### **For Your Paws Only** E.A. Price

Life was pretty straightforward for Cutter, a wolf shifter and an agent for the Supernatural Enforcers Agency – solve cases, attend anger management classes and avoid the attentions of a cute but tenacious hedgehog shifter. That is until his old partner is murdered, and a witness from a former case goes missing. Now, Cutter finds himself the prime suspect and with nowhere else to turn but to the one person he knows won't betray him.

Curvy hedgehog shifter Lucie has spent a year chasing the commitment phobic wolf, and is she downhearted that he still runs in the opposite direction when he sees her coming? You bet your sweet patootie she isn't! He may be playing hard to get, but she'll wear him down yet. But, before she can say nutty fudgkins, Lucie comes home to find her wolf, naked and bleeding all over her couch, and Lucie, in spite of his howling objections, is determined to help him solve his case.

While working shoulder to, uh, shoulder, can Lucie convince him that she's the right hedgehog for him? And will Cutter finally give in and admit to the feelings that have been dogging him ever since the adorable hedgehog bounced into his life?

Caution! This does contain swearing (there's a lot of use of the f word!), as well as scenes of a sexual nature with m/f interaction intended for mature readers.

## From Reader Review For Your Paws Only for online ebook

### **Ruth Roulston says**

#### **A rollercoaster of a ride**

One minute you think you know who the baddie is and next you are knee deep in emotional distress. Amazing.

---

### **Jessica Frances says**

For Your Paws Only is book two in the Supernatural Enforcers Agency series. I loved book one and was excited to get into Cutter's head, since he appeared so brash and angry in the first book. This one involved the love story of a wolf shifter and a hedgehog shifter. It was obvious to both they were fated mates, but since Cutter refused Lucie at every turn, there wasn't a lot she could do except constantly get her heart stamped on. I can't say I loved the love story in this. Cutter was just an awful guy for a lot of the book and Lucie was a real pushover. She allowed herself to be treated badly and had no idea how to stay angry. Once Cutter opened up (only because he was in trouble and needed her, though) the love story moved along at a much more enjoyable pace. I liked the mystery of the murders and how it linked back to Cutter's past, as well as the humour sprinkled throughout. Overall a really enjoyable shifter story from Price and a must read for fans of this series.

### **Ashley says**

Hedgehog and wolf. I liked these two and the overall story. But, there was a few parts in this book that felt drawn out and were boring. Overall good but the first book was better.

### **sharon kirby says**

#### **Fun**

This has got to be one of my favorites. E A Price is a great storyteller. These characters were marvelous and I enjoyed every minute.

---

### **Rachel says**

Again. LOVED THIS! I can't wait to read the next one.

I loved her and her "curse words" -so cute- and his reaction to them made me laugh. I was so annoyed with them because I wanted him to get his head out of his butt and be with her! This, again, had all the sarcasm and humor that I enjoy and I love that about this writing style. The story was great-although I did call it from the beginning-and I still love the characters. I loved that she was so outright about her feelings for him and

didn't hide them like he did. Normally, it's the other way around, but I loved that she was so bold with her feelings for him and didn't shy away from him during certain parts of the book.

And they shift! I have read some shifter books where they are shifters, but they don't shift! I'm over here with my cat and snacks thinking "what the hell!?" So a BIG thank you to the author for them shifting.

One thing I do enjoy with this series is there is a little 'foreplay' with the characters before they get into a relationship. I like that they don't just get right into it, but it takes a few chapters for them to get to know each other then come to depend on each other and then they decide to get together. I love that there is an actual relationship building process in this and not just a "hello. I'm going to get in your pants and keep you forever" "okay".

Off to the next one!

### **Regina Shiderly says**

Excellent book. I love the story telling talent of E.A. Price. She manages to combine humor, romance, sexiness, and mystery in such a way that keeps me enthralled from the first word to the end. The first book in the series, was a five star read as well.

P.S.: I never thought hedgehogs could be so adorable!

---

### **Melissa says**

#### **Two**

Really terrific book. Loved the suspenseful plot. Loved the romance between Cutter and Lucie. And I love the book cover.

---

### **Shelley says**

#### **Loving this Series**

Total Alpha Wolf with anger management issues, he's taken the course so many times he knows it better than the trainers. Being chased by a very cute hedgehog shifter who loves pink, smells of blueberries, and has some creative ways of swearing. Her only problem is convincing her Big Bad Wolf that she is the one for her.

Loving this series which started with Polar Bears are forever, however you don't have to have read the first one to enjoy this one. Of course the ending leads up to book 3, but I really want to know the directors story. A no-nonsense Python shifter – love it!

The best thing for me it that it's not just about one species, but about all different shifter species. Turning into a great series!

## **Kerry Fenton says**

### **Review:**

I thoroughly enjoyed the book.

It was funny, light-hearted and had me trying to guess who the villains were.

My only gripe is that it wasn't proofread before printing/publishing and there were a substantial amount of errors!

However, this won't deter me from purchasing the next book in the series as I enjoy this author's work.

## **Justine says**

### **Better than the first book!**

Loving this series! Book two was even better than book one. Cleaner. Book one desperately needs a re-edit, the story is great and the reason I kept buying. Glad I did. This installment was a fantastic read; well edited, with very few errors. Already bought 3 and 4!

---

## **Page says**

No...the characters are not complex and the intrigue is not nail-biting, but it is a fun, afternoon read. I found myself laughing out loud at some parts especially when the big bad wolf reaches into the couch to drag out the tiny hedgehog, and stands there yelling at this tiny thing in his hands. I actually pictured it in my head and died laughing.

This is one of those books that is easy going, romantic, and makes you smile.

Looking forward to Book 3.

## **Allena says**

I am loving this series

---

## **Tammy says**

**paw paws**

Never know what will happen if you never give it a shot, thinking of what could have been, when your other self tell you something lesson

---

### **Taz Will says**

The author does a great job at keeping you in the dark on who the real suspect is until the end. Cutter constantly running was good but his reasons behind it was a bit of a let down. Seemed like he could really care less about Dean as well, I thought that would be the reason behind him running. Not sure if I'll read the next one now or in a couple months though because they tend to get a bit repetitive.

---

### **Bea Free says**

Cutter was my favorite character. His temper and snark, too funny.
