Dawson Fur Hire

T.S. Joyce

Dawson Fur Hire T.S. Joyce

Dalton Dawson is reeling on the anniversary of an event that changed his life forever. All he wants to do is hide from his past for a few days, but in walks trouble in the form of a timid human who has his heart thawing for the first time in years. He's not looking for a mate, but Kate Hawke is a fascinating and complicated woman that his wolf is desperate to figure out. Convinced she is just a distraction for his spiraling inner animal, he allows himself to watch her from afar, but what he learns about Kate could change everything and send him on a path he can't return from.

Kate has been burned by a shifter before, and now Dalton Dawson is following her. One look at the growly, bright-eyed stranger and she knows exactly what is lurking inside of him. Sure, she's scared and she knows better than to get into a friendship with a werewolf, but Dalton is tearing down her walls one by one. Dalton makes her feel safe and empowered, and it's been a long time since her future looked so bright. But as both of their pasts come back to haunt them, she'll have to decide whether Dalton is really the safe choice when it comes to protecting her heart...and her life.

Content Warning: Explicit love scenes, naughty language, and piles of sexy shifter secrets. Intended for mature audiences.

Debbie says

Wow! Okay, I think this one is my favorite of the series yet. I know the ending was the best so far.

We get to know Dalton so much better this book. Not only is he hot and protective, but he has deep feelings and was hurt badly in his past. Kate is the perfect mate for him. She'd been hurt in her past too, and Kate understood so much and never judged him because of what he was. I loved how all the characters from the previous books came together for each other. They are definitely a mixed family, but a family that loves hard and completely.

Chance is the final book in the series and I can't wait to see who his mate will be.

Lady Heather says

This book actually made me cry...twice!
Damn, I really liked Dalton Dawson's character.
This was by far my favorite story in the series.

MacKenzie Paxton says

I have enjoyed following this author over the past year or so. Every new book is a little better than the last. A little deeper, a little more layered, a little more adept at pulling emotions out of the reader. She is on my short list of authors I will buy anything from - the day it drops - and read it immediately (sometimes even if I'm in the middle of another book.)

Dawson Fur Hire had some shocking moments. A few times, I was worried that the train was going to leave the tracks and the story wouldn't turn out the way it should...but I shouldn't have doubted Joyce. I laughed out loud, cried more than once and finished it with a smile on my face.

Safety Gang: there will be a moment where you might pause and think you have run into an unsafe plot twist. DO NOT BE AFRAID. It is not what you think and you will breathe a sigh of relief when it is worked through. (view spoiler)

Misty I Otto says

The best

I didn't think this series could get any better. I was proven wrong. This story was a great addition and I can't wait for more

Arielle Pettis says

Ahh

Omg I loved Dalton's story! Kate is an amazing mate, and I can't believe what they had to endure to find one another. I can't wait to see what happens next!!

Gwen (The Gwendolyn Reading Method) says

hmm, not my favorite of the series. At 169 pages, the story just felt a little short and also lacking in interpersonal tension after the halfway point. But still, heartwarming and still enjoying this series!

BJ says

Good but for the 1st time, I didn't love the characters. The h was odd, not quirky, but sickly sweet, sweet, and we and she are told about her being submissive. But she kept openly pushing the H for more - didn't seem that submissive to me, nor were her actions in one of the opening scenes. The H felt weak too, thinking his woe was worse than others - well at least once a year, and even when the bad guys showed up, it was because he wasn't with her. It felt as if someone else had written it- very odd book for this author and this series.

Susan Burgess-Ryan says

ABSOLUTELY WONDERFULLY FABULOUS BOOK!!!!

OMG!!!! What can I say? I am at a loss for words here. "Dawson Fur Hire" has to be the best seller of the year next to "Wolf Fur Hire." While reading "Dawson Fur Hire" I felt so many emotions and I am still feeling some of those emotions while reading "Chance Fur Hire." All can say if this book does not hit the best sellers list then there is something bad wrong with all of readers out there. This book is an absolute must read. I cried, I laughed, I fell in love, and I wanted to kill (actually without giving anything away, I still want to kill a certain somebody). Any book that can make a person feel so much emotion deserves more than an damn 5 stars. There aren't enough stars to rate this book. This is an absolute must read.

Dalton Dawson is a werewolf shifter, and guide for Jenner Silver's tour business. It is the anniversary of a very tragic day in his life and he just wants to drink and be alone in his own grief. He is by no means looking for a mate. He is trying to drink away his sorrow and in walks TROUBLE in the shape of a tiny Human who begins to melt the ice he had built around his heart. As he begins to learn things about Kate Hawke he starts to watch out for her from afar. But even that begins to get hard for him to do. His wolf is wanting to be close to her. Is Kate going to set them both on a journey that they will not be able to come back from?

Kate Hawke is a shy, and timid person, but she has a good heart. Having been burned and abused by Miller McCall and other shifters it is only natural she not trust shifters. Even though her inner self tells her not to

get involved with Dalton Dawson, a werewolf, and that she should be afraid of him, she isn't afraid of him and begins a friendship with him. She wants him to hang around her because he makes her feel safe and secure and it has been ages since her life has seem to have some light in it. With her past trying to catch up with her, and Dalton wanting to protect her, he makes a deal with the DEVIL, and it could come back to haunt him. If it does, can he protect them both?

No spoilers given. You definitely must read this book.

Hollie says

This has really turned out to be a great series

~4.5 stars~

I am so glad that this writer has continued the series to include the wolf pack. This story, like the others, was sweet and heartwarming. The plot execution was well paced and nicely executed. The characters were relatable and charming. I also love that this writer offers her books as kindleunlimited. Can't wait for more!

Amanda says

If you don't like this book then you are probably someone who hates puppies, ice cream, fluffy little baby animals, naps, and chocolate- aka a horrible person.

Loved the book, and now there's only one story left in the series. I'm not dealing well with that, I'm still getting over her last series being over. I may need a support group.

Luz Maria Valle says

Dawson Fur Hire

Gave it a five star rating. Loved the story. Can't wait to read the next book in the series to find out what happens next.

Carrie Hasty says

Much love.

All of these the whole series and the others are must read, I mean alpha male my favorite of all. Loved every bit of it and can't wait for the others to come out. All the books by the author are a must you wouldn't be able to put them down till you finished.?

Kasey Riley says

Wow...what an ending

I've read all the books in this series but with a long break between the last and this. Each is enough of a stand alone that the intervening time caused no problems. This story was sweet and endearing and built to what was, to me, a completely unexpected ending. It had my heart racing and as it unfolded, I was amazed at who/what was the final villain. Good job!

M4queen says

Good follow up

Good follow up. Nice to see Dawson get his happily ever after. Kate definitely deserved it. Nice to catch up with the crew. Can't wait to read the next one.

JLOluvsbooks&dogs says

Ready for my own shifter

Excellent series! I'm excited and sad at the same time for the final story in this series with Chance's story coming soon. Each one has a different mystery or bad guy, yet they feed up into a bigger conspiracy that connects them and it's wonderful writing. Keep the adventures going! If you haven't started with this series yet, what the heck are you waiting for?

I highly recommend though that you start at the beginning with Husband Fur Hire. The rest make sense and you get the full effect if you go in order. I thought Elyse in the first book would be my favorite heroine but I have to say that Vera in Mate Fur Hire is definitely the top now of my favorite list.
