching that Gibbs gives a nice shout out to the late, great Donald Sobol by comparing Teddy to Encyclopedia Brown. There is plenty of action and poop when animals escape, which lightens the tone a bit.

Weaknesses: Teddy was out of school a lot while he was solving the mysteries. I worry.

What I really think: I'm completely okay with this series going to about 8 books, but I think Gibbs can certainly do other good books as well. Looking forward to them!

All Stuart Gibbs books are awesome

Teddy Fitzroy solves another case at FunJungle. A rifle shot is heard. The elephants are stampeding. Someone appears to want to kill off the rhinos - could it be poachers? The horns are valuable. J. J. McCracken wants it stopped and this time he asks for Teddy's help! Then Large Marge appears blaming Teddy for

vandalism at the candy store and the ice cream parlor. Teddy and Summer are almost eaten by the huge crocodile. Lots of fun in this mystery along with some great animal facts. Not a spoiler but large Marge comes to a sweet end.

Stuart Gibbs creates another clever mystery!

This book was flat out amazing! It kept me on my toes right up to the very end! It is another non fantasy (If a bit unlikely) book that ended up turning out amazing! If you are a fan of non horror mystery books such as *Spy School* which happens to be by the same author then you will absolutely love this book. This book is like spy school because it keeps you on your toes and then... In the 2nd to last chapter the ending comes along! A fair warning: If you don't want to stay up late reading because you can't put this book down then this may not be the book for you! Well, you have been warned! This book is about a young detective named Teddy, whose parents work at FunJungle, the theme park, zoo, and playground for one of the world's richest men: J.J. McCracken. Sadly FunJungle hasn't been exactly crime free the last couple of years but (view spoiler) (don't read the spoiler unless you have read the last two books in the series). But now there is a worse problem than ever before, someone tried to shoot one of the rhinos and missed by less than a foot. Not just any rhino, this is a pregnant rhino. In addition to this the sniper had to have been a trained professional to take that shot. Will Teddy be able to stop the poacher before it's too late? Or will will the poacher escape with the horn that he appears to want so badly? Have fun reading! :)

Eric says

Teddy must find out who is shooting at the rhino's and Teddy was told to find the shooter.

In the next book in this series, coming out in Spring 2017, there should be like a school dance. (Teddy and Summer!) The next book will be about a panda. <http://stuartgibbs.com/2015/08/24/thi...>

Great book!

This book had a twisted ending that I had not expected that would happen!!! I could not believe that Hondo and Athnami were the poachers!! I knew Athnami had something to do with the rhino assassination attempt, but Hondo!?!?!? Oh my gosh!! Can't wait to read FJ4! This series is absolutly one of my favorites!!

Heidi says

When I read mysteries one of my favorite things to do is to try to predict the ending, to see if I can figure things out before I get to the end. Interestingly, the books I like the best are the ones that aren't so easy to predict, or the ones that I might get wrong or at least incomplete. That is one of the things that I like the best about the funjungle mysteries by Stuart Gibbs. After reading the first three books, I still haven't been completely right about the guilty parties. And while I did get one of the villains in this book, I was stunned by who the other one turned out to be. And of course, Teddy is entertaining as always, especially when he combines forces with Summer McCracken (Fun Jungle's owner's daughter). And in addition to the fun mysteries and plentiful action, Gibbs also manages to integrate a lot of fascinating animal information into each story.

Teddy manages to get into more trouble than most kids and Marge's, a security guard, efforts to catch him doing something wrong (regardless of whether the evidence points his way or not). And all this trouble certainly complicates his efforts to solve the mystery of who is taking shots at Rhonda, the pregnant rhino. And the additional chaos caused by a vandal breaking into various eateries in the park which leads Marge right to his door gives Teddy another mystery to solve. The various relationships between Teddy and his friends, Teddy and his parents (great relationships--this is one of the few middle grade books where the parents play an important role in the story without interfering in the main character's place in the story), as well as Teddy and Mr. McCracken all play an important role in the story. Another fantastic mystery that middle grade readers are bound to enjoy.
