## I See You Molly McAdams

*New York Times* and *USA Today* bestselling author Molly McAdams' powerful new novel offers one of the most memorable love triangles in fiction since *Twilight*—perfect for fans of New Adult fiction like Jamie McGuire, Abbi Glines, and Tamarra Webber.

*Futures are uncertain, unpredictable—like ink spilled across the purest surface. Nearly imperceptible ripples move and flow until a unique stain is formed. The ink is permanently imbedded in the surface...*

During one wild night in college, Jentry Michaels is a tidal wave of ink that brands Aurora Wilde's soul. An unparalleled stain she can't forget despite the many months that have passed—and despite the distraction she'd hoped she would find in her new relationship with Declan, the charmer who captured her heart soon after. Jentry has irrevocably touched her soul, and he is intertwined in her present and future in ways she never fathomed. Now Aurora is faced with keeping that night hidden though it feels as if the ink has indelibly etched their story across her skin.

When Declan is confronted with his own personal demons, Aurora must decide if she will continue to hold tight to their relationship and a safe, reliable future with him, or if she will turn to Jentry—the guy she can't forget no matter how hard she tries....

Actual Rating: 4.5 Stars!!

“Jentry was a weakness. An addiction. One my body and soul would never be able to get enough of, but one I would have to fight against in the coming weeks and months...who knew how long. Because no matter how much we needed each other, needed this, there were other things far more important than us that needed to be addressed and cared for first.”

“I tried to forget that night...I tried to forget you, but somehow you embedded yourself so deeply into my soul that in just one night, that forgetting you—forgetting that night—was impossible. I don’t need a lifetime with you to know that no one and nothing will ever compare to what’s between us.”

“She was light and I was dark. She was bliss and I was man dying. Need was too weak of a word to describe what was coursing through me.”

I See You is a beautifully written and captivating story. As someone who is honestly not a fan of love triangles, I will be the first to admit that I try to steer clear of them when it’s possible. But, there is just something about Molly McAdams writing that makes me want to read her stories. I know her stories are going to be tough. I know they are going to pull at my heart and send my emotions flying all over the place. Knowing all that, I still can’t help myself from picking up and devouring her books.

I See You is told from multiple points of view and is a stand-alone read. Jentry and Aurora meet by chance and spend an amazing night together. A night that many would forget, but seared itself into their souls. Aurora couldn’t forget about Jentry, but didn’t know his name. And when she decides to go searching for her mystery man, she finds Declan instead. Declan was everything that Aurora could ever want and need. He was perfection and stole her heart....That is until fate had other plans and Jentry blew into town with a twist that no one ever saw coming.....

I See You is one of those stories that just pulls at your heart and makes it impossible to choose sides. It is a story about love; the different types of love. It is a story about fate and circumstance. It is a story of soulmates and a love that will never die. Aurora, Jentry and Declan’s story is in no way an easy one. It is filled with lots of emotion, frustration, family drama, love and heartache. Their story will have twists and turns that you won’t see coming. You will be on the edge of your seat, wondering how it will all play out in the end....Molly McAdams, you have written another beautiful story and I can not wait to see what journey you take my poor heart on next.

### Debbie I Heart YA Books says

My first read by Molly McAdams was the Taking Chances series and I fell in love with Harper, Brandon and Chase. And yes, it was a love triangle. I still cry over Chase to this day. I’m one of the few readers who loves the insanity of a love triangle romance, and Molly McAdams is the absolute queen of love triangles.

McAdams has won my heart again with Aurora, Jentry and Declan's romance in I See You. These three beautiful characters had my heart swooning and my emotions in a mess. Oh, but how I love a heart-wrenching, emotional roller-coaster ride and Jentry and Declan trying to stake their claim for the woman they both love is definitely worth the ride.

It's Rorie's (Aurora) senior year in college, and for just one night she didn't want to be the good girl that she was known to be. For one night she wanted to let loose and not worry about the consequences, but the mystery guy she chose to be her one-night-stand haunts her every thought long after that night. Rorie tells herself it was just a night, that's all it was supposed to be, and anyway she'll never find him again. Rorie tells herself she has to move forward and forget him. If only it was that easy.

Jentry and Declan are both beautiful men, and I love both of them in different ways. Jentry is a Marine; he's returning home after being deployed for a year. He's also Declan's best friend and adopted brother. Rorie's one attempt at being rebellious a year ago was definitely not her smartest decision, when the man who has haunted her mind and body for the past year ends up being the brother of her now boyfriend, Declan. Damn those consequences, always coming back to bite you.

As I said at the beginning of this review, Molly McAdams is the queen of love triangles and I See You is another beautiful love triangle romance that grabbed me by my heartstrings. Aurora, Jentry and Declan's emotional romance is a must read.

(P.S.)

I have to add that I'm Team Jentry all the way. Jentry had my heart from the beginning till the end of this awesome story. Jentry is a badass, rough marine and because of this he is intense. Jentry loves Rorie with a hard and soft love and the man totally melts my heart with this hard and soft way of loving Rorie.

Rorie's Teaser Quote from I SEE YOU

Hard and soft. I knew I would never have one without the other, and I wouldn't want it any other way. Because this sweet, tender side of him was just as incredible as the body-numbing sex.

"Too much ANGST about nothing"

At times, this was even worse than "Santa Barbara", "Dynasty" and "Dallas" re-runs combined...

So, the plot starts when **Aurora Wilde** has a one NIGHT stand at a frat party with **Jay** (who isn't actually Jay but I'll get to that later) and that's what they both go along with...

He tells her he's leaving, she thinks it's a "line", but she plays it out anyway...

So, this ONE night is so fuckin memorable...that she goes searching for him the next week...at the same frat house party and meets **Declan**...

Fast forward 10 months, Aurora and Declan are a couple.

And they are living together, and she has to put up with Declan's mom Linda, who can't stand her and is making her life miserable, and then, he enters the pages...**Jentry**, Declan's brother, actually adopted brother, who's coming back from his fourth tour as a Marine.

and then you can put one and one together...hence **Jay is Jentry**.

And since that ONE night was such a fuckin blast,

***I tried to forget you, but somehow you embedded yourself so deeply into my soul in just one night, that forgetting you - forgetting that night - was impossible.***

Jentry (Jay) whatever the hell your name is, is still thinking about that violet-eyed girl that rocked his world (literally and figuratively) 10 months ago, and now, she's in front of him, and she's his brother's girlfriend.

\*gasps\*

Now, If that isn't a set up for ANGSTY feels, i don't know what is.

I had to try real hard to keep my nerves at ease, since i went into this blind and figured out about the fuckin love triangle, and that is actually one of the rare subjects that really goes on my nerves...I was like, well, fine...I might as well finish it when I already read it as far...

And then the drama...people the drama, unnecessary drama, cause the characters DO NOT COMMUNICATE, well fuck it, you gonna have huge problems if you don't speak up...

So, there's your plot.

No communication. - in a sense neither of them is actually stating their real feelings when they should be speaking up and standing up for each of themselves...regarding the real issues and the issues regarding the right people :/ (i had to clear this up...so you wouldn't think they dont speak to each other lol)

Annoying situation(s).

Unnecessary sacrifice - for the sake of the peace in the house (that is one of the most stupidest reasons to bear any situation, much less the abusing, psychologically mobing one)

And the pacing - we have three stages through out the book...as it's describing THAT ONE NIGHT, than jumps into the sphere ONE MONTH AGO and then THE PRESENT DAY...

It confused the fuck out of me!

and it's seems I was wrong when the character's say how that ONE NIGHT of sex changed them profoundly...as the moment they saw each other they actually SAW each other...

***I knew who you were that first night, Aurora. I didn't need to know your name, or your***

*friends, or what your favorite color was to know you.*

and sure, i get it, cause after THAT ONE NIGHT of sex has been dragged through out 300 and more pages...

I fucking SEE you too! More than I ever wanted to...

[image error]

**and let me tell you this too, all that shit of an angst you dragged out, it's not worth the pain and waste of air, It could have all been handled with just one sentence...**

## Cyndi Becker says

I haven't read all of Molly McAdams books, but the ones I've read have always left me shredded. The stories tend to center around love triangles so it's justifiable I would feel worn out and hung over after reading one of her books. It's exactly the the kind of angst that I love and hate. I See You involves a scenario that can only lead to heartache for all involved and McAdams delivers on that oh so well. At the center of this story is Aurora, Declan and Jentry, a triad of characters in one very uncomfortable situation.

The story is delivered through time line changes (past and present) in various increments and from multiple view points. This 360 view is one of my favorites as we are in our characters deepest thoughts. What makes this story, aside from the complexity of the situation is that the characters are all deeply flawed. I found myself changing my stance on what I thought should happen multiple times.

Aurora is a young women trying to move past meeting someone who captured her soul, only to find out he is very much a part of her present only in an entirely different role. She's tortured by this and unable to share this secret with anyone but him, Jentry. Declan, Aurora's boyfriend is hiding something and is in general "absent" from their relationship. Amazingly enough, Aurora battles a bigger issue with Declans mother Linda. Linda is so easy to hate. And I did. She's manipulative, intrusive and all around just horrible. There were many moments I wondered if Declan was worth what his mother puts Aurora through. My vote was no, he wasn't. This was the one thing that made me crazy. Aurora doesn't stand up for herself enough, and Declan seems to not even see how his mother treats her. It's Linda too that drives much of the story line, much of the drama and the feelings of dread that I experienced. All I could think was poor Aurora.

Unfortunately for Aurora, there is no escaping Linda. But Jentry is worth it. He is completely endearing and very much worth the fight. Even with his small secretive past he manages to be the one bright spot in Aurora's life. For all the drama and dread, McAdams manages to make this read sexy and fun during the flashbacks to "That Night...". Plus, Jentry is just such a gentleman, authentic and earnest, he's the obvious choice for hero.

There's much activity in this story and in general McAdams makes it easy to follow. It's not always plausible, but it's not so far off the mark to make it contrived. I See You took my heart on a wild ride. Be prepared for drama and some love-hate moments. 4 Stars and recommendation!

Another out of this world read from Molly McAdams. I was absolutely intrigued with this book and once I started I couldn't put it down.

What if you had the connection of a lifetime with someone, but never saw them again. Or at least you thought you would never see them again. And in the meantime, you found someone else that you had a connection with, that you loved but there was still just something missing.

For Rorie Wilde - she never thought she would see "Jay" again. They shared a magnetic night together, but the next morning he was gone. When she goes back to look for him the next weekend, she meets Declan and they hit it off and start dating.

What she never expected was for "Jay" to walk back into her life. And now she doesn't know what to do. Follow her heart and go with the guy she hasn't been able to stop thinking about for the past year or stay with the man who has shown her love and has always been there for her.

You're emotions will run high while reading I See You. My heart broke for all three of them as they navigated through the what nows. This book goes from the past to the future in the different stages of all their relationships so you get a good detailed account of everything that happened.

You can't go wrong with a Molly McAdams book and I See You is another top read for me!

5 Quentin Tarantino Stars

Molly McAdams is the Quentin Tarantino of contemporary romance. But with less blood. And more angst. And internal pain. And more sweet tea. Lots more sweet tea.

I See You breaks the time space continuum. It goes forward and back in time. Don't worry, you'll catch on. Just go with it. Know that there are some things that the characters know that you don't. Just like middle school, everyone else seems to have insider information I didn't.

Aurora/Rorie hooks up at a college party. With the dark, brooding sexy guy in the corner. The bad boy who tells her this is a one night stand. Now Rorie is not really a One Night Stand Kinda Gal, but she wants to be

different. Be *that* girl for one night. Just one night.

**I wanted tonight with him. I didn't want his life.**

Declan is the guy Rorie met the next weekend. The nice guy. The one that can give her the life she wants. The guy who loves her. Loves her and stays. Not the guy who leaves. That's who she needs.

**"Welcome home", Declan murmured into my ear as wrapped his arms around me and pulled me into his chest.**

But this is a Molly McAdams/Quentin Tarantino book. So you know it is not that easy. Oh Hell No.

Jentry (Hydra head #3) comes back home from the Marines. You can guess who he is, right? I mean it is right there in the blurb....this is a TRIANGLE. A triangle as only Molly can do. A triangle with three points that are sharp enough to cut you. Shred you.

**Because I fell in love with you the night you took my soul.**

Oh My Gawd....shreddddddd.

I hurt for Rorie. She wants to do the right thing. But the *right thing* for who?

And let me just warn you.....Linda. You will want to throw ninja stars at Linda.

I See You will take your guts and spread them around in a decorative pattern. You're favorite reading chair will be reupholstered in Post Modern Angst. Molly finds new ways to torture her characters and by extension....her readers.

**Falling in love with you was the easiest thing I have ever done, but figuring out how to start our lives will be the most difficult.**

Difficulty degree:10

From the East German Judge.

If there still was a East Germany.

I can't tell you too much about the plot because I want you to be as damaged from reading it as I was. I will tell you there is bread pudding, texting, cold sand, not so quiet whispers, hidden boxes and tiaras. Oh, I almost forgot.....pain and regret. Bread pudding with a hearty side of pain and regret. Don't invite Molly McAdams to family dinner. Or at least don't ask her to bring dessert.

## Hms says

Molly McAdams does love triangles like no-one else. Rorie (Aurora) wants one night where she isn't the good student, friend and daughter, she wants passion with no strings and she finds it at a Duke University party with "J" a gorgeous stranger. After her night with the tall dark stranger, Rorie is haunted by his dark sinful eyes and deep raspy voice. Determined to find him again, she goes back to Duke in search of the stranger and falls right into the arms of Declan. Handsome green eyed Declan is perfect on paper having just graduated, has a great job lined up and wants to marry and have children with Rorie. After scoring a teaching job in the same city as Declan, they move in together to begin their life. Well, they would if Declan's evil bitch of a mother would stop popping by with her key (seriously, change the fucking locks) and making Rorie doubt and loathe herself at every turn. Linda doesn't want Rorie for her son and will stop at nothing to drive Rorie out of her son's life. Even though she is miserable and very much down on herself, Rorie goes out for what she believes will be a fun date with Declan and a blind date for her best friend Taylor, but she sees those eyes and hears that voice and Rorie is sent into a downward spiral. With enough angst and tears to fill the state of Texas, this one will take you on a rollercoaster ride. For those readers who dislike moving from one period of a time to another, this book will drive you crazy. The author flips from "That Night" to "One Year Ago" to "Two Months Ago" to "Present Day" and I found myself going back to figure out the time line more than once, and frankly it was just plain confusing at times. My only other criticisms are that the heroine cried too much for me but I guess I am an emotional cripple, and "J" was just a little too perfect.

## Lindy says

My Thoughts:

I See You is a new adult romance all about tough decisions, bad timing, animal attraction, and overcoming tough odds. It is a story written in typical Molly McAdams fashion with a lot of emotion, angst, and a whopping love triangle that will tear at your heart.

Aurora "Rorie" Taylor has always been a "good" girl, who is responsible and dedicated to her studies to become an elementary school teacher. Her senior year of college, she decides to go to a party to be someone else for the night. She ends up meeting "Jay," at the party. He is gorgeous, intense, and has an appeal that Rorie has never experienced before. They spend one unbelievable, life-changing night together. Rorie can't get him out of her mind. However, when she goes to a college party the following weekend looking for "Jay," she doesn't find him.

Instead she meets, Declan "Dec" Veil. Dec is sweet, charming, fun, and attentive. Their relationship develops pretty quickly, and soon they are moving in together. However, Rorie can never forget Jay, and oftentimes finds herself fantasizing about him. She feels guilty, and is determined to make things work with Dec, but can't help the way she cannot get her one night stand out of her mind.

Dec's adopted brother and best friend, Jentry Michaels, is finally getting out of the Marines, and Dec can't wait for his girl to meet him. Rorie is excited as well because she's heard all about Jentry. She is curious what he looks like, because she hasn't even seen so much as a picture of him. Dec's mother, who is the monster-in-law from hell, refuses to show Rorie any pictures, so you can imagine her shock when she see's Jentry for the first time, and realizes that he is her "Jay."

Jentry never got Aurora out of his mind. The night they shared together was life-changing, and he hasn't touched a woman since. As Dec constantly talked about the love of his life, "Rorie," Jentry never made the connection that Rorie was "Aurora," the name she introduced herself to him as. Now to complicate matters, Jentry, is staying in the guest bedroom of Dec and Rorie's apartment, until he can find a place of his own. Jentry vows to stay far away from Rorie, because he could never betray or hurt his brother and best friend. How will Rorie and Jentry resist the magnetic pull towards one another? Who will Rorie end up with, and will the three of them be able to survive the fallout of secrets revealed and irresistible temptations?

I See You was a good read. I always enjoy Molly McAdams stories, and this one was no different. It was a page-turner, that had me interested to see how everything would turn out. Dec and Jentry's mother was the very definition of monster-in-law, and drove me crazy! She said horrible things to Rorie and the things she did had me seeing red, but she kept the story that much more interesting. I wanted Rorie to stand up to her, which she did not do, and that irked me to the core! Dec didn't do a very good job of putting his mother in her place either, which annoyed me.

As far as side plots go, we also get to know Jentry's troubled biological sister, Jessica, and the dysfunctional and abusive family unit they came from. This contributed to Jentry fearing that he would turn in to his father, which as a reader I had no fear of happening, but understood why this haunted him.

My Rating:

I give, I See You, by Molly McAdams, 4 Magnetic Attraction, Unforgettable Night, Tough Decisions, Angst & Heartbreak filled Stars!

3.5/5 stars

Initial thoughts:

I really like Molly McAdams so I was so looking forward to reading this book.

1) The tagline is "one of the most memorable love triangles in fiction since Twilight". Um no. I actually really like love triangles. But the key is that both love interests have to be equally viable choices. This was not the case here at all.

2)The book jumps all over the place in terms of time. I am not a big fan of going back and forth in time. But for it to work for me I need all the time periods to be equally interesting. In this case the book goes between one event in the past, a year before, 2 months before, 1 month before, and the present. It was so confusing to me that the story jumped all over the place. I wish we had just one scene from the past and then had the story move chronologically in time. There was one interesting reveal that I suspect was the main reason for this back and forth in time. But overall it just didn't work for me at all. At around 50% the story moved to the present. And this worked much better for me. And I enjoyed the book a lot more from that point on.

3)Declan's mother Linda was the most awful character. Wow, I didn't realize that I could dislike someone so much.

\*\*\*\*\*

The book is a New Adult contemporary romance. It is divided into five parts. The book goes back and forth in time a lot.

The narrators are Aurora and Jentry.

The book begins with a night that took place approximately 13 months ago. College student Aurora/Rorie meets a stranger and has an unforgettable night that she can't forget.

Shortly after that night she meets Declan.

The book blurb mentions that this book has a love triangle. I actually really enjoy a good love triangle where fans root for one of the two guys, but you do not actually know who the girl will end up with. I think there was so much potential in this story for this to be a real love triangle. I didn't really get the insta-love that Rorie feels for the stranger. I wish that her feelings had been equal between both guys so that we as readers could choose our favorite.

This story goes back and forth in time a lot. The book goes between: the night in the past, one year before the present, 2 months before, 1 month before and the present. I did not like this at all. I am not a fan of books going back and forth in time. However, for me to like it both/all the time periods have to be equally interesting. In this case it wasn't that the time periods were not interesting (although I did not care at all for the scenes from the night in the past where Rorie met the stranger). But it was really confusing. Especially between 1 month before and the present. Those time periods were so close that it was hard to remember which I was reading about.

There were a few reveals that were pretty good. It was interesting how things had happened one month ago, yet we were not aware of them in the present. I do believe that was one reason the author wanted to tell the story this way. However, I would have much preferred to have just had the story told chronologically. It would have been much less confusing and I think I would have responded more to the story.

The second half of the story was told all in the present. And I liked it much more. There was a lot happening in the last half of the story. And I enjoyed it.

Declan was very close to his family and his mother Linda was one of the key characters in this story. She was such an interesting character. It's easy to dislike rapists or people who hurt others. But Linda was basically a loving mom who raised a big family. Yet the way she acted towards Rorie was unbelievable.

Overall, this book got off to a very rocky start for me. But the last half of the book was full of twists and enjoyable story-telling.

Thanks to edelweiss and William Morrow Paperbacks for allowing me to read this book.

The blurb called to me, and while I enjoyed this one it was a bit of a slow starter. The time jumps were frustrating at times, the pacing in the beginning led to me disconnecting from the story and while the second half was addictive reading it was still a hard push to finish. I enjoyed it, just didn't love it.

**☆ Bianca ☆ BJ's Book Blog ☆ says**

About a year ago Aurora - Rorie - wanted to be wild for one night. She was sick of being the good college girl. And that one night ended up being the most amazing night of her life. She had an unforgettable time with Jay. No more details about names or anything were given, it was just supposed to be one night.

But she never forgot him. Even now that she's so happily living with her boyfriend Declan.

And then suddenly Jay - real name Jentry - is back. And it couldn't be any worse. He's Declan's adopted brother and best friend!!!

How can she live with herself if she doesn't tell Dec about that night? But what should she say? That it has been the most amazing night of her life?  
She doesn't want to hurt him. But she also doesn't want to lie to him for the rest of her life....

Another thing on her mind... her future mother-in-law Linda. She's the most horrible and snobby person ever. She's belittling and insulting Rorie every time they see each other - which is pretty often, because mommy dearest has a key to their apartment!!!

**What will happen to Rorie and her guys???**  
**Will there be a Happy Ever After??**  
**OR WILL THERE BE A HORRIBLE CLIFFHANGER?**

**I'm not telling you that!**

**No cliffy of course!**

??

**WAAAAAAAA - what did I do?!?!**

Why did I read this book? I HATE love triangles!!! Someone always gets their heart broken or dies or both....

But I love Molly's books, so I had to read it! ?

And it was ok!

For my already very confused Bookalzheimer brain it was very confusing at first, because every new chapter takes place in another time: 2 weeks earlier, 1 month earlier, present time, one year ago et cetera. ? But you quickly get what's what.

But I still hate love triangles and I never want one of the guys to get hurt. But it has to happen. I like those triangles when one of those guys is a bit mean or horrible. But that's not what happened here.

You're sorry for Declan, because you're always pretty sure that Rorie will end up with Jentry. And you want to fast forward to the end, so that you miss seeing how hurt poor Declan will be.

I will never be a fan of those books, but it wasn't as bad as it could've been. ?

Jentry and Rorie are so adorable and perfect for each other - it only takes them the whole book to get together :/

If you like love triangles this will be your kind of book.

I didn't hate it, but I didn't love it either.

I still rate it 4 stars because it's not the book or author's fault that I don't like love triangles!?

I SEE YOU was a very moving and interesting love story. Run to your nearest amazon to find out how and with whom Rorie will get her Happily Ever After!

## **Ezinwanyi says**

The blurb and cover alluded to a more intriguing read than the actual story ended up delivering. It was okay but I have read a very similar new adult plot so I knew the ending at the very beginning.

It started off with a wild night between two strangers and then had them officially meet after a year. Unfortunately, Aurora Wilde was living with Declan, the brother of her one night stand, Jentry Michaels.

I feel like the author had already positioned and continually maneuvered the reader towards the brother Aurora ended up with. First of all, it's hard to root for a man who lets his mother treat his girlfriend the way Declan's mom treated Aurora. The fact that the whole family, father and sisters, stood quietly by observing such vile behavior already poisoned them in my mind.

Also, there wasn't enough interaction between Aurora and with Declan to really show the chemistry and intensity to rival the passion she shared with Jentry. I am convinced that Declan knew from that first day he introduced Aurora to Jentry that there was something going on. It just became a matter of time and what would be the casualties when Jentry and Aurora claimed each other.

This story would be stronger if the author developed the characters much more. The The writing was okay but I didn't like the time jump, 13 months ago, present time, That night, 2 months ago etc. The flow of the story felt disrupted with the back and forth with the characters. I was expecting more of a love triangle than it ended up being.

The last scene with Declan's mother and Aurora was such BS. No way would that be sufficient. I don't see why Aurora never stood up for herself then or at the end. I would have respected Aurora if she told her to get out.

Overall, this book was underwhelming. The characters and overall story was too undercooked to truly move me.

*\*Special Thanks to LibraryThing for the book given in exchange for a review.*

I despise love triangles and all the drama that comes with them. But there was something about this blurb that just drew me in and made me want to give this book a chance. I'm really glad that I did because I ended up enjoying this story!

One night of being wild changed Aurora's life and she didn't even realize it. A year ago she decided to stop being the good girl and had one night to walk on the bad side, spending it with a man she only knew as Jay. They walked away from each other that night with no plans to come in contact again. But that all changes when Jay aka Jentry shows up in her life. Oh and just happens to be her now-boyfriends adopted brother.

I had an equal amount of things that I liked about this story and what I didn't like about it. What I enjoyed

was how gripping the tale of these three characters was. I was nervous going into it because I really wasn't sure how I would handle a love triangle book but it ended up being very interesting and the main thing that had me so focused on it. I really liked how there wasn't that one guy that was made out to be the "bad guy" and the one we all hated in the love triangle. Instead i ended up feeling for both Jentry and Declan and didn't want to see either of them hurt.

What I didn't like and what made me lose a bit of focus was the time jumps. I don't like going back and forth in books and have only read a few books that did that that I ended up liking. But in this book I just couldn't get into the past story and didn't understand why it skipped in weird increments of time. We had the present and then the past from a year ago, to a few months in the past, to a month before. It just seemed off to me and I found myself skimming some of those parts because I just wanted to get back to the present.

Overall, even with the issues that I had while reading this I still very much enjoyed the story. I know not everyone likes love triangles but I still say to give this book a chance. If I can read this and end up falling in love with the characters then I definitely think it's worth everyone else giving it a chance.
