Bound By Love Emily Jane Trent

Natalie's submission has Tanner's desire spiraling out of control. She's in touch with sexual pleasures she never dreamed of, and can't imagine life without him. Tanner admits to his obsession with Natalie, but is that all it is?

"I never met a woman I crave, like I crave you. It's not so much what we do, as how we do it. There are no words. It's different with you. You excite me, and sometimes I fear I will lose control," Tanner admitted. A desperate look came over his normally reserved features, and Natalie stopped breathing.

Bound By Love, 4th novella in the Touched By You series, is a romantic tale that takes place in London, England. The sex scenes are graphic - includes light bdsm. The author was inspired by the endearing romance in the Twilight series. And the sexual enlightenment, and sweet romance, in the Fifty Shades Of Grey series. Touched By You is a unique love story, with full character development, and added intrigue from the billionaire's life, that will make this a read that's hard to put down.

Jessie says

"He seemed willing to give endless pleasure, and only seemed to get better at doing so. She'd entered a world of possession, of excitement and taboo pleasures from which she could never return. She'd changed and she'd discovered things about herself, her own desires, that she'd never dreamed of before."

The story of Natalie & Tanner keeps getting more intense with each novella I read. In this one, "Can Tanner become what Natalie wants?" He's definitely sharing a lot more with her. And will he find peace with his troubled childhood. Natalie's design business is starting to take off & it's keeping her busy.

Each time I pick up another book by Emily Jane Trent, I find that it was hotter than the last one. Natalie and Tanner continue to grow in their relationship not only in the bedroom -as well as everywhere else- but out of it.

Natalie's family now lives in New York so that she can be closer to her sick mother and help her mother get the care that she needs. Not only is it nice that her mother and sister are living closer, but her sister is now developing a romance with her best friend and Natalie couldn't be happier about her.

Her company is hitting it off and Tanner is no longer expecting her to work for him unless he asks her specifically although he isn't because he wants her to focus on hers. A friend of Tanner's picked up Natalie's designs and now there is another person who wants to pick them up as well.

While all this is going on, Natalie and Tanner go back to where it all started...the concert hall where he left her.

How will going back to a very sentimental location effect Tanner and Natalie? Read Bound by Love to find out!

I was provided with this book by the author to provide an honest review..

The forth book in the series continues on from book three seamlessly, Tanner and Natalie are still at that emotional impasse, Natalie knows that Tanner is the only man for her, even though that he believes that he is no good because of the demons in his past and keeps warning her about this, but her being the stubborn woman she is refuses to believe it!

The sexual exploits in this book delve further into aspects of bdsm, giving an understanding of the power and control that Tanner needs and what he believes that's all he is good for! Their relationship continues to develop further when Tanner takes Natalie to London, he takes her to his father cottage where he discovers more information about his past maybe he is good enough for Natalie, he can be intimate maybe even love?!

I am really loving this series and find it so easy to read, the quick pace doesn't lack detail or explanation, just cuts out all the waffle that a lot of author use to fill pages, although I would love the books to be longer as I just can't put them down and find my self disappointed when I have finished! So far a brilliant series I would highly recommend! Now to read the next one!

Bound by Love, the 4th novella in the Touched by You series has many of the traditional elements found in this trendy BDSM light romantic genre. We have the continued question of commitment by our heroine –wanting more from the relationship, wanting to know why our male lead doesn't love her, as she loves him, our heroines fight to remain independent-not totally dependent on our leading male, the classic misunderstanding involving the other woman, the fleeing heroine for the good of the relationship, our male lead realizing he really does love the heroine and wants that long term commitment he has been avoiding all this time. Everything you come to expect from this storyline formula, we also shared in the announced engagement of Ellis and Jazzy, and more insight into Tanner's background.

The storyline presented in this installment to my dismay employed the constant use of brand name dropping (food, wine, clothing, shoes, cars etc), endless clothing descriptions of the characters and predictable and repetitive sex scenes. I would have been extremely happy if the stories plot lines had more development and depth, more sexual tension and a few extremely HOT sex scenes that just left you feeling as sated as our couple. I felt the product name dropping and clothing descriptions were used to emphasis the wealthy circles that Tanner and now Natalie were traveling in, and made me feel that Natalie had forgotten her humble roots. The constant use of sex did seem like the main focus of this novella, I'm sure it was meant to portray the continuing growth & depth of Tanner and Natalie's relationship, and Tanner coming to grips with his love for Natalie. For me it just took over the plot lines of the story, and became rather boring after a while. I find I enjoy books with 85% plot and 15% sex, not the other way around.

I have a deep love for our H/h especially Tanner, he has never held his wealth above Natalie or anyone else, and has always given of his money freely, and generously. Tanner is a romantic at heart. I very much would have liked to have seen more of Natalie's challenges to move her fledgling company forward, but up to now there is no struggle, it's all just falling into place way too easily.

I'm very happy that this is not the end of Tanner and Natalie's story as I do want to spend more time with them, and am looking forward to the next novella in the series.

Wow. Truths are being revealed in this installment. Natalie is still traveling with Tanner and doors are being opened with her designs becoming very popular. Her business is taking off. This trip leads to deep feelings to be explored by both Natalie and Tanner. There is a bit of a set back when Tanner's previous plaything shows up. Tanner's ghosts of the past are no longer keeping him bounded and feeling that he might endanger Natalie. Can't wait for the next book. If you're looking for hot and steamy with a decent storyline, this series is it. I am definitely enjoying.

I received this book in exchange for an honest review. And, this is about as honest as I can be. I had trouble with novella one and kind of two. I missed three... oops, but realize that I really am sucked into the story because when I started reading 4, it all came back to me.

This story was set in London, England. There has been so much happening in London -- royal weddings and babies, oh my, that this story just continued my romance with the British Isle. I loved the country cottage, the Ritz, the Russian boyfriend. I thought it was very well done. I can't wait until Jazzy's wedding and predict that Natalie will find her HEA around that time. Tanner is really warming up.

I can't wait to see where we go from here. I wonder, are there little Tanner siblings running around that we don't know about. Nothing is impossible in fiction, after all. Thanks EJT. Can't wait to read part 5. It is already on my kindle.

These two just keep getting hotter!!

Over all I think my favourite part happens at the very start where the two revisit the concert hall, that started it all!!

A little more fast paced than the first 3, and I really liked that.

I think there is a huge step taken for Tanner and Natalie. And although the commitment scares him, he needs her with him, therefore asks her to move in.

Tanner is finally coming to terms with his feeling for Natalie. Instead of feeling 'obsessed' with her, he is learning what 'love' is.

I am very, very much looking forward to reading more of these two!!

My only down in this was the constant brand/name dropping. I understand that we as readers are being shown what sort of life style they are enjoying, however there is a time when it's just too much.

That airport scene ;)

I LOVED that Ellis and Jazzy got engaged.

On to the next one!

I enjoyed reading more of Tanner and Natalie's story in Bound By Love. The two revisit the concert hall where their journey first began so many years ago. What kind of memories are made this time in that small side room? They also spend a large amount of their time on a business trip to London. Tanner seems much sweeter this time around. After visiting a cottage that he inherited, he finds a journal that belonged to his ' father' William Clarke. The secrets revealed in this journal help Tanner fully understand his past and he is able to let go of some of his insecurities.

Natalie's company is growing quickly and her LOVE life is starting to come together as she has hoped it would for so long. Just when everything seems right she walks in on Tanner talking with an ex-sub. This slip up rocks her boat and makes her question everything that her and Tanner have together. What is she going to do? Read Bound By Love to find out.

WARNING: further reading will have you hooked!

I am still loving this series and now I am in love for real. This is book 4 and is no less spicy than book 1. If anything this book has amped up the spice and taken it to new levels. What I really enjoy about the authors writing is the use of descriptive things. Such as letting the reader know a brand name of the clothing Natalie is wearing or the wine Tanner is drinking. These all help to mold a live action movie in the readers brain. I also found to be helpful that there are short chapters that follow a single thought unlike mashing it all in one chapter and confusing the scenes. This series is mind blowing. For only the second time in all my reading of romance, this series made me cry. I truly think that this is the best I've read in romance. On to book 5!

Book 4 in the Touched By You series starts off with Natalie and Tanner going back to where it all began. A concert in San Francisco where they continue where they left off in the same closet.

We then join them back in New York for a bit before they are off to London. As They take care of business in both places, Natalie starts to wonder if Tanner will ever love her. Tanner starts to wonder if he is able to love her. Tanner continues to push Natalie's limits in the world of BDSM.

While Tanner and Natalie are staying in his cottage outside of London, Tanner discovers a few things that seem to lift the invisible weight off his shoulders.

So much sex in this book! Aye carumba!! At times I was starting to wonder if the storyline was going to continue or if I was just going to be reading about the sex. I would have liked to see more story and less sex, but it appears that we are at the point in their relationship where all they do is have sex. We will see what the next book brings.

Gloria Herrera for As You Wish Reviews says

This review is meant for installments #4 through #12.

Our dominant billionaire Tanner continues to amaze and enrapture Natalie. Being so innocent, Tanner is taking charge of her sex education into the dark corners of passion.

These installments give us very hot sexy scenes plus plot and character development showing the changes this passionate romance has on both our main characters. Owning her own sexuality is difficult for Natalie. She has grown from an innocent virgin, into Tanner's goddess of kink. In order for her to accept her desires, she has had to come to believe that what she is feeling is not a deviant desire where she can lose her sense of self. Tanner's patience and understanding is the catalyst to enabling Natalie to come to terms with reality. Our author has done a great job of developing these characters to the point you as the reader will feel deeply empathetic to their feelings and handling of the obstacles that arise.

Tanner's jealousy is forever an issue. Whether because he is so controlling or because he feels insecure, his reactions are meteoric if any man looks at Natalie or he perceives any interest on her part toward a male person.

It impressed me how Natalie's character reacts to Tanner's emotions. Although she might be upset with him, she never really loses control of her temper and always reacts with deep love and understanding. Somehow the love she feels for him helps her deal with his temper and remain loving and forgiving. I think this is why once he has calmed down, Tanner always promises to do better and his love grows for her. Now if she would only concede to not dressing so alluring when they go out, he might be able to deal with his jealousy better.

This was a great series to read. It is erotica at its best! Full of love, passion and sexual encounters that are each uniquely orchestrated and described. Top that with a plot line that draws you in and you have a winner!

I received a free copy of this book in exchange for an honest review. I give this book 4 Stars. The story continued to be good and well written. The 4th novella in a series of 8 started in NYC and then the adventures moved to London. I don't know how Emily does it but the sex scenes kept getting steamier and hotter. The adventures in the book were exciting and interesting.

It was great to see that Tanner/Natalie's relationship kept growing not only in the bedroom but also in their lives. They became more intertwined with each other. Natalie's fashion line continued to grow as well. Natalie's sister, Jazzy, became engaged to Ellis which was great b/c they were perfect for each other. Toward the end of the book, Tanner finally recognized the feeling he had been feeling was love. He realized that he was in love with Natalie. I can't wait to read the next book to see what he would do now that he's in love with Natalie. Would he marry her?

Barbara Zeh says

I received this novella in exchange for an honest review. This is the fourth in the series, and each book just seems to get better and better. I love the relationship that Tanner and Natalie are building, and I have enjoyed watching them grow both publicly and privately.

Natalie and Tanner, start out by going back to where it all began...the concert hall where he left her all those years ago. No heartbreak this time though. There are glimpses of Natalie's family, as well as business dealings that must be made. With so many outside distractions, Natalie can still give her all to Tanner.

There is a twist when Natalie, feeling that she doesn't deserve Tanner, reacts to a something she sees before having all the details. Tanner, having no personal knowledge of what love is, has to figure out if he really does love Natalie, or is it just an obsession? Secrets are revealed, and Tanner can finally let go of some of his demons.

Can't wait to see where we go from here!

Tina Clark says

I am hooked on Natalie and Tanner. The beginning starts where they return to New York. Natalie continues her care for her mom. Hers sister relationship grows with Ellis. Cheryl meets someone. Everyone is happy and in love,. Natalie is accepting Tanner not loving her but she is being afraid that their relationship is nothing but sex. Tanner is showing his love slowly. I was shocked at the end. A great ending. Don't want to spoil it, but it's a must read. If you already read the 4 books can't stop now. Can't wait for the book 5. I also received this book from author with an honest review. I am enjoying the series. Thank you Emily.
