Neeley Bratcher

Childs Abduction Neeley Bratcher

You met her in "Childs' Proof," when she was a frustrated secretary, finding her sea legs in the world of private investigations. Now as fall sets in over the quiet town of Brenton, Illinois, Vic receives the exciting news, from her sweet and sexy Detective, that she will be accompanying him "down home," to a Varner family wedding. The fun starts sooner than anticipated though, when someone breaks into her apartment. She quickly learns she may be the new target of a local sicko. She thinks the trip to New Orleans can't come soon enough. Surely the weirdo won't follow her there. Well, at least not on the same plane.

Never one to stay out of trouble and always in training, follow Victoria Childs, P.I., on her latest adventure, down on the bayou! You will laugh, cry, and make some other interesting noises while you're reading Neeley Bratcher's exciting sequel to "Childs' Proof", "CHILDS ABDUCTION!"

Fantastic book

Once again Vic keeps getting into trouble. From being kidnapped to the witness protection, she keeps everyone on their toes.

From the Author: Vic receives the exciting news, from her sweet and sexy Detective Jason, that she will be accompanying him "down home," to a Varner family wedding. The fun starts sooner than anticipated though, when someone breaks into her apartment. She quickly learns she may be the new target of a local sicko. She thinks the trip to New Orleans can't come soon enough.

From Me: I laughed, I cried, I cussed. What a fun frustrating roller coaster read. There are so many handsome J. Varner's in the book it's hard to keep them all straight and four year old Melanie will totally melt your heart. Vic is a strong woman and does not bow down to anyone at anytime who loves just as passionately and I totally love her. In the event you do not know me, I generally dislike most of the females in books I read. Vic is a great gal and I cannot wait to read Neeley Bratcher's next Victoria Child's book. CAN.NOT.WAIT.

Childs Abduction by Neeley Bratcher
A Victoria Childs Novel #2

We return to Brenton, Illinois almost a year after Vic's troubles in Childs' Proof. She is doing well in her P.I.

business and so so in her relationship with Varner. Life never stays calm very long where Vic is concerned and she goes from tossing pencils into ceiling tiles to running for her life, again.

What starts out going to a wedding for a Varner cousin ends up in a twisted mess. Vic meets the Varner family and Jason's ex. His gorgeous brother who has eyes that.....well you'll have to read about that. Taylor Lowe, the warden from book one enters the scene once again. Poor Vic really suffers restraint when she is surrounded by hunky men, who all seem attracted to her. Well maybe not Mike the nurse.

This book has a darker side of life to it right along with Neeley's humorous situations. Life never seems to give this couple a break for very long and Childs Abduction definitely takes the reader on an emotional roller coaster. I've enjoyed both of these books and definitely look forward to book three.

Vic has her P.I. business up and running, and is still getting into trouble where she can find it. She and Jason are finally orbiting back to each other after a few months awkwardness due to a shooting and a forced living together situation. Seemingly so well that he invites her to a family wedding, where she will meet the whole huge Varner clan for the first time. Right before leaving for New Orleans some pervert breaks into her house but they assume it is a guy who has been harrasing local women. In the big easy Vic meets the big bad ex and unfortunately the ex best friend who is with said ex wife. There is some amazing stuff in here that just makes you warm and happy and I definitely laughed out loud a few times (people on the train looked at me like I was crazy). Then there is a bit that is dark and just sad. Enough to the point that I now kind of question Vic and Jason going forward. So I need that 3rd book now because I need to know what the hell happens to them going forward after all the drama they might not be able to over come this time (even though Vic acts like they can). book 3!!!

"The end ...for now." Ugh! I *knew* a 2-parter was too good to be true, but this one was described as "the sequel". Another series for me. :(

This series is a LOT like Janet Evanovich's Stephanie Plum books...a lot. So, it lacks a bit of originality, but still fun with really likeable characters. There's also romance (of course) but the sexy scenes aren't vulgar, which was nice.

Fast moving book about the character Victoria Childs and a multi personality obsessed stalker
