### Christy Head says

A fun adventure in ancient rome--dealing with a lot of concepts relatable to young kids--from being a "dorkus" to having to implement trickery in certain circumstances. Like all of them, I liked the sketchings present throughout the text. The latin phrases in the back were pretty cool too

### Amy Bodkin says

It was funny but didn't have a great deal of substance (lots of modern references and language). Probably wont last from 9ne generation to the next.

### Ubalstechka says

The boys end up in ancient Rome, in a gladiator school, where they learn that fighting in the arena was not as glamorous as the old movies and TV shows. They have to figure out a way to escape and find someone to help them find the book, before they are fed to some lions.

More silly fun from Jon Scieszka.

### Germaine (Marie) Semodio says

"Summer Reading is killing me: The Time Warp Trio" was a great book that cleverly incorporated many summer reading books into one story! I thought it was truly amazing how Scieszka managed to make all the characters fit into one another's story. I also thought it was clever that at the end, to put the list of the summer reading books - it enabled me to take a look at the list and discover for myself the books that were mentioned. Overall, it was a great read - clever way of putting many classic stories together in one!

For a moment I am going to pretend that I am a 7-10 year old boy and I had just read this book. I would say, "Awesome! This book is cool! I really liked it" Written by a funny author who writes a great boy/guy book these are laugh out loud funny. if you are an adult, just remember elementary school. Boys in elementary will love it!

### Dolly says

The Time Warp Trio is at it again, this time becoming gladiators in ancient Rome. While I have enjoyed reading all of the stories in this series to our girls, they didn't like this one as much as the others. I'm not sure

---

why; it follows the same pattern as the others and has just about as much excitement, danger and suspense. In any case, I'm sure we'll pick out more of the stories in this series to read together.

### **Bexa says**

Read for Battle of the Books.

I like this only because I can see the appeal for young boys. As a female adult, it was really dull.

---

### **Children's Literature says**

Gladiators have swords, armor, and get to fight each other and wild animals. Sounds fun, right? Wrong! The Book takes Joe, Sam, and Fred back in history two thousand years to ancient Rome. Are they smart enough and tricky enough to impress the emperor and gain their freedom? Can you think of a modern day example of a gladiator

### **Zeke says**

All that happened in 85 pages and 13 chapters:

They went to ancient Rome. They found a gladiator. Then they went to gladiator school. Then there was a ninja man. And then everyone started having a food fight. And then they escaped. And then everybody took a bath. And then they went to a coliseum, and they fought people. And then they escaped back home.

In good books that's about what happens in two chapters of five pages.

### **Sharon says**

Very funny book along the lines of Sherman and Mr. Peabody from Rocky and Bullwinkle. Lots of adventure and sarcasm which I really enjoyed too. I think the grandsons enjoyed it as well and I plan to read them more of this series to them as well. Recommend to anyone who likes silly mixed in with a little history.

### **Martin C. says**

This book is about three kids, Sam, Fred and Joe. As you will find out during the story Sam is the intellectual one, Fred the goofy one and Joe the leader or kind of main character...

The three kids are also troublesome as i forgot to mention, you may notice by the first couple pages. One day the three kids are playing wrestling, when Fred is jumping victoriously on the bed, he makes *the book* fly off the book shelf and falls on his lap... The kids are suddenly in ancient Rome, to be more specific in a gladiator school about to be **crushed by a giant gladiator!**. What I like is that the author shows what funny ideas these crazy kids have in different situations like when confronting a big and hairy gladiator, stuff like "Hair

came out of his ears and nose like paintbrushes". It is a very funny book and if you want to relax and take a break, be sure to include this book in it.

### **Christie says**

We found this book when it was a wrapped library surprise. I was pleasantly surprised in the fun premise and liked the bits of historical and Latin content. I will check out more of the series.

### **Karen says**

This isn't the best of the Time Warp Trio books, but it still is a very fun read for a nine-year-old boy -- I should know; I have one.

### **Anessa says**

read this book when I was younger and I enjoyed reading it again

### **Melanie says**

Read aloud to Ben. Suggested on a book list to go along with studies of ancient Rome, but I thought there were more references to modern wrestling than anything else. The setting was Rome, but the story was silly. I will admit Ben liked it fairly well.
