Not Mine to Give Laura Landon

In a blood-drenched midnight vow, Lady Katherine Downing pledged she would keep the Bishop's crown safe from the Scottish lads who'd stolen it, and return it to England where it belonged. And by king's edict, she would then wed the Earl of Rivershorn, William Bolton. But a man as evil as Bolton could never have her hand...or her heart. Not once she'd kissed her Scot. Finding his entire family slaughtered at the hands of William Bolton suddenly elevated Duncan Ferguson to laird of the clan. His mother, father and two sisters died protecting the stolen crown from Bolton, who took his remaining youngest sister, Brenna, as hostage. Once she is rescued, nothing will stop Duncan from honoring his father's memory by taking the crown back from the woman who has hidden it. Nothing will stop him from keeping the crown out of the hands of the bloody English. Except, perhaps, his beautiful, stubborn English wife - Lady Katherine - and her stubborn midnight vow.

This was a First Reads giveaway book. I was quickly drawn into this story. I fell in love with Kathryn right away. I kept putting myself in her place and feeling her pain as she goes through life knowing her husband only married her in the hopes she would give him the Bishop's Crown and that everyone in the keep hates her because she is English instead of a Scott.

I liked how the reader was able to see the thoughts of both Kathryn and Duncan and could feel their internal pain right along with them. It allowed me to see the thought process behind the stubborn actions and words so that I didn't end up hating one of them for being stupid.

I rated this 4 stars instead of 5 because there are two bedroom scenes that are a lot more detailed than is to my liking. If you don't mind (or like) that kind of thing then this is a 5 star book.

unexpected

I loved this book. I was surprised at how much. I went into it expecting a typical romance. That is not what this is.

Bailey Bristol says

Laura Landon writes some of my favorite Regency Romances, and I had no idea she wrote Scottish as well! NOT MINE TO GIVE is a powerful story of loyalty so fierce it threatens the hearts of two characters who fairly leap off the page. This is a must-read for lovers of Scottish historicals.

Lady Katherine Downing has vowed to return the Bishop's Crown to England. Laird Duncan Ferguson has

vowed to avenge his family's murders by returning the Bishop's Crown to Scotland. And there starts a story of angst, honor, duty, and family allegiance versus country loyalty, as well as an oath to God. This highland adventure has many twists and turns. Mystery and emotion keep these pages turning. As usual Ms. Landon proves that she is a master of her craft. The story is excellent and the writing very skillful. However, if you are like me, and hate violent stories, you might want to skim a little. Also, if you are looking for romance, this book is not it. The hero and heroine are too embroiled in war and politics to have a romantic life. This is just a personal preference, however. No one can take away fact that this s story-telling at its best.

First of all, I received this book free from Goodreads First Reads. Thank you!

I really enjoyed this book and it started off with a bang, not a whimper! It's about a girl who will not give up something because of a promise she made, and is the bone of contention with her mate throughout the book. It takes place in Scotland and the author uses 'nay' for 'no', and 'na' for 'not', to give the speech character and it does the job. A thoroughly engaging read!

Mum says

3.5 Stars. It was a good story, told of a time with great violence and cruelty. The flaw was the incredibly advanced medical care. The people recovered at rates today's hospital's can not beat. It is not a light read. Both H/H struggle with issues of oaths and loyalty. Perhaps the angst is over the top, but the author does like angst! I did like the ending.
