The Secret History of a Teenage Vampire

Will Hill

The Secret History of a Teenage Vampire Will Hill

Larissa Kinley is a fully armed Operator for Department 19, a secret branch of the British government dedicated to saving us all from the supernatural. She's also a vampire. And a teenage girl.

When the 17-year-old survivor of a vampire attack is brought to the Department's secret base, Larissa sees the chance to find out what a normal life is like, the kind of life she could have had if things had gone differently. As the two girls talk, Larissa finally finds the courage to tell someone her deepest secrets, and the terrible things she has done to survive as a creature of the night. But when the past catches up with you, sometimes it has fangs...

Included in the World Book Day 2013 App.

Sarah says

Definitely going to check out this series!

Alex Folkins says

This book was very fast paced. I wish it had been longer. But a nice little something to read. The story was great and I loved the characters.

Alexandra says

It was a good story. I got this book free on my Amazon Kindle. I thoroughly enjoyed the world Hill created. I wanted to keep reading after the story ended. I can't wait to read more about the series.

Kayla Eklund says

The beginning of this book was boring and confusing. It got better by the end of the book, but not by much.

Andrew says

Ok am getting the hang of these Department 19 files now - as I have just read the first file. It is considerably shorter than the previous one and really could also be treated as a short story or even a set of introductory chapters to a larger piece of work - however it is self contained and actually quite good fun (ok I have not read further in the series so I can sort of justify this question but it seems that there are similarities to this and a UK TV series of a few years back called Ultraviolet but that is just me and my over active mind making leaps again)

The writing is fast paced and punchy and I instantly can imagine and connect with the main characters so I think there is great possibilities for this series. We shall see- shall I buy more of the files or just dive in to the books - ah decisions decisions.

Molly says

I'm telling you, this just keeps getting better and better!!

Kelvin Clements says

Nice little short story to go with this series.

Olivia Bloor says

just reasently I have read now 4 books in 28 hours im so proud of my self I loved this book and I can wait to look in to the rest of the series

Katy H says

I just felt like reading a short, story. This was only a 26 page nookbook, so it fit the bill perfectly. As an added plus, it was fun - if, like me, you like this sort of story.

evan says

Two or 3 pages long

Not worth your time as is this review I had to but in 7 more words for this review to submit

Rich Redman says

I expected a "book" to be a novel, but that's an issue with marketing and not with writing. Overall, it's promising and I want to read more of the series, but I thought the Rusmanov clue was a little too obvious.

Ht says

short but different.

Andre says

yolo

IceHouse says

Love this book

I loved this book and I suggest it for any teen and I would have liked if it was more of a larger book and not a short story.

Kirsty says

Enjoyed this lots
