Kendra says

<3 Yes please more

Xanthe says

So very sad that this is the last Patsy Walker, AKA Hellcat volume! This series was so cute and fun, even though it had its serious moments, Patsy and her friends are so delightful, diverse without being heavy-handed, and so supportive of each other. The wacky hijinks are intermingled with their personal stuff and superhero backstory is referenced gracefully. I'll miss this series going forward, but what we got was full of great moments and adorable artwork. Highly recommended.

Ariel Cummins says

Marvel, please stop canceling great titles. Thanks!

Alex Sarll says

At once finished before its time and, these days, a surprisingly long uninterrupted run for a Marvel book. Perhaps pitched a little older and queerer than Squirrel Girl, but very much in the same cheerful, goofy, inclusive vein, this series has been delightful throughout and I hope will find many more readers in the trades. Though the singles were worth it for all the cat pictures in the letters page, and in particular for the final letter in the final issue, which praises the comic for taking on biphobia and was written in Bend, OR. Yes, I am easily amused.

Kristina Feeney says

it's almost as if this volume was written specifically for me. It references Wham! and Interview with the Vampire. It just needed some Howie Mandel.

Chell says

Sad to get to the end

This was such a great series to read. It was funny but also dealing with real life issues. Patsy is so interesting. I love that she gets stressed because she takes on too much. I love that sometimes she had problems opening

up and sharing. But she is also so caring. She's such a great character who feels so real. I'm going to miss Patsy and the gang but I'm so happy to have read this series.

Chris Lemmerman says

[Read as single issues]

It's Patsy...for the final time. With one last volume, Kate Leth and Britney Williams' Hellcat says goodbye - but not before putting Patsy through literal hell as all of her evil exes turn up for revenge, thanks to an ill-advised Hedy Wolfe plot.

I'm very sad to see this series go, but it gets a very good send-off in these final issues as Patsy and her friends come to the ends of their respective character arcs. The absence of She-Hulk is noticeable, but Jubilee fills in quite nicely and offers some good visual jokes thanks to her vampire-ness.

Hellcat! has been one of those shining lights at Marvel, where they show that they're willing to try different things. I hope this one sets a precedent for some more books like this (and there already are quite a few) - slice of life/superhero action combos. Great stuff.

Murphy says

I'm really disappointed this series ended so quickly, because it was a great experience to read for multiple reasons, one of them being how LGBT characters were featured as being accepted and cared about throughout the stories.

The last few issues were cheerful but also had meaning to them, and I'm glad that the writers were given enough time to be sure this volume ended on a high note.

It's a shame the comic wasn't able to continue, but at least since it's short I can probably convince more of my friends to pause from their already established reading lists and give it a chance. I'll definitely read it again myself.

Paul E. Morph says

What?! Marvel have cancelled another of their hipster-bait books?! Colour me amazed...

Chad says

The book kind of goes off the rails here so it's probably a good thing the series came to an end. For some reason, the cutesiness of the book really grated on me this time. Maybe because there's not much story here? It just feels like filler until the end of the book.

Rebekah Gordon says

Such a shame that this book ended (although I know I'm partly to blame, being a trade-waiter and all). Kate deserves so much credit for making this mostly-neglected character into such a cute, great person with a full world. Especially the stuff around Jen in this volume got me all ?. Also it's just so funny and cute. Vamp Jubes get to mall rat around! So many hijinks!

Kazia says

Absolutely CRUSHED this is the last volume. What a gem of a series.

Jasmine says

I love this series a lot, and this issue makes a great cap on a canceled-too-soon series. (*sniff*) Pansy gets reality-altering stress flu! They fight an evil girl-gang! Mall trip! The series has such fun art and the writing is so full of love and everybody is just SUCH GOOD FRIENDS. <3 <3 <3 <#

Claire says

This was real cute guys I'm so sad it got canceled

Rick says

More rollicking good times with Patsy and pals! Another slam dunk of silly, cute humor that is just *purrfect* for this character. Absolutely delightful.
