When do the words "I'm sorry" mean nothing? When his words hurt more than his touch? What happens when leaving is harder than staying?

Fear.

## From Reader Review Love Conquer for online ebook

3.5 STARS!!!!

This is the first book I've read from this author and the first book I've read in this series. I would say that this book can be read as a standalone because I didn't feel like I missed out on much by not reading the previous books. However, I have to be honest and say that the only part that I wanted to know more of was what happened between Nikki and Aiden, but it touches the topic lightly. This story focuses mainly on Nikki's sister Nina, her ex-Brandon and Kyle. The beginning of the story was interesting but I can't honestly say that I was drawn into the story until about the middle of it. I definitely loved Kyle in this story and Nikki and Gavin. I think the thing that stopped this from being a great read for me was Nina. Yes, I can understand why her character held back a little after what she went through, if she trust Kyle enough to be in his bed, I wanted her to trust him enough to let him in her heart. She said the words but I just didn't feel it. It was completely undeniable when it came to Kyle. He wore his heart on his sleeve and showed it. I wanted to feel the same thing from her and I didn't. However, with that being said it was still a good story. Some parts were a bit predictable but there were a few surprises also, either way it is a story worth reading.

5 favorite stars!! I love this series but this book blew me away!!

This is book 3 in "The Battlefield Of Love" series. It can be read as a stand alone but there was a lot of relationships that I feel you need from the other two books.

♥? This is Nina and Kyle's love story...

Nina~ Yes I am running from my past. I just want my freedom. So who better to run to them my sister, Niki. I am jealous of the love her and Gavin have but I'm not looking for love just trying to find myself. But I can look can't I?!?! Mr Tall Guy is great for that!!

Kyle~ aka Mr Tall Guy. My heart has been broken and I'm not sure I will ever be ok. Sure I have one night stands to try and get it out of my head but this girl at the coffee shop...she catches my attention. Too bad her sister is crazy as hell Niki and I really like my balls intact...

"Sometimes to conquer love, you have to battle your past. Nina, go to war. Fight the battle and win."

?My thoughts...

This book went straight to the favorites list. I KNEW Nina would have one hell of a story!! I relate to her quite a bit and I think she is one strong as woman and unlike other books I have read, where a woman has a similar background, she didn't let her past own her. I'm so proud of her. And damn isn't Kyle just all that and a bag of chips. He is pure perfection. Him and his hard hat. Really this whole series is full of great guys but I love Kyle!!! His past hurt my heart as well. He got burned real

good. These two broken people formed one hell of a beautiful relationship.

My laugh out loud moment from this book was Niki was waiting at the house with apron, welding mask and butcher knife. LMFAO!! That was awesome. I really dig Niki in this role. And Kyles parents are too damn cute. My heart cried for him when he was at the tire swing.

This book is full of love, patience, trust, hope, second chances, yumminess, pain, haunted pasts, loss, secrets, friendships and sooo much more. This is a MUST read!!!

\*\*I received this book as an ARC and in return gave my honest review\*\*

I love this book! It has so much depth and feeling that it grabs me from the getgo. Nina is broken and Kyle is damaged ... together they mend her broken pieces and make him whole once more. So much emotion in this book that has me on edge through out the story. Author Cary Hart did an excellent job with this book. She surpassed my expectation and surprising me yet again with another awesome read. This book and the whole series are such great read!! The POVs in this book weren't long and the back stories are also just right .. not so long that would make me lost interest of what was happening or lessen its effects. I'm recommending this book. Best book in the series so far even though I love Love Divide a lot! I received an advanced copy and this is my honest review.

Nina has spent the last several years living a nightmare, and finally gets the courage up to leave. She ends up at her sister's house to start a new life, but it's slow going as she's been beaten down & has little self worth. As she starts to rebuild a life, she meets Kyle, another tortured soul, but her fears are still at the forefront of her mind, and he has a past that he hasn't quite come to grips with. Can these two broken people heal, and build a relationship? Love Conquer was a great story that had all the emotional feels with it's realism. The talented Cary Hart wrote a realistic portrayal of a woman who left a very abusive situation behind, so it wasn't overnight that Nina got over everything. In fact, some of the triggers came when she thought she was moving on, because like in real life, the fear isn't gone overnight. And Kyle, the man who suffered a great blow in his past relationship, he didn't deal with the aftermath all the way, so he would have big moments of anger. But together, I was cheering for Nina & Kyle, as they deserved a good life after the things that had happened to them. And the colorful cast of secondaries in the guise of her sister & friends, added a huge humor factor that I needed for a break, not to mention more depth. With a few huge twists that had my f-bombs dropping, it was the perfect story in my opinion. CANNOT WAIT to read more by this amazing author, and HIGHLY HIGHLY HIGHLY RECOMMEND TO ALL!

Beautifully written. I don't even have words to describe how fantastic this book was. From the very beginning you know Nina is a broken woman. She escapes from an abusive relationship and runs in the middle of the night to her sister. While trying to feel normal she meets Kyle, who also has a past that he can't

move on from. Two broken people that find each other and heal each other. I loved how even though Nina has the past that she does she never really is afraid of Kyle. She seems to instinctively know that he is a good guy.

I have enjoyed all three books in this series but WOW this book blew me away. My favorite yet. Definitely a book I will recommend.

What a beautiful story! This is my first Cary Hart book and although it is part of a series, it can be read as a standalone novel.

Two tales of broken pasts, Kyle and Nina both struggle to find their peace and to move forward while slowly finding their way towards each others lives and hearts. I am a slow reader, but somehow, I sucked down this story in less than 24 hours.

Kyle is an absolute favorite of mine. I admire his gentleness and kindness, and he was definitely perfect for our dear Nina, who was just recovering from an emotionally and physically abusive relationship. The characters easily wormed their way to my heart and I savored each pain, each blow, each little triumph, because the story will make you FEEL Kyle and Nina's journey to love and healing.

Just finished this book.... All I can say is holy cow.....what an amazing book. I have a connection to this book that I can't explain. This is not only a love story but a healing story. I would recommend this to anyone who needs a little healing and love in their life.. Or just someone who needs to understand how to help someone going thru a struggle in life.

### **Christy Pastore says**

Love Conquer is an outstanding inspired, slow-burn romance filled with heartache, passion, and raw intensity.

Kyle and Nina's addictive story pulls you in right from the first page and will keep you invested until the last. Hart's words are beautiful and emotionally gripping. I felt every emotion the characters went through.

Nina's pain and the often difficult subject matter tackled in Love Conquer was handled with care and illustrated exceptionally well by the author right from the beginning.

I received this book as an Arc to read voluntarily and leave an honest review. I think this Author Cary Hart did a nice job writing this story. Contains sensitive topics around abuse and it's so common in the real life. This book is learning how to heal and to try and open your heart again for love. Can two people help each

other when each are trying to overcome their pasts or will they let it define them. Will Love Conquer. My first book I read and now I'm ready to go back and read the first two. So without giving away too much I'll just stop with this. Once I started reading I had a hard time stopping. Can people find ways to trust again, to open up, to find themselves, to give love a chance. I would recommend this book. I also feel like I've missed saying something but I don't like leaving spoilers. Thank you.

I was given this book as an ARC. Love Conquer follows Nina, who has just escaped to her sister from an abusive boyfriend and Kyle. Kyle was married to his childhood best friend only for her to sleep with and ultimately marry his step brother. Both Nina and Kyle are broken and damaged in different ways. This story follows them as they learn to open up again and to trust. Contains sensitive topics around abuse. A good read

WOW!!!!

Each time I read a book of Cary's, I become more amazed by her ability to write such wonderful stories. The struggles that Nina and Kyle had to overcome was very close to home for me. Niki, who is Nina's sister had me laughing so hard I was in tears. Cary brings reality to her books and that is what I love the most when reading any of her books. This book is a must read, believe me, you will not be disappointed.

Thank you Cary for another awesome book, and yes you do ROCK!!!!

### **Bella says**

Ah! The best one so far. A deep, emotional, touching romance that still retains the classic humour and fast-paced style we have come to know and love Cary Hart for. I really loved this book, and this series, and can't wait to read more from this author.

### **Starr says**

This book! It was filled with feels and I loved the dynamic between the two main characters, Nina and Kyle. Nina was strong throughout the book and definitely someone to admire. Kyle was swoon worthy to the max, but Gavin is still my favorite. I think Kyle comes in at a solid 2nd place. Hand hugs will never be the same. Chivalry isn't dead. Quick read (for me), I couldn't put it down and overall enjoyed it. Definitely recommend this series.

## **Jennifer Richey says**

This is a complete standalone but it's also the 3rd book in the series! Nina is Nikki's sister and she is escaping a domestic relationship so she lays low at her sisters but she also runs into a guy named Kyle. Both think they are broken can they heal together. Wow another amazing story by Cary Hart! Can't wait to see what she has next!
