Paula Legate says

Cade has been down on his luck the last few years. His wife died in a car wreck. That alone shook him to his core. He got hurt bull riding and had to retire. Now he owns a ranch along with his best friend Burke. The ranch has had several unexplained accidents that has happened that has almost broke Cade. The ranch is running on a very tight budget.

One day the phone rang, and it was Lacy requesting to interview Cade. Burke pretended to be Cade, and set it up. He knows the interview could help turn the ranch around. He also knows how much his best friend hates reporters. Lacy showed up at the ranch and the fun stated.

Here is a sample from chapter 7 - Boy, Dalton, I never knew you could move so fast. He laughed, harder this time, causing water's spray to go off its intended course. "Cade! You're getting me clothes all wet!" "Just trying to get all the mud off you," he replied with a devilish grin, then raised the stream higher, thoroughly soaking her. She squealed in protest. "Cade Tyler, you're going to pay for that!" "Do tell," he taunted, keeping her at bay with a steady stream of water as he circled her. "What are you gonna do, Dalton? Hit me with your briefcase? Stab me with your pen? No wait, maybe you'll attempt the most horrible torture known to man.... You'll sing to me!" Bringing up her arm so shield her face from the water's spray, she launched herself at him sending both of them toppling to the ground. Domino ran around them barking and wagging his tail. Cade could barely breathe he was laughing so hard.

I enjoyed and definitely recommend this light, fun, easy read. Read the whole book in only two sittings = 1 day :)

First off, I love cowboys. Good looking, hard working, sweaty cowboys!
Cade and Burk = Bestfriends = LOL, JABBING, BANTERING moments.
Lacey = strong will and definitely lots of bantering with the cowboys.

Second - there were lots of editing issues, which is ok with me since I am not the best speller myself BUT for those that cringe at the site of grammer problems. You may want to just suck it up and read this anyway. :)

Definitely recommond when you are in need for a light read. And most importantly its FREE right now!

I actually really liked this. I kept me interested and I couldnt put it down for long. The beginning of the book was a little slow but it picked up. There were quite a few misspelled words and editing issues- the villain's vehicle was a Mercedes that turned into a Jag that turned back into a Mercedes later in the book.

A sweet wounded cowboy

This is a cute read but then I'm partial to an emotionally wounded cowboy. Lacy and Cade were well suited to each other. both trying to fill a void. I also thought that the books pace was a bit slow then it seemed to race at the end.

This book was a mistake, but one that I don't regret making. Romance is not my normal genre of interest and I rarely read them (as in never). When I clicked on this novel, my kindle was acting up and the WiFi signal cutting in and out. I thought I was reading something else and after getting more than 10% into it, figured out it wasn't the book I thought it was. By that time, I was hooked. The author put together an interesting story that was well written, fast paced, and although predictable (what romance isn't?) a fun read. The characters were very believable which added a touch of reality. Good job Lindsey.

Tammy Tracy says

I love a good cowboy story- Cade is a former rodeo pro who left that life behind after a major injury and the loss of his wife. Cade and his partner Burk are working hard to save the Flying T ranch. Burk invites Lacy Dalton to interview Cade even though he knows how Cade feels about reporters. Lacy is a feisty girl who is trying to take care of her grandmother who raised her. They have a fiery relationship that is fun to read about and laugh. Great fun read.

I downloaded this just because the synopsis intrigued me. I'm definitely glad I decided to read it. The main characters are so easy to love, as are the supporting characters. Your heart really breaks for Cade, as well as for Dalton. The tragedy isn't contained to just one individual as it is in some romances. There's no "strong one". They have to be strong together and draw off each other. The dialogue was top-notch. I'll be looking into more books by Lindsey Brooks.

A light and quirky "Cowboy meets City Girl" kind of romance that I got free from the Amazon.

Laci Dalton, a sassy and sexy reporter from Denver, lands a chance to interview the handsome widower Cade Tyler, ex-Rodeo star and owner of the Flying T ranch in Deep Creek, Colorado. Cade is trying to make a go of his business, but he is burdened with heavy debts brought on by many odd accidents around the

ranch. So despite his hatred of reporters, he agrees to let Laci have her story if she agrees to work as a ranch hand for a few weeks to help him out.

Laci is out of her element working on a ranch. Her clothing is more suited for a call girl than a cow girl, she has no interest in rising at the crack of dawn, and she can't tell the difference between a cow from a bull.

Cade and Laci do not start off well. He is still dealing with the loss of his career and the sudden death of his wife Karen two years ago, and he has turned into a bitter and cantankerous person. He doesn't trust Laci because she is a reporter, but in time he sees how hard she is trying.

There are some funny and silly moments to the story. It even had some emotional moments too. We learn more about Laci's grandmother, Cade's first wife, and why the ranch keeps having accidents.

Overall, I thought this was a fun quick romance read, albeit predictable in many places. Cade's mood swings didn't always ring true, and Laci was such a mess at times I had trouble understanding what he saw in her. Well, besides her hot body. For much of the book I felt the relationship was more focused on the physical and not so much the emotional, but that isn't to say they didn't have some great interaction scenes. I just had a bit of trouble believing a man like Cade could change his ways and fall for a nutty lady like Laci in only a few weeks. Still, if you can stretch your beliefs and are in the mood for some sexy fluff reading about a hot cow boy, this could be a winner. The steam level picks up in the last half to a nice warm sizzle, and didn't disappoint.

Heart warming love story

I liked the way Lindsey captured the life of a broken down widowed cowboy his best friend Burke and the faithful mutt. I loved all the characters in this book except the bad guys of course. The entire story line was well crafted and I finished the book with in a few hours. Thanks for a fun read.

A nice light and fun read. Was a kindle freebie.

Lacy Dalton, is the reporter who needs to interview reporter hating Cade Tyler so she can gain a promotion to help look after her Grandma.

Cade is struggling, both financially (due to certain mishaps that keep happening around his ranch) and emotionally, due to the loss of his wife, and almost complete shut down of his emotions.

Enter his best friend Burke (who I adored) who pretends to be Cade to get Lacy to the Ranch. Then sits back and watched the sparks fly.

I loved the relationship between Burke and Cade.

Overall, it had good banter between characters, a lovely friendship between Cade and Burke, a little mystery

and drama and made you care about the characters.

A good fun 4 star read for me, and I will be checking out some other Lindsey Brookes books.

Sexy, brooding cowboy? Yes please! This was a good freebie read. It was sweet and angsty and a little bit sexy. Great for a quick read on a lazy weekend.

"Look at me, Lacy. I want to see the fire burning in your eyes when I take you over the edge."

"I want to bury myself inside you until there's no beginning, no end."

Shelley says

This was a lighthearted romance with a slight mystery element, and it was an easy and enjoyable read. Cade and Lacy both come to the relationship with problems, and once they learn to trust each other they're great together. Although the plot was fairly predictable, I enjoyed the humor, and I finished the story thinking that this couple will stay together. A nice way to fill a few hours.

Jo-Anne says

Lacy needs to earn money to support her sick grandmother so as a reporter she agrees to write a story about a retired rodeo champion, Cade, who is now raising bulls for rodeos. When she phones Cade to ask for an interview, his best friend, Burk, answers and pretends to be Cade. He agrees to the interview but when Lacy arrives and tells Cade she is there for the interview, he says he didn't agree to it and tries to get rid of her. They finally make a deal that he will do the interview and she will work as a ranch hand for a couple of weeks.

The characters in this story were well done. Lacy was pretty desperate to get the interview and write the story so she could get a permanent job with the magazine but she did some pretty dumb things on the ranch. She came across as a city girl who had no idea about country life. Cade was pretty grumpy since he had to quit the rodeo after getting injured, he lost his wife a couple of years earlier and he was having really bad luck on his ranch putting him in financial trouble. Cade's friend, Burk, added humor to this story. He tried to help people but usually made matters worse instead. The attraction between Cade and Lacy grew but Cade fought it, mainly because of his dead wife.

As a whole this was an enjoyable read that I wouldn't hesitate to recommend. There was romance and mystery in a western setting making this book awesome.

Mei says

Can you say Six Degrees of Stupidity? 1) You accept an offer to stay at a ranch with two strange men you don't know. 2) You dress in skimpy outfits that barely cover you and tight tank tops that expose your girls. 3) You tell a complete stranger that you have no family or friends to miss you while you are staying at said ranch. 4) You chase a feral kitten into a pen with a thousand pound bull to "rescue" said kitten. 5) You know the man you have the hots for is still mourning his wife by all accounts and you can be nothing but a booty call. 6) You sell your vintage vehicle to pay a mortgage for a man you've known less than a month because material things just don't mean anything to you anymore. How inane is this dribble? I struggled to finish being that my mind refused to believe anyone was that stupid. On my Cowboy Scale of Hotness, 1.5 stars. Bad editing and stupidity sank this one. Not worth the read.

Carol says

I enjoyed this book. I thought it was maybe a little bit slow to start and it did take me a little while to warm to Cade. Other than that, I thought the characters were good and the story was fun. It was your typical city girl and cowboy romance. It was well-written and enjoyable. A light, fun read.
