### Spencer says

A mediocre plot accompanied by some truly awful art.

### Steven Shinder says

So we're more than halfway through this arc, and it feels like a really slow burn. Luke gets to the Central Insopter Shrine, but what happens there feels too quick. I do find Luke to be relatable when he realizes that he needs to wait longer and may never become a Jedi. People have been in that spot, working hard and believing they've been making progress and then having to realize that they may not get to a certain place. But other than that, this arc is kinda losing its grip on me. And the style of the human faces still bothers me. I really hope that this series picks up again with Gillen holding the reins.

### Brandon St Mark says

Really good look into the force religions of Jedha, but otherwise not much else happened that I cared about tbh.

### Kami says

- The comic translates what Benthic is saying, but do all the characters understand Torgath? No one has mentioned the language barrier, and Benthic never speaks basic.
  - I wish the whole Jedi stuff on Jedha was explained. I don't understand where Luke is and why it is important.
  - Han and Leia in a speeder is awesome!
  - What was Chewie doing? What was his mission? Why aren't they explaining things?

### Joss says

Interesting story arc. Nice artwork. Well-written characters. I like that it is taking its time to tell its story, but at the same time, for this same reason, I would like it to be more substantial, or longer. Oh well.

### Micah Ulibarri says

A very mythical quest for Luke with some solid Han and Chewie moments thrown in. Adds a lot of world-

---

building even if it barely moves the story forward.

---

### **Chris says**

Can this series get any more boring? Somehow the shadows of Rogue One, and excellent story, have been made mundane and uninteresting when told via classic characters by modern Lucas Story Group. Ugh, come on guys

---

### **Aldo Haegemans says**

I Just don't care about the arc at this point
