A Soul So Wicked Sharie Kohler

Sharie Kohler continues her popular Moon Chaser series with a fantastical tale about a lycan and a demon witch who join forces to search for love and redemption.

A lycan generations old, Darius roams the earth seeking redemption as he hunts the one responsible for his terrible curse, determined to make her pay the price for the untold suffering he's brought upon the world. The last thing he expects, however, is to find a tantalizing woman beneath the demon witch who's as desperate for redemption—and love—as he is.

For more than 1,000 years, Tresa, an enslaved demon witch who has spent her long life tormented by the devastating mistakes of her past, has roamed the earth fleeing her demon, trying to make amends and avoid unleashing further evil upon the world. Although she feels deserving of the torment she has brought on herself, in Darius's arms she begins to feel the most dangerous thing of all...hope that maybe passion can burn hotter than the evil hunting her.

In past books we have seen a little of Darius, so I was looking forward to his book. Sadly, this one underwhelmed me. I felt most of it was meh.... The one thing that I did like was how both of Darius and Tresa were both able to forgive the other for past sins.

Finally the story of the witch who cursed the lycans in a deal where she didn't know what she was doing. She wanted vengeance on the man that had killed her family and inadvertently made herself a demon witch and has been hiding from her demon.

Darius is someone we have met throughout the course of the series. He wants a cure and has been tracking the heroine. When he finds her she is not what he expects.

I did feel a lot of the things, the romance, the end resolution were rushed but still an enjoyable book.

Talk about O.M.G!! I loved this book out of all the books in this series. This was like the big awesome ending! How can anyone that read the series not love this one! It's Darius for fuck sake. I must bow before this amazing book to wrap up the series. Now as for the ending, never will I accept that kind of thing in other reviews (if any have read it), but this one I wanted it! I loved the ending so perfect and well done, oh I can just go on for hours here.

A lone wolf, cursed to live a life of solitude. A witch, forced to hide from her past as well as others who would want her dead. When the two come together, they will become one working together as they follow the light of Hope. A time to gain second chances to find love inside.

Now as for the huge battle supposed to be in the end, eh, I will let it slide. I do like my battles to be long and exciting that would send chills down my spine! However, like I said, I still love this book. Darius and Tresa stole my breath away. I also rarely say that about both female and male characters. *claps with excitement as the curtains draw to a close* Splended ending Sharie! :)

~Before reading~

In 70 AD Tresa was drowned as a witch. Her husband and grandmother were trapped in their cottage and left to burn alive. As Tresa was drowning she was approached by a demon wanting her to allow it to possess her body. Tresa has been fighting the demon for a long time but with the death of her family and herself, she cries out for revenge against the man who caused their deaths. When the demon took over her body, Tresa was unable to stop it from doing whatever it wanted. The only way to make it leave her body and fight it was to go someplace that was really cold. That is why she now lives in Alaska. She lives alone in a cabin and travels to town once a week to get supplies and she also volunteers at an old folks home. Tresa tried to make amends for the evil the demon has done any way she can.

Darius is an immortal lycan. He has spent several generations hunting for the witch that was the cause of the lycan curse. He believes that if he kills her, it will then end the lycan curse. What he doesn't know is that if he kills her and the demon is in control at the time, the demon will take solid form and be able to walk the earth. Darius expected to find an evil witch but what he finds is a very attractive woman who is trying to make amends and fighting to keep the demon at bay. When Tresa has visions of the demon taking control of another witch and the killing that is being done, she talks Darius into going with her to stop the demon witch. As they hunt the demon witch they draw closer together and discover a passion that just may end up saving them.

This is the sixth installment in Ms Kohler's Moonchasers series. From the other books we know that the lycans were brought in to being by a curse. In this book we find out just how the lycan curse started. This is a wonderful series. There is a lot of action and romance. This author is an auto buy for me and I tell all my friends to check out the awesome series.

I absolutely love this series! From the very first book that Darius made an appearance in, I have wanted his story. It is a little bittersweet that it is the last book in the series, but a truly amazing story none-the-less. Of all of the books and characters in this series, I am truly enamored with Darius, and so very happy that Sharie gave him the story he deserves. I only wish I hadn't read it so fast, but I will definitely be reading it again and again!

I can't really say that I liked it. It's too simple and expected. It feels like I've read this story a thousand times before. I liked Sharie's previous books, so I was very disappointed with this one.

This series ended wasn't as good as the other books in the series. It started very slowly and really didn't get exciting until Tresa and Darius left Alaska in search of her demon rider and the serial killer he commanded. However, once they found them, the story became very predictable and was over too fast. There just weren't enough details to warrant such an ending.

It was nice finally finding out Tresa's story and why she created the Lycans. I liked Darius but his capitulation was too quick after centuries of hate. Of course, he needed to forgive her, I just thought it

happened too fast to be believable.

I was hoping for so much more. this book was SO thin--the author could have given us so much more details. Disappointed.

Finally, at long last, I get to the character's story I've been waiting for since book 1! Darius, the ancient lycan who doesn't kill, gets his HEA with the witch whose demon possession started the lycans in the first place. Which seems very apropos. I loved Darius and Tresa together. They are the two beings who've endured loneliness for thousands of years. It's only right that they find love with each other. A Soul So Wicked was a very satisfying end to this saga. My only complaint was the unknown identity of the stranger at the end. Considering it's been three years since this book was released, I don't see an answer forthcoming anytime soon, which is a little disappointing. Overall, I highly recommend this series.

I tried, it just wasn't catching me. I think I made it to page 43.

I am so glad that Sharie Kohler wrote Darius and Tresa's story. I wasn't disappointed. As always, Sharie Kohler has spun a tale that remained engaging. I loved the romantic love story and I was very pleased with how this book ended. Without giving too much away, a lot of questions were answered in this book. Also, I loved the fact that there was an answer to why Tresa made the Lycans. Honestly, I fell in love with the characters.

A Soul So Wicked, the sixth book in the Moonchasers series by Sharie Kohler, finally tells the story of Tresa the demon witch who is responsible for the curse all lycans face. For the past six books we have followed the lycans and their quest to find a way to get back their humanity. I say finally because they have chased after this demon possessed witch for five books and it was about time that someone eventually caught up with her. About time that we got her side of the story.

This book begins with Tresa being brutalized two thousand years ago by her overlord, Lord Marshan. She has been beaten, her husband and grandmother lay dying and now she is being branded as a witch and her house is being set on fire. One of the ways that witches are tested is by drowning, so as the water is working its way into her lungs and she is slowly slipping away she makes a deal with the demon Balthazar for revenge against Lord Marshan. The revenge comes in the form of turning Marshan into a blood hungry, mad beast that is a slave to the phases of the moon. He is the first lycan. His curse leads to the beginning of all the lycans. Ever since then she has been trying to get away from Balthazar, who takes over her body and forces her to do terrible things while at the same time hiding from all the beasts hunting her.

Darius is convinced that if he finds the witch who started it all he can figure out a way to be a normal man again. He tracks her to a small town in Alaska and proceeds to follow her back to her house. Tresa has been blessedly left alone by her demon for the last year, but lately she has been having dreams of another witch committing heinous murders and is convinced that this witch is also demon possessed. When Darius catches up with her she is packing her bags, on her way stop any more killings from happening. These two are natural enemies, both of whom have been alone for a long time, but must work together and find a way to stop a murderer.

I've always enjoyed reading a Sharie Kohler book. She doesn't inspire the slavish devotion I have for other paranormal series, but I do enjoy her voice and find her books to be fast reads. Tresa has been the enemy throughout this series, but she turned out to be a sympathetic character who made a mistake out of desperation and now regrets her actions everyday. I liked that Ms. Kohler didn't take the easy way out and make her the clichéd bad guy. She is not evil, has never been evil, and knows the horrible chain of events she has set into motion because of a need for vengeance. When she meets Darius he is bound and determined to trap her until he can find away to either kill her or kill her demon. Or both. While they are together he learns more about her and her past and they fall into a relationship. The relationship deepens as they try to unravel a mystery and fight to redeem themselves. Even though I liked both of these characters, I'm still not sure if I found their falling in love to be believable. Other than being lonely I have no idea why they were so hung up on each other. Darius has been hunting this woman for years and yet he doesn't put up much of a fight against his feelings once he starts to fall for Tresa. After a feeble resistance he finally falls upon her, rips of their clothes and gives it up. Maybe it was the sexy times that had them falling in love.

The mystery and the search to find out the identity of the witch killing college kids turned out to be pretty good. I was surprised when the villian was unmasked. This is the end of the story arc, and the way it concludes leads me to believe this will be the end to the series as well. I do think any one of the books in this series can be read as stand-alones. Yes, there is an ongoing story arc, but each book has been enjoyable and each one different from the others. These are easy reads, with likable characters, nice sexy scenes and just enough suspense and action to keep the reader engaged. Final Grade: B-

He kissed her like he was starved for her. Like this was his last kiss on the last day of his life. She touched his cheeks, caressing his face, assuring herself that this moment was real and not some dream.

In the first three books in this series I felt sorry for Darius because he always came sooooo close to getting his HEA but, well, no cigar. I was eager for his story to be told and see him finally get his HEA. Then in the fourth and fifth books he didn't have his usual near miss at a mate and had a smaller role... frankly he came off as kind of a jerk those books. I no longer felt sorry for him. Darius...pbfft! Finally Darius gets his own book and I was actually a little hesitant to read it. Will he still be a jerk? Will I care at all about this Darius and want to keep reading? Well, I'm happy to say Darius made his back into my good graces and the wait was worth it. There was nothing too special about the story... pretty much your standard PNR but, but... it was Darius! And I'm happy he finally got a happy of his own.

I did have a small problem with the ending. The final battle with the demon felt anticlimactic and seemed to be over before it barely started. There was also an unexplained character that suddenly popped up out of the blue near the end of the book that was confusing. I don't know if what happened to Darius is due to the deal with the demon or the mysterious stranger. Besides being somewhat of a deus ex machina, maybe there is some possible set up of a future book or series? Not sure if that is thoughtful speculation or just wishful thinking. :)
