*Jackie Collins*

## **Hollywood Divorces** Jackie Collins

In her most scandalously titillating novel since the #1 bestselling *Hollywood Wives*, internationally renowned author Jackie Collins once again takes her readers behind the scenes and into the bedrooms of Hollywood's glamorous world of superstardom, where narcissism is a virtue, and fidelity means not sleeping with anyone less attractive than your spouse.

WHEN HOLLYWOOD WIVES WANT MORE, IT'S TIME FOR *HOLLYWOOD DIVORCES* . . .the bestselling novel of lust, betrayal, and breakup in L.A., where fidelity means never sleeping with anyone less attractive than your spouse.

Three glamorous women with ambitions fueling their inner fires— and agendas that may or may not include those they've vowed to love and honor. From the casting couch to superstardom, from the director's chair to worldwide acclaim, they go after what they want without guilt. Without regret. And never without scandal. Here are the relationship shockers that even the tabloids don't know: who's playing whom, who's getting dumped, and who's walking out the door. This is domestic drama like never before, as only the "EVER STYLIN'" (*Publishers Weekly*) Jackie Collins can tell it.

## From Reader Review Hollywood Divorces for online ebook

### Joanne says

3 1/2 stars.

---

### Elizabeth Emily Browne says

Jackie Collins is a brilliant author. This has been on my shelf for a while however I have the book with the pretty green colour hence why my eye was drawn to it. I really liked this book and Shelby, Lola and Cat it was all just really good. The only reason I didn't give it 5 stars is because I have read better books. I love how this book is a light, summery, easy to read chick- lit.

---

### Julie says

Oh Jackie Collins, I do heart you. When you pick up her books, you can expect fame, glamour, sex, drugs, and treachery. One cannot be critical of her books, as they are meant for light, fun reading, not for book-club-level examination. I flew through this book, and enjoyed every minute of it (besides the saccharine ending, but like I said, what else are you to expect?). The women were all sharp and fun, the men were all assholes, and everyone got what they deserved in the end. I'm totally having a girl moment, but I thought Cat and Jonas would have been perfect for each other. I loved the banter between them, but alas and alack, it wasn't meant to be - probably Jackie's version of throwing a curveball. Next up for me to read - Hollywood Wives; the Next Generation :::shiver of anticipation:::

---

### Susan says

Well I didn't really expect it to be that good to be honest but I was pleasantly surprised. I wasn't overly keen however on the constant changeover of each character's life which was practically on a paragraph by paragraph basis. Quite annoying really as just as you got into one character's life, next paragraph it was another and then finally the third main character. This was repeated throughout the book. It would have been better as a character per chapter and as there were 47 chapters, this would have been really do-able!

Nonetheless, I think I enjoyed it apart from that.

### PurplyCookie says

Picked this up at a book sale and figured why not give this author a try. True to the book's title, "**Hollywood Divorces**" serves up steamy stories of Tinseltown's celebrities. The tale of the three characters unfolds in true Hollywood style-fascinating plot, surprises and characters based on real-life Hollywood figures--readers will be able to guess the celebrities behind the characters Collins has created.

Shelby Cheney is the beautiful actress married to Linc Blackwood, the aging action star with a flair for one-

night stands and the unquenchable taste for booze, but after a powerhouse performance in her new film and the accidental run in with an ex-boyfriend, Shelby will re-examine her life and the choices she has made. Lola Sanchez is the sexy star who climbed to the top the hard way, and in her past is a secret that fuels a plan of revenge. As an unknown Lola met Linc Blackwood at a party, believing she has hit some good luck, Lola sleeps with Linc in the hopes of his helping her career, but instead she gets used and shoved off without Linc remembering her. Now, as Lola is a huge superstar, she enacts her plan to bring down the man that wronged her. Cat Harrison is the wild-child writer/director that has a huge hit on her hands and a future that all of Hollywood is talking about. As Cat's career is taking off, her husband, Australian musician Jump Jagger is touring the world and sleeping around, but Cat is no fool and after catching Jump cheating she's forced to make a decision.

Don't expect a truly exciting plot, but do expect plenty of infidelity, greed, narcissism, and revenge. The novel catapults into bloody tragedy and, later, of course, eternal happiness, as Collins delivers a predictable Pollyanna ending.

#### **Stasha says**

I loved it - found it difficult to put down. I'm still trying to figure out who the characters were based on...

---

#### **Dianne says**

Oh my gosh. This was such a poorly written book full of clichés and a fairly predictable to story and outcome. I have read some other Jackie Collins book and I do not remember them being quite as lame as this. Maybe it was just because I read this after reading Lawrence Sanders but the writing seemed so amateurish and lacking. That said I did like the Cat character although it required some stretch of reality. I read this to start working my way through the stack of books on my dresser. Not sure where I got this book, but it is free to anyone who would like it.

---

#### **Jenelle says**

This is the first Jackie Collins book I have read, I didn't realize how sleazy it was going to be, but I decided to read it out of curiosity, to see if the story was any good, it was mediocre...I would not read anymore of her materials. Not for me: ( 10/13/17 ~ Harvey Weinstein could be the character "Merrill" in this book...I changed and gave her 5 stars instead of 2 stars...because the more that comes out on the news regarding Harvey Sweinstein, the more I think Jackie Collins was writing her story from being absolutley a Hollywood insider, and why everyone is so shocked now is weird...she wrote her story in 2003...including the scene on the boat...sleezy? YES...truth? I think so...historical fiction by Jackie Collins! RIP Jackie...the old goat got caught.

### **Kaylynn Mocke says**

Not my favorite. Took a while to get into and a drag to finish, but I love Jackie Collins.

---

### **Divya Sharma says**

This is my first Jackie Collins, and I must say that I had expected much more than what I got. Book is interesting, will keep you hooked (you might end up reading it in one go) but you will still feel that there is something missing. The story is nothing that you wouldn't have read before. Though the characters are very well defined, the climax looks a bit abrupt. Seems like the author was in a hurry to wind everything up.

Take it as a light read in between your other better books. Its a good time pass.

---

### **Jessica says**

I really enjoyed this book! Such a quick and easy read! I liked how there were 3 different stories going at the same time. I normally do not like that style but I feel it really worked well here.

---

### **Jai says**

This is quite possibly the worst book I've ever read. I don't think there was one likeable character in it. Well, maybe Jonas, but his character wasn't even developed - he came across as bland because of it.

The female characters are some of the most annoying I've ever come across in fiction: vapid, weak, whiny and perfectly content to let the so-called alpha males (more weak and whiny characters) boss them around. Shelby, in particular, was aggravating. Her constant dithering was tiresome and infuriating: "Should I leave my husband or not? He's an angry drunk who shouts at me, ridiculed me in front of my parents, forced himself upon me, and is now shackled up with another woman. Hmm, tough decision."

Although a published novel, I proofread this as part of my volunteer work for a charity - the scanning software introduces character errors, so it's my job to correct these typos. It was for a good cause, so I don't regret working on this. But I don't think I'll be selecting a novel like this again!

---

### **Meg says**

This was my first Jackie Collins novel, and while I admit that I went in with quite a bit of skepticism, I ended up pleasantly surprised. *Hollywood Divorces* was a quick and enjoyable read with an entertaining cast of characters that are easily recognized from the entertainment tabloids. Although none of the characters is an

exact recreation of a well-known star, Collins' characters certainly fall into a set of stereotypes.

In general, Collins did a great job of explaining the characters' motivation and making them appear believable and human. However, there were a few small cases where this broke down, and I found myself struggling to justify to myself an action that seemed out of character.

---

### **Karabina says**

Totally trashy book--great for the beach! If you love soap operas, you'll love this book!

---

### **Katie Ingrassia says**

A wannabe 'Real Housewives', this book left so many story lines unfinished, and failed to develop any likable characters. The ending was so cheesy that I actually gagged.
