The Celtic Rebel (Richard) says

A great holiday romance. The best part about the story is the likability of both characters. They are fleshed out very well and very well developed. I loved the story for both of them and liked both of them. I actually hated to see the story end. I wanted to find out more about them and what life held for them together.

Debbie Benson says

When Axel is visiting his dead mate's grave, he scents a scent that reawakens his desire to live. It was Conner that he smelt and the brief conversation they had only makes more aware. Axel realizes that it is probably his dead mate's way of telling him to move on. Axel does and he and Conner end up mated with both very happy.

Lala Albert says

Meh. Too short. Axel was too bossy and high-handed. Such a turn-off. Too little meaningful connections between the MCs. Not really my cup of tea.
