Rebels and Tyrants

Welcome to Krynn, where magic and fantasy are commonplace.

In this collection, Don Perrin offers the story of a family of minotaurs cursed by Sargonnas to repeat their heinous crime of betrayal year after year after year. The god himself enjoys materializing to savor their torment. Until one year, Sargonnas doesn't show up . . .

Jim C says

This takes place in the Dragonlance universe. It is a collection of short stories that deal with the diminishing power of magic.

Most anthology sets receive a three star rating from me as I feel there are stories that are excellent, some stories are average, and some stories that I dislike. This anthology set was a little different as I felt that there were no average stories. In this collection I either loved the story or really disliked the story. Still averages out to a three star rating. I do think this collection has something for everyone as it has minotaurs, knights, and even a romantic story.

I believe this to be one of the better anthology sets in this universe and if you have read Dragonlance books this one is enjoyable. If you are new to this universe I suggest a different starting point.
