Disappointing

##This book could've been so good but it was incredibly rushed. No way was this book 274 pages as it states. I read it in 2 hours max. I loved the synopsis, however, it failed to deliver. The heroine was capable and strong so it felt out of character for her to forgive the hero instantly as she did. He brought the same danger to her as he would've 18 years prior so again it made no sense that he waited that long. Also, his reaction (or lack thereof) to finding out he had a child was bizarre. No emotion, no regret for missing out on 18 years...just nothing. Sorry, can't really recommend.

Good

So much better. Either the story is better or the writing from the first one. I really connected with the characters and the story in this book. Really liked that Abby can stand on her on two feet. Great nook
