Jackie Collins

Thrill: A Novel Jackie Collins

Jackie Collins' most outrageous, erotically charged *New York Times* bestseller is a sexy, shattering roller-coaster thrill ride!

From chic New York and the exclusive Hamptons to the hungry heart of L.A., this high-suspense tale pulses with deadly obsessions and relentless desires in the seemingly perfect world of a gorgeous film actress. She could have any man -- but the one she can't resist is a mysterious lover with a shadowed past. As their jolting affair skyrockets with electric passion, shocking secrets break through their hidden traps -- in a brilliantly twisting story that sparks with the explosive Jackie Collins touch.

missemamm says

If possible I would give this book 3.5 stars.

I've been reading Jackie Collins' novels for years. However I just got around to reading this one. It's been a while since I've read one that's been out for more than a few years. This book was published in '98 yet reads like it was written in the 80s (for the most part).

This book about love, lust and suspense within the movie industry was a lot of fun. However the sex scenes and some of the dialogue were atrocious. A sex scene in which the woman isn't stimulated at all and then proclaims that she's cumming seems super fake to me. And well "chick babe" is a super odd "compliment" for even one, let alone more than one character to use in a book.

Maria says

Every other Hollywood movie. Read it when you want to relax your mind.

Erica says

This book kept me interested, but I found myself getting annoyed with 2 of the characters. They both seemed possessive and lacked charm. If you like Jackie Collins you'll like this book...but it's not one of her best ones.

Jo says

Total trash but it hooked me and I enjoyed reading about the characters.
Found the ending a bit abrupt and don't think some of the characters deserved their happy endings...
Good fun. Perfect for a holiday read.

D says

Second book and I feel I have had enough of Jackie Collins and her will-sleep-with-everything-that-moves characters specially men (in this one only men) too much dirt for me to handle. To be honest, it's crap. Crap as in capital C R A P. If you want to read something completely non-sensical then welcome to Jackie land and this one is the best among all. I am not saying that I'm not gonna read Collins again *wink* we all need to read something like this once in a while. Once is a key word here. Well! It wasn't really as bad as I described *picks another Collins book* :P :P

Kara says

This was my first Jackie Collins book thy I've read that spear have to do with the Lucky series. I liked the novel a lot in the beginning but in the middle every character I hated but for Aidan. But getting to the end I started liking everyone again but RIchard, he has some nerve trying to spilt up Lara & Joey. Everyone has secrets their not ready to share.

Julia says

I like Jackie Collins' earlier books, the ones from the early to mid seventies when women were wearing Halston gold lame and snorting coke. This one isn't as good.

Mary says

I haven't read a JC book for a really long time, so this was a taste of the past for me. It was an enjoyable read, although I thought it lacked the depth into it's characters. JC uses lots of different characters in her book. Lara is the famous movie star who everyone wants to be, Richard is the crazed ex husband who is obsessed with Lara, Nikki is her best friend who seems to live in Lara's shadow, and upcoming movie star Joey becomes the new sexy love of her life, Alison the stalker who wants to be Lara's best friend, but then plots to kill her when she thinks Lara is just like all the other movie stars. And then the other characters JC introduces add to a script full of drama, suspense, and typical Hollywood lifestyles.

JC delves into the past with several characters and she keeps you guessing as to who she is writing about with some of the flash backs. The final chapters of the book were exciting as she brought alot of the characters together in a dramatic ending, but I would have liked a little more detail into Lara and Joey's relationship!

Enjoyed this.....not fantastic, a change to what I really like reading at the moment.....but bring on the next hot romance book please!!

🔮??Voracious says

Another faultless 5 ?????????? offering from the wonderful Jackie Collins. Many of her books are now re-reads for me; thankfully I have the chance to buddy read them with a fellow JC fan :-)

Brooklyn Tayla says

My full review can be found on my blog: <https://brooklynandherbooks.wordpress...>

This is a third read for me, but I enjoyed it every bit as much as the first two reads. A buddy read with fellow

JC aficionado, Voracious Reader, it makes for fabulous reading!

Jeri Tungate says

Thrill! was the very first Jackie Collins novel I ever read. I reread it every year just because I enjoy the stories so much. I wish there was a follow up novel about Summer. She was my fav character.

Ella (The Story Collector) says

Thrill! tells a story of love, obsession, passion and desire among the Hollywood elite. Beautiful actress Lara could have any man she wants, but what she gets is a passionate affair with a mysterious actor with a shady past. As if navigating this newfound love isn't enough, Lara also has to cope with her own traumatic past and fend off the unwanted affections of her ex-husband. All the while, a hateful stalker sits in prison planning her revenge.

Jackie Collins is the queen of romantic thrillers. Thrill! is dark, engaging, entertaining and excellently written. In true Jackie Collins style, the plot is raunchy and packed with sex, but it isn't overly graphic or explicit and is entirely relevant to the story, which makes it completely bearable (enjoyable, even).

But there is so much more to this book than sex and romance. The plot is dramatic and surprisingly complex. There are so many different threads, with each character having their own individual storyline, and yet it is very easy to follow. The characters are well developed with unique personalities and distinctive voices.

Thrill! is exciting and addictive, with shocking twists and an almighty climax. Fans of romance/drama/thrillers, look no further.

Susans book review (susan miles) says

i was hooked to this book from the begining altho it was a long book i loved it jackie collins does this everytime on all her books
loved how she wrote about all the different characters about there past and the present,

Aditi says

Oh wow, it was one hell of a "THRILL" ride from L.A.'s fast lanes, studios and beach houses to it's darkest alleys, behind-the-bedroom-door dramas. This book gives you an insight of all the hot and happening, juicy tidbits and gossips of the tinsel town. From first page of the book, I totally got hooked, yeah Thrill will get you hooked from it's first page.

This novel is about Lara Ivory, a 'very' beautiful, A-class Holly actress falling for an 'incredibly' hot, junior actor, Joey Lorenzo, and hence all hell broke loose in Lara's life because of this. This novel is also about another character, Summer, Nikki's(Lara's Bff) wild child from her first husband Sheldon. Summer, who lives with her father in Chicago, comes to L.A. to spend her vacation with her mom. Summer is a victim of

her father's sexual abuse. Hence after finding freedom in L.A., Summer gets on roll, from wild parties, drugs, alcohols to even escorting high-class actors in their hotels. And in case of Lara, she almost got murdered because of her stalker's hatred and her ex- husband, Richard Barry's obsession with her.

This novel is an eye-opener, it let's you see-through the lives of every actors and directors, even not-to-forget, there's a lot of usage of examples of real-life actors and their dramas. Each and every character has something to hide in their past, everybody's past was like very distasteful, not worth remembering.

This is the first JC novel that I read, and I'm already a fan. I never wanted this book to finish, it was so amazing,thrilling and very, very hot, an unputdownable of course. Reading this novel will make you want more,and I'm already yearning for more JC books. Her writing is so very flawless and detailed. The shocking twists and turns are definitely going to keep you on your edges. Yeah it's not an intellectual kind, but yeah surely a light-read page turner filled with suspense in it's every pages. A must-read for everyone.

A??ela W. says

This book was pretty good I have had it on my shelf for a couple of years I got it at a garage sale for a dollar and it was worth it. Lara Ivory is a dazzling movie star with the whole world at her feet she has an ex husband Richard and his new wife Nikki and all of them appear to be good friends. Lara meet the young and hot Joey Lorenzo who has a dark past. Their relationship is put to the test multiple times as the couple faces obstacles brought on by Joey's past. This book was hot the sex scenes were erotic. I really liked all of the character's in this book. This book was well written with no errors in grammar or spelling like the rest of Ms. Collins book. I wish that I would have read this book before now Ms. Collins you will be missed.
