Hot Wings Ophelia Bell

Pomona Maurin's biggest dream is landing a coveted position as personal chef to the stars. She's busted her ass and put her to-die-for recipes to the test, yet gained zero recognition for her efforts. That is, until Gerri Wilder discovers her culinary talents and knows just the "stars" who need Pomona's skills the most.

Ignazio Karsten and Bryer Vargas are two of the most famous celebrities on the shifter home planet, Nova Aurora. The dragon shifter duo, known regionally as "Hot Wings," are the reigning Nova Aurora Arena League champions for several seasons running. When a vindictive opponent breaks the rules and nearly kills Bryer during their championship fight, their streak might just be at an end—and so might their careers.

Only dedicated training and a strict diet will ensure Bryer's return to health, and Ignazio's recovery from a deep depression, but even that won't guarantee the duo will make it back into the arena for the next season. They need a chef with the particular talents to fulfill their dietary needs and still satisfy their hungry dragons.

When they set eyes on Pomona, both men know there's only one thing on the menu for them. Will they be able to convince their new chef that they want to share more than just her cooking?

Title: Hot Wings

Author: Ophelia Bell

Series: Aurora Champions (Milly Taiden Shared Worlds: Paranormal Dating Agency)

Designation: Book 1 of Series, Novella(175 pages), Standalone Paranormal Romance, NO Cliffhanger

My Rating: FIVE DELICIOUSLY SEXY STARS*****

Oh my! I loved, loved, loved this book! I'm just so darned excited, I'm bouncing in my seat! I've been a diehard Ophelia Bell fan since she began her writing career and never, ever miss any of her releases. I've also been a loyal Milly Taiden fan for years and I'm totally addicted to her Paranormal Dating Agency Series. Don't get me wrong, I love all her work too but the PDA is, hands down, my favorite! I've read every single book in the series so when I heard the whispers across Facebook about the possibility of Taiden opening up her PDA World, I was beyond excited but I did have some reservations. Other authors have syndicated their series and opened its world to other writers with some being successful and, unfortunately, some not so successful. I'm a dyed in the wool Gerri Wilder/PDA fan and was somewhat concerned that a visiting author would not be able to capture the true essence of this series, its world, premise, characters, and all the little details that make it great but, folks, Ophelia Bell totally nailed it! It's absolutely FABULOUS! So let's talk a few details!

Hot Wings is an imaginative, well-crafted, fast-paced, easy-to-follow sexy romp with both sci-fi and paranormal elements. The narrative is beautifully written in the third person with multiple perspectives from the three protagonists. That's right; I said three as in her, his and his! Oops...a little spoiler but I think if you read the blurb, you already know this is a hot and steamy menage a trois and believe me when I say nobody, and I mean nobody, writes menage romance like Ophelia Bell! Oh my! The dialogue is smart, snappy, seductive, well-executed, at times hilarious, and flows effortlessly. And the characters are absolute perfection. I was immediately smitten with the three protagonists, human aspiring personal celebrity chef Pomona Maurin and handsome alien dragon shifters Ignazio Karsten and Bryer Vargas from the planet Nova Aurora. Of course, we also have the matchmaker extraordinaire Gerri Wilder who just happens to be a wolf shifter herself and owns the world renowned and wildly successful Paranormal Dating Agency... or I should say universe renowned since she also has aliens clients hailing from all parts of the galaxy. And she has a perfect track record! There's no match she can't make... even when the parties in question don't even realize they are in need of her services! But when has that little detail ever stopped Gerri? Never! Gerri Wilder is one sneaky little matchmaker and seems to have the uncanny ability to always know what people need, even before they know themselves... just like Pomona, Ignazio and Bryer! Did I like this book? No, I LOVED it! Would I recommend it? You bet and I am but only for adult readers, especially ones who enjoy sexy romance filled with agonizing angst, laugh-out-loud humor, heartwarming romance, steamy passion and lots of heat, both in and out of the kitchen, if you catch my drift! Will I read this author again? Abso-freakin-lutely! Ophelia Bell is a master craftsman as well as an exceptionally talented and skilled wordsmith. She excels at creating unique storylines with vividly depicted worlds and beautifully detailed descriptions, then populating her creations with intriguing, engaging larger-than-life characters who will surely capture your imagination along with your heart. And finally, was I entertained? Completely! Fabulous entertainment and an awesome read!

As long as Pomona Maurin could remember, her dream has been to become a chef. But not just any chef... Pomona wants to be a personal celebrity chef and cook for the stars. And she's well on her way to success as the Sous Chef at a well-known five-star restaurant. She has devoted her life to fulfilling her dream but she's finally had enough of her rude, crude and tyrannical boss. She probably should have kept her mouth shut but

once again, she allowed her temper to get the best of her and blasted her bully of a boss, telling him exactly what she thought of him... and it wasn't pretty. Then, she'd quit her job. Well, kinda. Technically, her boss fired her and then she'd quit, but it's only a matter of perspective, right? Unfortunately, her view of the situation doesn't count because now her boss will badmouth her all over town which will most likely prevent her from ever getting another job locally. She may have destroyed her career and now her dream of becoming a celebrity chef may go up in smoke, simply because she couldn't keep her temper under control and her mouth shut. So, I guess it's a good thing Gerri Wilder was in the restaurant to witness her meltdown and all too ready to work her magic and help Pomona solve her problem. Sadly, Gerri Wilder isn't a food critic, doesn't own a restaurant and doesn't need a personal chef but she does own the Paranormal Dating Agency. But Pomona doesn't need a date... she needs a job! Well, maybe Gerri can help with that as well. She does have a lot of connections and knows two celebrities who will soon be in need of a personal chef. Problem solved! Well, maybe but there are a few little hiccups! First, the job she has in mind for Pomona is not local. Heck, it's not even on Earth! What? That's right; this job is on another planet called Nova Aurora. Oh my! And then, there's the second little hiccup... the two celebrities are not only aliens, they're both shifters... hot, handsome, hunky dragon shifters who are the reigning champions of the Nova Aurora Arena League and they come as somewhat of a package deal since she'd be cooking for them both. Oh dear! What's a beautiful, voluptuous unemployed chef to do? Beam me up, Scottie!

World famous and highly revered dragon shifters Ignazio Karsten and Bryer Vargas have been living the good life for the last ten years as the undefeated Nova Aurora Arena League duo champions. Only two more years and they'll hold the world record on Nova Aurora for consecutive winning seasons. And their final victory for the season was in the bag until Bryer was gravely injured by a jealous, cheating hyena shifter. Now, Bryer may never recover, much less be able to fight in the arena again. But there is a chance, a very slight one. He may be able to recover if can follow an intensive physical therapy regimen, eat the proper foods, and reconnect with his inner dragon. But to heal his dragon, Bryer must find his mate and how is that even possible if he can't get his not-so-little soldier to stand at attention. Oh no! Ignazio and Bryer are famous for more than just their fighting skills; they're also famous for their lovemaking skills! The entire planet knows of their playboy ways and their annual bets of who could bed the most women during their three month off-season. It looks like they need a new bet for this season... who can find their mate first. Unfortunately, neither are thrilled at the prospect of looking for a mate. Why should they want one woman when they can have them all? Plus, once they find their mates, they fear it will interfere with their partnership, drawing them apart. Most Arena Champions stop competing after mating and Ignazio nor Bryer have any intention of retiring anytime soon. It's beginning to look like neither will win the bet this year which also means they may never be able to compete again. But there's always hope, right? Especially when in it's in the form of a beautiful, smokin' hot female chef from Earth recommended by matchmaker extraordinaire Gerri Wilder. And this little human seems to attract both men and their dragons. Oh dear! Two men and only one woman??? What are two highly competitive dragon shifter champions to do now? You'll have to read the book to find out!

Brilliant! I loved the authors style of writing, loved the plot, loved the characters and am addicted to this series as much as Ignazio and Bryer are addicted to Pomona's food and body.

Pomona's dream is to be a personal chef and after being fired/quitting her current sous-chef job, she has the lucky fortune of meeting Gerri Wilder, professional Matchmaker and just the person to help Pomona find a new job.

Ignazio and Bryer are dragon shifters and World Champion athletes. The duo take a hard blow when Bryer is

injured during their last fight of the season and the only hope for him to recover fully is to eat healthy and possibly find a mate.

Ig and Bry instantly recognize Pomona as their fated mate upon first sight but both are too stubborn to admit it, to her and to each other. They currently have a bet going that the first to find his mate wins but there are extenuating circumstances that prevent them from claiming her.

This book is written from a multiple pov (menage romance), can be read as a standalone and is a H-A-W-T fast read. Recommend for all dragon shifter lovers.

Louise Nunn says

A heartwarming, sexy and easy to get lost in kind of book.

I loved this book! Everything about it appeals to me as a reader. The story is interesting, the characters are easy to love and have good relationships amongst themselves. I enjoyed it even more because it is just extremely well written and obviously the author took the time to make it as polished as she could before publishing it. The story has an easy to follow, nice and even flow. The dialog is consistent with regular conversation and not tied up with any hard to understand or pronounce new terms or situations, which is kind of becoming an issue with some sci-fi books I've read recently. There is no drag at all with unnecessary exposition or long drawn out inner monologues, it is all just perfectly paced! Ignazio, Pomona and Bryer are full characters, and even the minor characters were cool to read about. Each one brings their own perks, kinks and hang ups to the situation. There are so many instances in the book where you can see that there is something deeper going on than they are ready for, that you just want to read on to see when they finally get it! There are some really hot, like I mean really hot scenes that will make your eyeballs sweat when you read them, done tastefully and consensually.

No aliens were harmed in the writing of these scenes. I was gifted a book and voluntarily read it and enjoyed it enough to leave a review for others to decide for themselves. You just need to read this book and fall in love with some dragons, man!

Tracey Longway says

The world knows food can heal but when love is added to the mix anything can happen. This book is part of the PDA series and Gerri Wilder is a matchmaker with a twist. My feelings were so confused - I was so hunger and hot under the collar at the same time. When a culinary genius quits her job as a sous chef working under the boss from hell, Gerri Wilder just happens to be there to offer her a job as a personal chef to a pair of extremely hot Champion Dragon Shifters on the planet of Nova Aurora. These two are the ultimate in players. Their off season time seems to be a personal competition between the two of them in who can take the most women to bed. The twists and turns that these two go through to finally claim this culinary genius as their mate (yes both of them) will leave you cheering. You need to read the book to find out how sweet and loving and stupid they really can be. The hot steamy off the charts dragon sex will lead you to need a cold shower (or a willing partner - LOL). Can I get Gerri to find me an off-world mate?

I received a free copy of this book via Booksprout and am voluntarily leaving a review.

Pomona is a chef, that is all she wants to do. Then when one door closes on her another one opens. The person to help her find and fulfill all her dreams, even the one one that she didn't know that she really wanted, Gerri. Gerri help her find a job as a personal chef on another planet, which Pomona is okay with. She get to start over and make a name for herself if things go well. But then she sees her employers and other thoughts starts going through her mind. Will Pomona be able to act professional during her employment?

Ignazio and Bryer are champions and use to getting any and everything they want. But an injury to Bryer has set them both back. Their only hope is Pomona. But will they let their secret prevent them from helping each other out? And will they run her away with all the yo-yo acts they are doing to her?

I really liked this book. I could not put this book down once I started reading it. The flow of the story was on point. You will fall in love with the characters. This is my first time reading this author and I can wait to pick up another book by her. I highly recommend this book to others.

Rebecca Grove says

Bryer and Ignazio were the reigning Nova Aurora Arena League champions and their future was looking bright until a poor lose clawed Bryer with poison right after the championship match was over. The poison was so bad that Bryer was hospitalized for weeks and there are doubts if a full recovery will be made. The doctor said that the best way to Bryer to heal is for him to reconnect with his dragon and to find his fated mate. Ignazio knows that Bryer will need incentive to find his mate so he changes their yearly bet from who can have the most women to who finds their mate first.

Pomona is a human chef who makes Gerri Wilder's favorite dessert. After Pomona is fired, Gerri arranges for her to become the private chef for two star athletes on another planet. When she arrives, her bosses, Ignazio and Bryer are super hot looking guys. This job seems to be a dream job. Both men realize that Pomona is the one for them but neither is willing to act on it. Bryer is still having physical difficulties from the poisoning and is afraid he isn't "up" to mating her. Ignazio is holding off in order not to make his friend and partner feel bad. Neither man mentions to each other or to Pomona that she is their true mate.

This is a great story with a sweet menage romance. I voluntarily received a copy of this story and this is my honest review.

I loved Ophelia Bell adding to Milly Taiden story line. I have read all of Milly's stories and Ophelia's so this was such a great surprise and added bonus.

Ignazio Karsten and Bryer Vargas are famous fighters but are down for the count due to injury. They need special treatment that includes diet and time off. Enter Pomona who's biggest dream is to cook for famous people and have them enjoy her food. But she had no idea what she was getting into when she decides to go to a different world and work for two hot and steamy dragons.

This is a great paranormal romance that brings two strong individuals together, that have worked together forever, but yet are surprised when they both fall for the same woman. And a woman that even in her wildest dreams never thought she would want two men together let alone two dominant dragon fighters. The three of

them all together is a hot storm of sex and romance.
Loved this book and it is a great addition to this collection!
I voluntarily read an advance reader copy for my honest review.

Paranormal Dating Agency: Hot Wings

??????????

WOW! OMG This story is FANTASTIC! It's such a fabulous reading and I am so impress with how FANTASTIC this story is! This is about two Dragons finding their mate and it's so creative with just the right amount of awesomest. Ophelia Bell writing is one of the greatest and foremost descriptive storytelling that allows me to see and feel as I am pulled into the story while I read. Her story concept is well written with characters that's well developed. This features two Dragon shifters Ignazio Karsten and Bryer Vargas are two of the most famous celebrities on the shifter home planet, Nova Aurora. They are a dragon shifter duo known regionally as "Hot Wings. The two are the reigning Nova Aurora Arena League champions for several seasons running. When Gerri Wilder discovers Pomona culinary talents she knows just the "stars" who need Pomona's skills the most. Pomona busts her butt and put her to-die-for recipes to the test, but when Bryer and Ignazio set eyes on Pomona, both men know there's only one thing on the menu for them and that's Pomona their Mate. What a story its ABSOLUTELY PRICELESS and I have enjoyed the characters, they are sizzling hot, interesting, exhilarating, intriguing, sensual and charming. The dialogue is sensual, witty, exciting, fun and believable. This story is fast-paced, with a great flow which you won't be able to put down, it's steamy hot, there's drama, sex and I thoroughly enjoyed every word of this book and I can't hardly wait to read the next book that Ophelia Bell writes because each book gets better and better.

I will need your talented tongues again soon. Our tongues are at your service day or night. For tasting, of course. there was something about this man ... both men ... that just sent her mind spinning whenever she was in the same room with them. You're about to get your salad tossed, baby! HOT WINGS! YOU'RE MAKIN' YOUR MARK! HOT WINGS, YOU'RE WEARING ME OUT! HOT W..I..N..G..SSS...*ahem* Sorry! Couldn't help channeling Rod there for a sec! This book is PARA-PHENOMENAL!!! I ABSO-SHIFTING-LUTELY love, Love, LOVED every delicious little morsel! While it definitely has the Ophelia flare to it, it is "lighter" than her usual stuff and a true treat to read, and I thoroughly & immensely adored it all the same!! The characters are complex & well developed - VERY well developed! wink - with these personalities that had me laughing, crying, worrying... basically feeling everything that they were feeling! And just like every book of Ophelia's, I lived & experienced it all with, for and as the characters. I have to say that Pomona is one helluva character whom I admired & connected with from the very start! It was DEFINITELY a doubly blissfully orgasmic experience to live out this story through her eyes (and other parts! wink), to feel it all with, for and as her! Ignazio & Bryer are two very hot Dragon Shifters who surprised me constantly! Knowing what they do for a living, I honestly wasn't expecting them to be capable of the depth of emotion they both wore on their arms, sorry, wings! Although I should know better given how familiar I am and how much I love, Love, LOVE Ophelia's books! After all, it's that immeasurable

talent & natural, exceptional gift of hers that drew me in from the very beginning and keeps me drooling & begging for more!!

Linda Levine says

I love paranormal romances and menage so this was a great choice for me. The paranormal dating agency is a fun series that I recommend and each is a standalone.

Pomona, Ignazio and Bryer make great friends and lovers. Pomona is looking for a new start and cooking for these famous dragons shifters on another planet seems like a good plan. Ignazio and Bryer are in a bad place. Bryer is recovering and has concerns about his future. Ignazio is trying to be supportive. They are shocked that their new chef is their mate and not ready to proceed. It leads to some misunderstandings.

I really enjoyed the story. I liked that Pomona is a strong female character and stands up for herself. They really make a great triad and have this amazing chemistry. They just have to learn to communicate better and be honest about their feelings. The dragon shifters really change their lives when they meet their mate and show her the respect she deserves.

I am voluntarily reviewing a copy I received,

** ARC RECEIVED IN EXCHANGE FOR AN HONEST REVIEW**

(As per author's request, review has been posted on the release day of the book)

This was a super cute read, but not in an annoying way at all. First off, I was so fucking hungry throughout most of the book and I didn't even know what half the food and desserts were, but the way the ingredients were described and the way everyone seemed to enjoy the food, had me scrambling for my own goodness!

Pomona, lovely name, was an awesome character. She was witty, smart and didn't shy away from what she wanted. It was refreshing to finally read about adults who actually act like adults instead of stupid ass teenagers. Between Pomona, Ignazio and Bry, they made everything work. Even when they decided to just keep things in the friends zone, there was no awkwardness nor tension, everything just kind of clicked and that made the story so much more enjoyable! Ignazio was a bit of an ass, trying to literally screw himself to death and subsequently doing the same to Bry but kudos to both of them for being loyal and faithful to Pomona once they realized who she was, even if they were jackasses in keeping the information to themselves and from each other.

Overall it was a sweet, cute and enjoyable quick read, with smoking hot chemistry that leads to even smokier and hotter sex!

Kim O'Daniel says

Well hell! How do I review this? I loved Ophelia Bell's books, but I have been in love with Milly Taiden's "Paranormal Dating Agency" world. Since the beginning. But I have to say if anyone could do justice to such a great series it would have to be Ophelia. The book is so well written you can almost not tell the difference. But I do love the spice she brought to this book.

This book is about Pomona and two devilishly handsome dragon shifters. Ig and Bry. They are athletes but when Bry is injured so bad his dragon cannot heal him. They only chance he has of recovering is to find his mate. But he does not know this. It's when he finds her he has a small problem (well maybe not so small) but it will make it hard to claim his mate. But at the same time he finds his mate but wont claim her till Bry finds his. Freaking typical men. If they just talked it would be so easy. So now it is up to her to cook to help get them to talk. She just may have the answer they need. Also I want that recipe for that spicy chocolate mousse too.

Now before I ruin this for you I will leave off here. I hope you enjoy this book as much as I did. If you do like this book, please consider leaving a review. The Authors really like it when you do; they value your opinions too

Oh my spicy dragons

This book was off the charts. I was hesitant about reading it at first but boy am I ever glad I did. This was such a great story. The characters where so good. Totally relatable. When a pair of dragons on Nova Aurora get into the ring one of them gets hurt badly. They need a chef to fill in for there's when she takes maternity leave. In steps Gerri Wilder lol you no this old brod got a trick up her sleeve. She's sends them a chef alright but she just happens to be their mate. When both dragons take their sweet time telling her that she's their mate she thinks it's just sex hot steamy off the charts sex but just sex. Can these two dragons pull there foot out of their mouths in time to get her to stay? Can she heal the dragon who needs not only physical but mental healing? I absolutely loved this book. I highly recommended it it's so good.

Pomona, Ig and Bry

Pomona is a human chef. She cooks fabulous meals at a five star restaurant. That is until her jealous boss fires her. Geri Wilder goes to the restaurant at least once a week because she loves the new recipes and a delicious chocolate mousse. When Geri over hears Pomona's argument with her boss, she follows her into the bathroom. Geri offers to find her a private chef job working for shifters.

Bry and Ig are dragons on planet Aurora Nova. They are champion athletes. After the final match of the season when the ref was announcing them winners, the loser hyenas cheated and clawed Bry with poisoned claws.

In order to recover he needed three things, strong physical therapy, the right meal plan, and his mate.

When their current chef goes on maternity leave for six months, Pomona steps in. Each dragon knows that she is their mate at first sight but doesn't tell each other or her. Things happen because neither tell the truth about the mating situation.

This is a good addition to the PDA books. I love a good menage.
