The Adjustment Suzanne Young

This is an alternate Cover Edition for ASIN: B01GD9CL5S.

How do you go back to a life you can't remember? Find out in this follow up to the *New York Times* bestselling *The Program* and *The Treatment*.

Tatum Masterson never went through The Program. She never had her memory stripped, never had to fight to remain herself. But when Weston, her longtime boyfriend and love of her life, was taken by handlers, she hoped he'd remember her somehow—that their love would be strong enough.

It wasn't.

Like all returners, Weston came back a blank canvas. The years he and Tatum spent together were forgotten, as well as the week when he mysteriously disappeared before The Program came for him.

Regardless of his memory loss, Tatum fights to get Weston to remember her. And just as they start to build a new love, they hear about the Adjustment—a new therapy that implants memories from a donor. Despite the risks, Tatum and Weston agree to go through the process. Tatum donates her memories from their time together.

But the problem with memories is that they are all a matter of perspective. So although Weston can now remember dating Tatum, his emotions don't match the experiences. And this discrepancy is slowly starting to unravel him, worse than anything The Program could have done.

And as the truth of their life together becomes clear, Tatum will have to decide if she loves Weston enough to let him go, or to continue to live the lie they'd build together.

Prepare for your Adjustment.

i really loved this series two years ago so here we go

Olivia says

AAAHHHHH HOW AM I SUPPOSED TO WAIT A MONTH FOR THE NEXT ONE?!?!??

jessica says

wow. i forget how easily i get sucked into these books. i practically flew right through this!

what i will say is how even though this is a continual series, each mini story holds its own. its been awhile since i read the other books, but i didnt feel lost at all. as with before, this book gave a new perspective about the program, particularly its lingering effects after its been disbanded. i thought the plot of this was very interesting. memories are so subjective, so it was hard to really trust tate. i wouldnt call her an unreliable narrator, but i was constantly second guessing everything that was going on in this. it definitely kept me on my toes.

i have no idea where the story will go from here but im really interested to see how it all plays out. the only thing i have to say is if tate and weston dont end up together, im going to be writing suzanne young a very strongly worded letter!

? 4 stars

"We promised it'd be okay. But we were liars."

The adjustment. It's scary just by name, too close to The Program. This new group is trying to undo the damage of the original erasing. But how can anyone erase the pain and fear and panic that was The Epidemic. We've heard of solutions before.....that's what the original Program was - so how can we believe this solution will be any better than the first one.

Intro Tatum. Tatum has already lived in a world with The Epidemic and The program. She remembers the depression and fear, she remembers friends and strangers alike disappearing. Near the beginning of the book,

not only do we have Returners having crashing flashbacks, we also have more suicides and losses. This world is still in chaos and still as damaged as it was to start - maybe more so.

Tatum lost one she loved. She lost Weston. He was taken by The Program and is now a returner. She's hoping he will remember her, that he'll still love her. Even though Tatum is surrounded by a family that loves her and friends that support her, she still desperately needs Wes to be okay and to remember her. She needs to love him and for him to love her.

I definitely can't wait for the next book. I was shocked by the returning names we knew. I mean....no way (view spoiler) but I think what I'm the most confused about (view spoiler) I wish I was reading these books back to back. This was another amazing addition to the program series.

Rissa says

One forgot the other remembers. Will the adjustment help him remember, help undo what the program put him through. I really enjoyed diving back into this world and i loved how she had Solane and James mentioned and Micheal appeared briefly! Tatum and Wes are not my favorite couple of the series but I do like idea of the adjustment and how Tatum has to "donate" her memories with Wes in order for him to remember. I highly recommend this series and cant wait to see whats next in the series!

Holy shit! Suzanne Young is unreal. I've never been so enthralled with a series from start to finish. I can't believe there's only one book left and I have to wait forever again :(If you haven't read these yet, DO IT. I have to say I had a few predictions that came true by the end, but so many other things surprised me. Seriously Young is a master. I loved it.

Christy says

Interesting next step in the Program series...Missed the characters from the original series.

So, why should you pick it up?

-Series within a series. Each set of two books is a total story within the world of The Program. The Program and The Treatment center on one set of characters, The Remedy and The Epidemic center on another, and The Adjustment and The Complication have their own set of people. There is some crossover and having knowledge of the world is helpful, but not required. Suzanne sets up each duology so that you're not lost.

-Speaking of characters...OH BOY are these characters the kind you can't get enough of. Each of them has their own experience with The Program and the adults controlling the experiment. Plus there's some romance <3.

-Unputdownable. I sat in the sun so long while reading The Program that I had a sunburn! I didn't want to put it down! I also cleared my TBR for The Adjustment. Once you start, you can't stop. Good thing there's 5 of them so far.

-Relevant. Considering the suicide clusters within our country, The Program feels like something that could totally happen. Let's learn from the mistakes in the book so we don't have to go through what the characters

in the stories go through,

-The Covers. Oh, how much do you love how matchy-matchy this series is?! I totally do.

MischaS_ says

Hold on! When did this happen? I thought there were only two books in the series! And now this? How is it possible? When did this happen?

I feel like I say this all the time, but Suzanne Young is a master. She amazes me every time I read a new book in The Program series with the genius way she writes the books and connects them. She has this ability to take a detail you don't even think is important and making it into something you never expected in this series. She did it in all 4 of the other books I have read, and The Adjustment is no different.

It's hard to really talk about Tatum and Weston's stories without giving too much away. The Adjustment takes place after The Treatment (book 2) ended so The Program is no more and Tatum is now living in a world of after. No one knows what the effects of The Program are and how to actually go back to life before The Epidemic. It's an uncertain time where people are scared about the effects from The Program. Returners are different. Their memories are gone and some are acting out. Because of this The Adjustment is created. The Adjustment is a way for returners to get their memories back and to start to feel connections to the people that were once taken from them. It is a program that is created with bits and pieces from Suzanne's other books in the series and ties everything together nicely.

This is what I love about Suzanne's writing and these books in particular. She manages to connect everything in a way you don't really expect. She brings you back to the beginning, to everything you know and makes it all work together flawlessly. It is like the Godfather trilogy in a way. The movies weren't released chronologically so you find out the after before you see the before. But when watched as a whole it all makes sense. That is what Suzanne has done with The Adjustment. She has made all the stories and couples that I know and love and made them all intersect in some strange way that just works.

Like I said, I can't say too much about the actual book without giving away previous books and the important parts of The Adjustment. Just know that Suzanne does what she always does and your stomach is in your throat by the end and you are left wanting to know everything and needing the next book.

In case you were wondering this is how you should read this series:

The Program
The Treatment
The Remedy
The Epidemic
The Adjustment
The Complication (out 2018)

Basically add this series to your TBR.

IT'S FOLLOWING THE COVER SCHEME BUT IT'S ALSO NOT BC THERE ARE SUPPOSED TO BE PEOPLE and oh my god.

how long must i wait for this why is the world so cruel

UHM EXCUSE ME WHAT IS THIS AND WHY HAVE I NOT HEARD ABOUT IT

Sarah Louise says

It's no secret that I love this series. The Adjustment follows the residual damage left behind by The Program, and it is anything but a happily-ever-after.

Before The Program, Weston and Tatum were inseparable, but as a returner, Weston has absolutely no memory of life prior to his treatment. For Weston, Tatum is just another girl in his class, but for Tatum, Weston is her *everything*. When a chance arises to regain the memories stolen by The Program, should love triumph the risks? The three relationships followed within this companion series all have their heartache, but the sheer PAIN surrounding this one tugged just a little harder. It was fragile, yet desperate, and it hurt in all the best ways.

A shocking, suspenseful epilogue seems to be the trend within this series. Partly because I was expecting this, the big reveal within *The Adjustment* didn't pack as much of an emotional punch as I hoped, unlike *The Remedy*, which left my jaw open for days. It left a huge door open to explore in *The Complication*, though, so I'm anxious to see how an impossible situation can be tied together neatly.

Pre-release thoughts:

Just when I thought *The Epidemic* was going to be the last we'd see from The Program series.

Colleen Houck says

Lots of secrets in this one. Loved the surprise at the end. Once again, there's a swoonworthy hero. I like that he can't forget the girl he loves no matter what the doctors do to his brain. I feel like we're ratcheting up to a conclusion and I'm excited to see what happens!

Melanie says

A thrilling new edition to The Program series! Readers will love Tate and Wes as much as the previous couples in this series. This one is set after the original trilogy. The Program may be destroyed but the world hasn't returned to normal... suicide clusters are still happening and returners from the Program are attempting

to regain lost memories through a risky experimental process called The Adjustment. And the Adjustment is run by none other than Quinlan's father and Marie! Also Sloane and James are talked about a bit, credited for taking down the Program. AND Realm has a cameo! That poor, broken boy. Alright, Program junkies rejoice... we have more stories from Suzanne Young <3

Mlpmom (Book Reviewer) says

4.5 Stars!

The Program is one of those rare series, that not only gets better as it goes, but one that will capture your interest from the very first page.

It is unique, horrifying, and completely believable in almost all aspects of design. It is one that can be felt and imagined and that is what makes it so darn good and so addicting.

It is a series that captured my love for it after the first book and one that has only grown as the series has progressed and evolved. It truly is one of a kind and this latest installment might very well be my favorite yet.

For fans of the series, we know that the stakes have never been higher and the danger more real. Even though so much has happened and so much has changed for the better, there is still so much more bad out there. There are still conspiracies and dangers lurking around every corner and The Adjustment just proves that just when you think it is safe to go back into the waters, a shark jumps out and grabs you.

This was an action packed adventure that pulled at the heart strings and left me reeling and wanting more. It amazes me how far Young has come with this series and with the ending the way it was, how much is still left to reveal and tell.

I can't not wait for more. This series continues to stun and leave me breathless and most of all, leaves me craving more.
