## My Diarrhe Miranda Sings

From the #1 New York Times bestselling author of Selp-Helf comes the “leaked” diary of YouTube comedic personality Miranda Sings.

Taped together so the world can read all about her life through her eyes, My Diarrhe includes pages from Miranda’s baby book, poems from her years as an emotional teen, secrets from her dating life, and stories from her rise to fame. As Miranda herself says, “It has every single secret about my life in it. My first kiss, my first period, stories about secret family members, secret photos of other celebrities, etc... so don’t read it!”

I pre-ordered this forever ago and I got it yesterday. It's just about what I expected - what it's described as is what you get. It's not going to give you a glimpse into Miranda's inner workings or anything like that, it's all very surface level, but if you enjoy good laughs and a well put together, colorful book, it's cool to have on your shelf. It definitely made me laugh out loud at many points and what blew me away was the attention to detail in all of the hand made pages. Colleen has truly put so much of her life into this character and so much love into her and it shows on every page. Do I think this is the next great American novel? No. Would I prefer Colleen to write a book about her real self - an honest and frank account of her life thus far? Of course! But I did enjoy this for what it is.

Another amazing book from one of my favourite Youtubers. This lady's talents are astounding. This book is so much more than just a read, it's a laugh, it's full of surprises and if you know Colleen it's full of emotions. Definitely worth picking up!

A perfec book to read for listick tips and if you want to learn to how to be famus and ignore your haters. I read this with my sister, a fellow Mirfanda, and we had a few good laughs. Some of it can be slightly tedious, but overall I found myself smiling the entire way through.

If you're a fan of Selp-Helf, you'll enjoy this too. Obviously it's not a long read and you can probably breeze through in one sitting - but it's a refreshing break from the norm and makes for a nice pallet cleanser. It may seem like a cash-grab at times, but I have to commend Colleen Ballinger on keeping Miranda fresh and funny to both new and old fans alike.

### A little too gimmicky

I love Miranda and got the book - intending to give it my teenage niece who is a fellow MirFANda- but definitely had to read it first.

I was a little disappointed bc it was a cheap attempt to make even more money of this character.

Ancora una volta sono sorpreso dalla creatività di Colleen. Può sembrare un libro banale ma non lo è, almeno chi segue Colleen e Miranda su YouTube apprezzerà questo libro, perché in queste pagine create a mano (ogni dettaglio ben curato) ritroveremo la storia di Miranda dagli esordi fino a quest'anno, per questo se siete fan di Miranda/Colleen vi consiglio di leggerlo. È una lettura ovviamente molto leggera, non richiede tanto impegno, massimo due ore e lo finite, però veramente, è fatto a mano quindi immagino e la costanza e l'impegno e il tempo passato a creare queste pagine, quindi complimenti a Colleen. Spero vivamente che riesca a scrivere un libro come se stessa, poiché lo leggerei molto volentieri e sarei curioso di leggere i fatti successi a Miranda (anche più brutti) dal suo punto di vista.

A must-read for Mirfandas! Exclusive access to seven diaries that the most famous YouTube star, Miranda Sings, taped together and compiled into one book. Complete with QR codes and favorite snacks taped to pages, you will gain insight into how inventive and talented C?o?!l?e?e?n? ?B?a?!l?i?n?g?e?r? Miranda Sings is. If you don't appreciate entries like the ones on pages 70 and 92, then HATERS BACK OFF! (Even though haters are just super fans).

4.5 out of 5 stars

Really enjoyed this over all. Had some moments I hella hard core cringed but I loved learning even more about Miranda Sings and I can't even imagine where Colleen came up with some of this stuff!

If you like Miranda Sings and Haters Back Off, you are going to enjoy Miranda's diarrhe. It is full of photos and funny little notes about her childhood and growing up.

I really miss Haters Back Off so it was nice to see all of the characters again! A fun read. I wish there was more!!!

Being a fan of Colleen and watching her excitement for this book was what really fuelled my love for it. I read it in 3 days casually on and off and it was exactly how I expected it to be. It was hilarious and the details in every page was amazing -

PLUS I felt like I saw more of Miranda from Haters Back Off, a glimpse into the strange mind of Miranda (there were some heartthrob moments).

I don't have any criticisms, but it also wasn't a 5 star for me because it was exactly what I expected and I'm trying to be more critical with my reviews.

### **Kat Wells says**

I loved this, the only reason its not getting a 5 star rating is just because I am not the biggest fan of how miranda talks. I completely understand its her character but I just have a hard time reading it sometimes. But I did enjoy seeing her "diarrhe" for her life! Cute book to read if you are a fan!
